**The Many Faces of Christianity**, 2025-08-28 Is the Russian invasion of Ukraine a Holy War This book offers insights into the complex ideology of the Russki Mir or Russian World which must be understood as Russian shaped world order or peace but above all a claim to the sacred The collected essays describe how Far Right politics in Europe and its resonances with the Russian World nod to the changing meaning of Christianity defying and transforming the categories of religion and politics and challenging common conceptions of the role of Christianity in European politics

**The Many Faces of the Contemporary Russian Propaganda in the Balkans** Vladimir Đorđević, 2024-09-05 The Many Faces of the Contemporary Russian Propaganda in the Balkans Sputnik Srbija analyzes information published by the news website Sputnik Srbija during the first year of the Russian invasion of Ukraine This book provides an overview of the contemporary Serbian media sphere and the dire conditions that Serbian journalists face to explore how Russian propaganda has flourished in the region This volume establishes a framework to understand the ideological core of Russian propaganda that above all aims to reconstruct societal reality through anti Western rhetoric This framework helps to explore the relationship between Russian propaganda and Serbian nationalism expanding on the significance of their mutual ties and confronting the implications of their close knit connections

**Architectures of Violence** Kate Ferguson, 2022-05-01 Paramilitary or irregular units have been involved in practically every case of identity based mass violence in the modern world but detailed analysis of these dynamics is rare Exploring the case of former Yugoslavia the genocides in Rwanda and Darfur and the ongoing violence in Syria Kate Ferguson exposes the relationships between paramilitaries state commands local communities and organized crime She presents these architectures of violence as a way of comprehending how the various structures of command and control fit together into domestic and international webs of support enabling and encouraging irregular and paramilitary violence Visible paramilitary participation in modern mass atrocities has succeeded in masking the continued dominance of the state in a number of violent crises Irregular combatants have participated so significantly in committing atrocity crimes because political elites benefit from using unconventional forces to fulfil ambitions that violate international law and international policy responses are hindered when responsibility for violence is ambiguous Ferguson's inquiry into these overlooked dynamics of mass violence unveils substantial loopholes in current atrocity prevention architecture Until these are addressed state authorities will likely continue to use irregular combatants as perpetrators of atrocity

after the end of the Cold War societies in and scholars of East Central Europe still struggle to sort out the effects of state socialism on gender relations in the region What could tell us more about the subject than the ideas set out by the only organised and explicitly feminist opposition in the region who as academics artists writers and activists criticised the regime and demanded change

Congressional Globe 1833 1873      *Gender Politics in the Western Balkans* Sabrina P. Ramet, 2010-11-01 The first book in English to discuss the politics of gender relations in both socialist Yugoslavia and its post socialist successor states      **East European Economies: Country studies on Eastern Europe and Yugoslavia** ,1985      **Pressures for Reform in the East European Economies** ,1989      *Paradoxes of European Foreign Policy* Jan Zielonka, 2023-09-29 The European Union's foreign policy is full of paradoxes The Union aspires to be a powerful international actor without becoming a super state It hopes to prevent and manage conflicts but refrains from acquiring the military means to do so It embarks on the project of widening its borders but continues its deepening project which makes the entrance hurdles for applicant countries ever higher It wishes to maintain strong transatlantic links but continues to build institutions that make the EU more independent from if not competitive with the United States In this stimulating book distinguished European and American intellectuals offer solutions to imperative but unanswered questions How can the Union's enormous normative power of attraction combined with its operational weakness be explained Can the Union remain a civilian power when coping with an uncivilized world Can a European foreign policy get off the ground without prior emergence of a European demos Are national policies within the Union increasingly convergent or divergent And how can the Union's international performance be assessed

**Yugoslavia From "National Communism" to National Collapse: US Intelligence Community Estimative Products on Yugoslavia, 1948-1990** ,2007-04-23 Contains a collection of 34 declassified National Intelligence Estimates and memoranda representing the United States Intelligence Community's most authoritative analysis of Yugoslavia spanning four decades from the 1948 break with the Soviet Union until 1990 and the eve of the nation's collapse      **The Department of State Bulletin** ,1980 The official monthly record of United States foreign policy      *Hip Hop at Europe's Edge* Milosz Miszczynski, Adriana Helbig, 2017-03-27 Essays examining the impact of hip hop music on pop culture and youth identity in post Soviet Central and Eastern Europe Responding to the development of a lively hip hop culture in Central and Eastern European countries this interdisciplinary study demonstrates how a universal model of hip hop serves as a contextually situated platform of cultural exchange and becomes locally inflected After the Soviet Union fell hip hop became popular in urban environments in the region but it has often been stigmatized as inauthentic due to an apparent lack of connection to African American historical roots and black identity Originally strongly influenced by aesthetics from the United States hip hop in Central and Eastern Europe has gradually developed unique local trajectories a number of which are showcased in this volume On the one hand hip hop functions as a marker of Western cosmopolitanism and democratic ideology but as the contributors show it is also a malleable genre that has been infused with so much local identity that it has lost most of its previous associations with the West in the experiences of local musicians audiences and producers Contextualizing hip hop through the prism of local experiences and regional musical expressions these valuable case studies reveal the broad spectrum of its impact on popular culture and youth identity in the post Soviet world The volume represents a valuable and

timely contribution to the study of popular culture in central and eastern Europe Hip Hop at Europe's Edge will not only appeal to readers interested in contemporary popular culture in central and eastern Europe but also inspire future research on post socialism's unique local adaptations of global cultural trends The Soviet and Post Soviet Review The authors of this edited volume do not romanticize and heroize the genre by automatically equating it with political opposition a fate often suffered by rock before Instead the book has to be given much credit for presenting a very nuanced picture of hip hop's entanglement or non entanglement for that matter with politics in this wide stretch of the world past and present The Russian Review

**This Is Not My World** Adair Rounthwaite, 2024-01-16 A close up history of the Yugoslav artists who broke down the boundaries between public and private In the decades leading up to the dissolution of socialist Yugoslavia a collective of young artists based in Zagreb took to using the city's public spaces as a platform for radical individual expression This Is Not My World presents a detailed account of the Group of Six Authors and their circle in the prolific and experimental period from 1975 to 1985 highlighting the friction between public and private that underlied their innovative practices Looking to circumvent the rigid bureaucracy of official art institutions this freewheeling group of conceptual artists and their peers brought artistic activities directly to an unwitting public by staging provocative performances exhibiting artworks and interacting with passersby on the streets Exploring artworks such as Vlasta Delimar's act of tying herself to a tree in a busy pedestrian area eljko Jerman's production of a giant banner declaring Intimate Inscription in the city's central square and Vlado Martek's creation of an artwork on a

seaside beach using women's underwear Adair Rounthwaite examines the work of these artists as a site of tension between the intimacy of artistic expression and the political structure of the public sphere under state socialism Whereas many histories of modern and contemporary art in formerly socialist countries tend to be dominated by discussions of ideology and resistance *This Is Not My World* focuses its attention on the affective aspects of the group's activities using artist interviews and extensive documentation to bring the reader closer to the felt experience of their public interventions Situating the group's work within the context of broader developments in conceptualism and theories of the avant garde Rounthwaite provides a fresh consideration and newly detailed account of this marginalized episode in global art history
