Pioneers of Public Education J. Herbst, 2008-11-10 The book narrates the story of how the school founded by women pioneers of public education in a Rocky Mountain mining settlement became the centre and sustaining force of the town's community life from its beginning in the 1870s to the present day *Riding the High Wire* Robert A. Trennert, 2001-08-15 *Riding the High Wire* is the first comprehensive history of aerial mine tramways in the American West describing their place in the evolution of mining after 1870 Robert A Trennert shows how the mid nineteenth century development of wire rope manufacturing made it possible for American entrepreneurs such as Andrew S Hallidie and Charles Huson to begin erecting single rope tramways in the 1870s and 1880s Their inventions were followed by the more substantial double rope systems imported from Europe By the turn of the century aerial tramways were common throughout western mining regions hauling everything from gold and silver ore to coal and salt and changing the face of the industry Aerial mine tramways proved to have a special fascination people often rode them for a thrill sometimes with disastrous results They were also very temperamental needed constant attention and were prone to accidents The years between 1900 and 1920 saw the operation of some of the west's most spectacular tramways but the decline in high country mining beginning in the 1920s coupled with the development of more efficient means of transportation made this technology all but obsolete by the end of the Second World War Historians and the general reader will be equally enthralled by Trennert's fascinating story of the rise and fall of aerial mine tramways Professor Trennert has explored a new area of mining history and is to be commended for his pioneering work Liston Leyendecker author of *The Griffith Family and the Founding of Georgetown* **Restless Enterprise** Katherine Manthorne, 2020-12-15 Eliza Pratt Greatorex 1819-1897 was America's most famous woman artist in the mid nineteenth century but today she is all but forgotten Beginning with her Irish roots this biography brings her art and life back into focus Breaking conventions for female artists at that time Greatorex specialized in landscapes and streetscapes traveling

from the Hudson River to the Colorado Rockies and across Europe and North Africa Her crowning achievement a monumental tome of drawings and narratives titled *Old New York* awakened the public to the destruction of the city's architectural heritage during the post Civil War era Exploring Greateorex's fierce ambition and creative path Katherine Manthorne reveals how her success at forging an independent career in a male dominated world shaped American gender politics visual culture and urban consciousness

Turner, 2003 This stunning new volume chronicles the story of the most spectacular preserved steam railroad in North America from its origins as the Denver Rio Grande's San Juan Extension to its present day operations as the Cumbres Toltec Scenic Railroad The book spans more than 120 years of railroading in the breathtaking high country of Colorado and New Mexico

The Mountainous West William Wyckoff, Lary M. Dilsaver, 1995-01-01 Traditional interpretations of the American West have concentrated on the importance of its aridity to the region's cultural evolution and development But the West is marked by a second fact of physical geography that distinguished it from the experiences of settlers from the east As pioneers struggled with the climate west of the hundredth meridian they were also confronted by mountains strewn across the region and offering their own set of limitations and opportunities This volume focuses on these green islands of the Mountainous West that have witnessed patterns of settlement and development distinct from their lowland neighbors In thirteen essays the contributors address the mountains by means of five themes the mountains as barriers to movement islands of moisture a zone of concentrated resources an area of government control and a restorative sanctuary The focus ranges from California's Sierra Nevada to the Rocky Mountains of Colorado Utah and Montana William K Wyckoff is an associate professor Department of Earth Sciences Montana State University He is the author of *The Developer's Frontier The Making of the Western New York Landscape* and of articles in many journals including *The California Geographer* *Social Science Journal* *Geographical Review* and *Journal of Historical Geography* Lary M Dilsaver is a professor in the Department of Geology and Geography University of South Alabama The author with William Tweed of *Challenge of the Big Trees A Resource History of Sequoia and Kings Canyon*
