Many Sisters Women In Cross Cultural Perspectives:

Many Sisters Carolyn J. Matthiasson, 1974 **Engendering Hong Kong Society** Fanny M. Cheung, 1997 This book provides a scholarly overview of women's status in Hong Kong from a gender perspective. The contributors are associated with the Gender Research Programme at the Chinese University of Hong Kong. The chapters offer substantive analyses on the indicators of women's status including education, work, division of domestic labour, gender roles, women's movement, and public policies affecting women. The historical, cultural context of women's status and the cross-cultural relevance of women's studies are also examined. This book embraces both longitudinal as well as cross-sectional perspectives and includes both quantitative and qualitative materials. It is not only a scholarly document on Chinese women in Hong Kong but also a statement marking their changing status. Readers interested in women's issues, gender studies, and Chinese studies will find this book a useful reference.

Women of Power Torild Skard, 2015-03-09 At a time when a woman, Angela Merkel, is arguably the most powerful leader in Europe and another Hilary Clinton continues to be at the center of the US political stage, it seems that women have broken through the glass ceiling and begun to populate the highest offices of the political world. *Women of Power* is a testament to that accomplishment, offering the most comprehensive overview of female presidents and prime ministers to date. Looking at over fifty countries and over seventy women leaders since 1960, Torild Skard, herself an experienced politician, examines how and why these women rose to the top and what their leadership has meant for women's empowerment throughout the latter half of the twentieth century. Skard examines the achievements and life stories of the world's female leaders up to the current era. She offers nuanced portraits that draw on a number of materials, including many interviews that she conducted herself. All of the women discussed are organized by both chronology and geography, and Skard includes a number of helpful chapters that provide an overview and assessment of how different women leaders have come to power in different regions. Overall, the book provides a fascinating account of women's empowerment as it has manifested itself at the very top of the political hierarchy.
