*Translations of papers 1 to 75 and notes to papers 1 to 65 inclusive* China. Zong li ge guo shi wu ya men, 1905 **Mao's China and the Sino-Soviet Split** Mingjiang Li, 2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li's book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology **Propaganda and Culture in Mao's China** Timothy Cheek, 1997 This biography of Deng Tuo 1912-1966 is a social history of intellectuals as agents in China's socialist revolution It places Deng

Tuo s writings and ideas in the rich context of his social experience as a member of the Communist bureaucracy and as an elite artist and aesthete The tension between service to politics and service to culture was ultimately disastrous for Deng and for China s revolution his ghost haunts the halls of power in Beijing today      **Mao's Way** Edward E. Rice,2023-11-10 This major biography of Mao draws on never before seen documents to reveal surprising details about Mao s rise to power and leadership in China This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972      **Bulletin** ,1995      *China's Road to Disaster: Mao, Central Politicians and Provincial Leaders in the Great Leap Forward, 1955-59* Frederick C Teiwes,Warren Sun,2016-07-01 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956 57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman s recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded      **Organizing China** Harry Harding,1981-06-01 Since the establishment of the People s Republic in 1949 Chinese Communist leaders have constructed an administrative apparatus that has exercised broader and tighter control over Chinese society than any previous government in the country s history This is a history of the development of Chinese organizational policy a topic of constant concern and often strident debate from 1949 to the death of Mao Tse tung in 1976 The author argues that Chinese organizational policy has been controversial because of the complexity of administrative problems the effects of policy changes on the distribution of power and status and the philosophical dilemma of whether the efficiency of modern bureaucracy outweighs its social and political costs He also shows how extreme approaches such as demands during the Cultural Revolution that bureaucracy be destroyed altogether or proposals during the 1950s that the bureaucracy be rationalized have been repeatedly rejected in favor of a policy more in keeping with much of Chinese tradition to recruit officials on the basis of their political views subject them to ideological indoctrination and rely on mass

campaigns to implement Party policy      Mao's China and the Cold War Jian Chen, 2010-03-15 This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage. Chen says The Korean War, the Taiwan Strait crises and the Vietnam War all of which involved China as a central actor represented the only major hot conflicts during the Cold War period making East Asia the main battlefield of the Cold War while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the book offers pathbreaking insights into the course and outcome of the Cold War.      **Mao Papers** Zedong Mao, 1970      Parliamentary Papers Great Britain. Parliament. House of Commons, 1902      *Mao's Generals Remember Korea* Xiaobing Li, Allan Reed Millett, Bin Yu, 2001 Fifty years after the Korean conflict, what is a forgotten war for some Americans is an aching memory for China. With over a million casualties out of the three million soldiers sent into battle, that war looms as large for the People's Republic of China (PRC) barely a year old when North Korea invaded the South as World War II does for most other countries. It was the first international war fought by the Chinese Communist regime to halt counterrevolution; it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers' superior political quality. This book presents a mosaic of memoirs by key Chinese military commanders from that war, drawing not only on their personal papers but also on still classified archives and on Chinese language sources unavailable in English. It offers an uncensored, behind-the-scenes story of the Communist campaign from the decision to intervene through the truce negotiations that disclose new information on such facets of the war as strategy and tactics, use of propaganda and mobilization of the Chinese population. It also reveals the generals' concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States. The book contains a wealth of new materials on the Chinese intervention, including combat operations, logistics, political control, field command and communications. Among those whose recollections are recorded, then acting Chief of Staff Nie Rongzhen reveals how party leadership decided on intervention. Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao, and General Yang Dezhi shares secrets of Chinese military strategy and tactics, discussing how the army orchestrated each battle to contend with the better equipped UN forces. The volume also features an updated short history of the PRC's conduct of the war based on Chinese sources, plus rare photos from Chinese archives that put readers behind the lines from the Chinese side. *Mao's Generals Remember Korea* demonstrates that the PRC continues to draw military, diplomatic and strategic lessons from the war it fought fifty years ago with the world's most powerful military force. It offers valuable insight into the Chinese way of war and the military mind of

Mao that will be a rich resource for Asian and military scholars

**Marx and Marxism** Gregory Claeys, 2018-04-24 A new biography of Karl Marx tracing the life of this titanic figure and the legacy of his work Karl Marx remains the most influential and controversial political thinker in history He died quietly in 1883 and a mere eleven mourners attended his funeral but a year later he was being hailed as the Prophet himself whose name and writings would endure through the ages He has been viewed as a philosopher economist historian sociologist political theorist even a literary craftsman But who was Marx What informed his critiques of modern society And how are we to understand his legacy In *Marx and Marxism* Gregory Claeys a leading historian of socialism offers a wide ranging accessible account of Marx's ideas and their development from the nineteenth century through the Russian Revolution to the present After the collapse of the Soviet Union his reputation seemed utterly eclipsed but now a new generation is reading and discovering Marx in the wake of the recurrent financial crises growing social inequality and an increasing sense of the injustice and destructiveness of capitalism Both his critique of capitalism and his vision of the future speak across the centuries to our times even if the questions he poses are more difficult to answer than ever

*The China Mission: George Marshall's Unfinished War, 1945-1947* Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall's charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life *The China Mission* offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today

**In the Lap of Tigers** John Cleverley, 2000-02-22 Founded in the forested mountains of China's remote Jiangxi Province in 1958 the Communist Labor University along with some 100 branch campuses introduced uneducated farmers and peasants to basic agricultural science and farming techniques through an innovative work study program until 1980 Drawing on a wealth of archival materials John Cleverley here explores the inner workings of this unique Chinese institution and the direct personal involvement in its affairs by the nation's key communist leaders including Mao Zedong Zhou Enlai Zhu De and Deng Xiaoping The community would survive the dictates of political agriculture famine and pestilence and the Cultural Revolution thus mirroring higher education's own cycle of expansion contraction and division Yet the university could not avoid the bitter factional politics and deadly power plays of the 1970s Open to the charge that it was a utopian experiment another of Mao's great follies its undoing was part of the larger canvas of China's shift from a Maoist

vision to Deng's philosophy of pragmatic socialism. This fascinating story illuminates the internal and external politics of an innovative educational enterprise from both an institutional and personal perspective. In the process, the book underscores the larger issues of educational reform and political and social change in China. MAO PAPERS, 1970
