## **Mao The Unknown Story:**

Mao Jung Chang, Jon Halliday, 2006-11-14 The most authoritative life of the Chinese leader ever written Mao The Unknown Story is based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intimate and intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed Japanese occupation of much of China and he schemed poisoned and blackmailed to get his way After Mao conquered China in 1949 his secret goal was to dominate the world In chasing this dream he caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime Was Mao Really a Monster? Gregor Benton, Lin Chun, 2013-09-13 Mao The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list Few works on China by writers in the West have achieved its impact Reviews by serious China scholars however tended to take a different view Most were sharply critical questioning its authority and the authors methods arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise Mao This book brings together sixteen reviews of Mao The Unknown Story all by internationally well regarded specialists in modern Chinese history and published in relatively specialised scholarly journals Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate While agreeing that Mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed Mao Jung Chang, 2006 Based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him this is the most authoritative life of Mao ever written It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed the Japanese occupation and he schemed poisoned and blackmailed to get his way After he conquered China in 1949 his secret goal was to dominate the world He caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime p 4 of cover Tyrannical Minds Dean A Haycock, 2019-04-02 An incisive examination into the pairing of psychology and situation that creates despotic leaders from the author of Murderous Minds Not everyone can become a tyrant It requires a particular confluence of events to gain absolute control over entire nations First you must be born with the potential to develop brutal personality traits Often this is a combination of narcissism

Human Nature and the Causes of War John David Orme, 2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism

practical results when applying these destructive and misleading concepts to society in the last 100 years      *Moral Apologetics for Contemporary Christians* Mark Coppenger, 2011-10-14 A respected Christian apologist thoughtfully pushes back against critics of the faith as well as cultural relativists arguing that Christianity is morally superior to its competitors and above all true      Telling the Truth: China's Great Leap Forward, Household Registration and the Famine Death Tally Songlin Yang, 2021-05-25 This book discusses what is often called the Great Leap Famine which occurred in China during the years from 1959 to 1961 Scholarly consensus suggests that 30 million Chinese perished Yang Songlin's book provides an evidence based systematic and substantial rebuff concluding that a much smaller number of deaths can be verified This book is of interest to scholars of China and Chinese development and politics economists and demographers      *Mao's Third Front* Covell F. on perceptions of Mao and of the Great Leap Forward itself      **Mao's China and the Sino-Soviet Split** Mingjiang Li, 2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li's book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology      Mao's Forgotten Successor Robert Weatherley, 2010-07-30 Hua Guofeng succeeded Mao in 1976 emerging almost out of nowhere following an unexceptional career in Shanxi and Hunan In just over two years Hua had been eclipsed by Deng Xiaoping a more politically shrewd progressive and charismatic figure If Hua's rise to power was remarkable then this fall was even more so      **China's Long March to Freedom** Kate Zhou, 2017-09-08 China is more than a socialist market economy led by ever more reform minded leaders It is a country whose people seek liberty on a daily basis Their success has been phenomenal despite the fact that China continues to be governed by a single party Clear distinctions between the people and the government are emerging underlining the fact that true liberalization cannot be imposed from above Although a large percentage of the Chinese people have been part of China's long march to freedom farmers entrepreneurs migrants Chinese gays sex pleasure seekers and black marketers played a particularly important role in the beginning Lawyers scholars journalists and rights activists have jumped in more recently to ensure that liberalization continues Social dissatisfaction with the government is now published in the media addressed in public forums and deliberated in courtrooms Intellectuals devoted to improvement in human rights and continued liberalization are part of the process This grassroots social revolution has also resulted from the explosion of information available to ordinary people especially via the Internet and far reaching international influences All have fundamentally altered key elements of the moral and material content of China's party state regime and society at large This social revolution is moving China towards a more liberal society despite its government The Chinese government reacts rather than leads in this transformative process This book is a landmark a decade in the making
