Mao Zedong A Bibliography:

Mao Zedong Alan Lawrance,1991 One of a series this contains a biographical essay a chronology a survey of manuscript resources an annotated bibliography of historical and biographic works on Mao and his place in history speeches and writings by Mao a summary of newspaper coverage and a bibliography of newspapers **Post-liberation Works of Mao Zedong** ,1976 **Post-liberation Works of Mao Zedong** John Bryan Starr,Nancy Anne Dyer,University of California.Center for Chinese Studies,1976 **Twentieth Century China: An Annotated Bibliography of Reference Works in Chinese, Japanese and Western Languages** James H. Cole,2019-07-23 This bibliography of reference works from Chinese Japanese and Western language sources covers the 1911 Revolution the Republic of China 1912 1949 the People s Republic of China 1949 onwards post 1911 Hong Kong and Macau and post 1911 overseas Chinese Filled with helpful checklists charts and suggestions for further reading this practical comprehensive and multidisciplinary guide takes readers through the entire case writing process including skills for writing both teaching cases and research cases This edition includes new discussions of students as case writers and how to interpret and respond to reviews as well as updated and expanded material on video multimedia and Internet cases **China Bibliography** Harriet T. Zurndorfer,2021-12-06 This volume serves as a guide to all facets of China study from advice on choosing an appropriate literary dictionary to finding the most recent yearbooks that offer statistical data about the contemporary economy China Bibliography does not restrict itself to one particular discipline but considers the development of Chinese civilization as a whole from its imperial beginnings to the present and therefore demonstrates how one would find information about Chinese history literature religion linguistics collectanea as well as present day PRC economic and political policies Because this book also explains how bibliographical data on China has accumulated over the last 300 years including within China itself it also may help the reader understand the significance of a particular type of reference work *Mao Papers* Zedong Mao,1970 [Mao's Crusade](#) Alfred L. Chan,2001-06-07 During 1957 and 1958 Mao was seized by a vision that the Chinese economy could develop rapidly in leaps and bounds by relying on intuition and mass spontaneity As a consequence he single handedly launched a colossal mobilization campaign called the Great Leap Forward which featured many radical policy innovations including the people s communes This book is the first in depth and original study of policy formulation and implementation during the Leap to link the roles of Mao the central leaders the ministries and the province of Guangdong Rejecting the theory that the Leap was an outcome of bureaucratic politics and competition the study establishes beyond doubt the supreme and dominant position of Mao in initiating and commanding the Leap Alfred L Chan goes further than propounding a Mao dominant model by documenting the strategic and tactical moves made by Mao in order to neutralize all opposition and to carry the day He also discusses in detail the policy roles and input of other top leaders on whom the improvising Mao relied to feed his imagination and to flesh out his policies In the chapters on the implementation of the Leap Dr Chan

explores how the ministries of Metallurgy and Agriculture were transformed from bureaucratic agencies into agents of mobilization and how impossible targets forced them to keep up appearances by focussing on the rituals of mass mobilization. Similarly other chapters on Guangdong show the simultaneously fervent ritualistic and desperate attempts to implement every hunch and intuition emanating from the centre. Exhaustive research using new material made available in the post Mao era as well as archives from the 1950s and 1960s has yielded novel and original insights into the leader Mao's central decision making and policy implementation in the communist hierarchy.

Carl Schmitt, Mao Zedong and the Politics of

Transition Qi Zheng, 2015-10-22 This book develops a new way of reading and benefiting from Schmitt's legal and political theories. It explores Schmitt's theories from the perspective of what I refer to as the politics of transition. It also contributes to identifying the real theoretical relationship between Schmitt and Mao.

Mao Tse-tung (Zedong) Alan Lawrance, 1991

China During the Cultural Revolution, 1966-1976 Tony H. Chang, 1999-01-30 One of the most tumultuous periods in modern Chinese history, the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life, including art, music and drama, education, factory management, economic planning and medical care. Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades. This comprehensive, easy-to-use bibliography provides a guide to published English language sources on the Cultural Revolution. With over a thousand entries, it includes books, monographs, dissertations and audio-visual materials on a broad range of topics from the military, education, religion and economics to foreign relations, population, art, literature and drama. Including titles published through the end of 1997 and a few in 1998, the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China. Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history.

Self-Reflections of Fears and Dreams Ray T. Hartman,2023-04-15 While the years between 1927 and 1953 in China were a time of war revolution and social disintegration they were also a time for building political legitimacy In this ground breaking work Ray Hartman painstakingly details how Chinese Communist Party CCP leaders perceived political legitimacy during the party s formative years He argues that Chinese Communist leaders conception of legitimacy was the main force driving the party s policies and military strategy during this time Although legitimacy often comes up in discussions pertaining to the CCP s performance regarding the party s policies whether they be social economic or military this work is the first to demonstrate how top CCP leaders themselves understood the concept Providing extensive documentation from party directives and speeches including recently available sources as well as memoirs written by party members and military leaders the author reveals a CCP consumed with the notion of its own legitimacy in hopes of not only attaining power but

saving the Chinese state from destructive internal and external forces **Behind the Gate** Fabio Lanza, 2010-08-13 On May 4 1919 thousands of students protested the Versailles treaty in Beijing Seventy years later another generation demonstrated in Tiananmen Square Climbing the Monument of the People's Heroes these protestors stood against a relief of their predecessors merging with their own mythology while consciously deploying their activism Through an investigation of twentieth century Chinese student protest Fabio Lanza considers the marriage of the cultural and the political the intellectual and the quotidian that occurred during the May Fourth movement along with its rearticulation in subsequent protest He ultimately explores the political category of the student and its making in the twentieth century Lanza returns to the May Fourth period 1917 1923 and the rise of student activism in and around Beijing University He revisits reform in pedagogical and learning routines changes in daily campus life the fluid relationship between the city and its residents and the actions of allegedly cultural student organizations Through a careful analysis of everyday life and urban space Lanza radically reconceptualizes the emergence of political subjectivities categories such as worker activist and student and how they anchor and inform political action He accounts for the elements that drew students to Tiananmen and the formation of the student as an enduring political category His research underscores how during a time of crisis the lived realities of university and student became unsettled in Beijing and how political militancy in China arose only when the boundaries of identification were challenged **Confucian Marxism** Weigang Chen, 2013-09-25 Buttressed by an autocratic system China's colossal economic growth over the past decades seems to have had the paradoxical effect of undermining the foundation of Western domination but at the same time invigorating Eurocentricism In particular it highlights the current relevance of the central conviction of Weber's Orient the absence of civic roots in non Western societies will create a kind of uncivic capitalist system in which one has no choice but to seek to compensate for instabilities through authoritarian institutions Does this mean that the West may alone afford to harmonize political stability with the universalistic ideal of justice as the basic structure of society If not how then is it possible to develop a notion of the primacy of social justice that transcends the limits of liberal democracy This book aims at addressing these timely questions by drawing on Confucian Marxism a distinctive perspective on civil society
