Mao Zedong Yu Lin Biao Chinese:

The Constitutional and Legal Development of the Chinese Presidency Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP's step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president's role and status within the CCP's collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP's major political practices such as Mao Zedong's power of last say his idea of two fronts his controversial abolition of the chairmanship Deng Xiaoping's idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents thus illuminating how law has been made in those unpredictable political environments and how politics has been defined by law The author concludes that the office of president is the key to understanding how power in China derives first from the CCP second from the military and third from the government loosely prescribed by laws Even more important the millennia old Confucian concept of the charismatic leader is alive and well While all eyes are on the new incumbent his predecessors have loomed large and continue to exert significant influence on him Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China With so many variables at play the office of the president will certainly continue to evolve Mao's Last Revolution Roderick MACFARQUHAR, Michael Schoenhals, 2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In

Worse Than a Monolith Thomas J. Christensen,2011-03-14 In brute force struggles for survival such as the two World Wars disorganization and divisions within an enemy alliance are to one s own advantage However most international security politics involve coercive diplomacy and negotiations short of all out war *Worse Than a Monolith* demonstrates that when states are engaged in coercive diplomacy combining threats and assurances to influence the behavior of real or potential adversaries divisions rivalries and lack of coordination within the opposing camp often make it more difficult to prevent the onset of conflict to prevent existing conflicts from escalating and to negotiate the end to those conflicts promptly Focusing on relations between the Communist and anti Communist alliances in Asia during the Cold War Thomas Christensen explores how internal divisions and lack of cohesion in the two alliances complicated and undercut coercive diplomacy by sending confusing signals about strength resolve and intent In the case of the Communist camp internal mistrust and rivalries catalyzed the movement s aggressiveness in ways that we would not have expected from a more cohesive movement under Moscow s clear control Reviewing newly available archival material Christensen examines the instability in relations across the Asian Cold War divide and sheds new light on the Korean and Vietnam wars While recognizing clear differences between the Cold War and post Cold War environments he investigates how efforts to adjust burden sharing roles among the United States and its Asian security partners have complicated U S China security relations since the collapse of the Soviet Union
