Mao: A Biography Ross Terrill, 1999 Everyone who came in close contact with Mao was taken aback at the anarchy of his personal ways. He ate idiosyncratically. He became increasingly sexually promiscuous as he aged. He would stay up much of the night, sleep during much of the day and at times he would postpone sleep, remaining awake for thirty-six hours or more until tension and exhaustion overcame him. Yet many people who met Mao came away deeply impressed by his intellectual reach, originality, style of power within simplicity, kindness toward low-level staff members and the aura of respect that surrounded him at the top of Chinese politics. It would seem difficult to reconcile these two disparate views of Mao. But in a fundamental sense, there was no brick wall between Mao and the

person and Mao the leader This biography attempts to provide a comprehensive account of this powerful and polarizing historical figure

Alexander V. Pantsov, Steven I. Levine, 2012-10-02 This major new biography of Mao uses extensive Russian documents previously unavailable to biographers to reveal surprising details about Mao's rise to power and his leadership in China. Mao Zedong was one of the most important figures of the twentieth century, the most important in the history of modern China. A complex figure, he was champion of the poor and brutal tyrant, poet and despot. Pantsov and Levine show Mao's relentless drive to succeed vividly, describing his growing role in the nascent Communist Party of China. They disclose startling facts about his personal life, particularly regarding his health and his lifelong serial affairs with young women. They portray him as the loyal Stalinist that he was, who never broke with the Soviet Union until after Stalin's death. Mao brought his country from poverty and economic backwardness into the modern age and onto the world stage. But he was also responsible for an unprecedented loss of life. The disastrous Great Leap Forward, with its accompanying famine, and the bloody Cultural Revolution were Mao's creations. Internationally, Mao began to distance China from the USSR under Khrushchev and shrewdly renewed relations with the U.S. as a counter to the Soviets. He lived and behaved as China's last emperor.

This penultimate volume in the series, Volume 9, covers the period from the Japanese Surrender through the Chinese Communist Party's Strategic Defense during the Civil War, August 1945 to June 1947.

Was Mao Really a Monster? Gregor Benton, Lin Chun, 2013-09-13 Mao: The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare. The book portrays Mao as a monster equal to or worse than Hitler and Stalin, and a fool who won power by native cunning and ruled by terror. It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list. Few works on China by writers in the West have achieved its impact. Reviews by serious China scholars, however, tended to take a different view. Most were sharply critical, questioning its authority and the authors' methods, arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be, but a highly selective and even polemical study that sets out to demonise Mao. This book brings together sixteen reviews of Mao: The Unknown Story, all by internationally well-regarded specialists in modern Chinese history and published in relatively specialised scholarly journals. Taken together, they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate. While agreeing that Mao had many faults and was responsible for some disastrous policies, they conclude that a more balanced picture is needed.

Mao and Markets Christopher Marquis, Kunyuan Qiao, 2022-01-01 A thoroughly researched assessment of how China's economic success continues to be shaped by the communist ideology of Chairman Mao. A Financial Times Best Book of 2022. Tied for the 2023 Axiom Gold Medal sponsored by Axiom Business Book Awards. It was long assumed that as China embraced open markets and private enterprise its state controlled economy would fall by the wayside that free markets would inevitably lead to a more liberal society. Instead China's growth over the past four decades has positioned state capitalism as a durable foil to the orthodoxy of free markets to the confusion of many in the West. Christopher Marquis and Kunyuan Qiao argue that China's economic success is based on not in spite of the continuing influence of Communist leader Mao Zedong. They illustrate how Mao's ideological principles, mass campaigns and socialist institutions have enduringly influenced Chinese entrepreneurs' business strategies and the management of their ventures. Grounded in case studies and quantitative analyses, this book shows that while private enterprise is the engine of China's growth, Chinese companies see no contradictions between commercial drive and a dedication to Maoist ideology.

Mao's Road to Power: Revolutionary Writings, 1912-49: v. 6: New Stage (August 1937-1938) Zedong Mao, Stuart Schram, 2015-07-17 By 1936, after a decade of Civil War and even before the Xi'an Incident, Mao Zedong had begun talking about a New Stage of cooperation between the Guomindang and the Communist Party. With the establishment of a framework for cooperation between the two parties and as Japan began its brutal war against China, Mao began to develop this theme more systematically in both the political and military spheres. This volume documents the evolution of Mao's thinking in this area that found its culmination in his long report to the Sixth Enlarged Plenum of the Central Committee in October 1938, explicitly entitled *On the New Stage* and presented here in its entirety. It was also during this period that Mao delivered a course of lectures on dialectical materialism after reading and annotating a number of works on Marxist theory by Soviet and Chinese authors. These lectures, from which *On Practice* and *On Contradiction* were later extracted, are also translated here in their entirety.

Sources in Chinese History David Atwill, Yurong Atwill, 2021-03-03 *Sources in Chinese History* now in its second edition has been updated to include re-translations of over a third of the documents. It also incorporates nearly 40 new sources that work to familiarize readers with the key events, personages and themes of modern China. Organized thematically, the volume examines China's complex history from the rise of the Qing dynasty in the mid-seventeenth century through the formation of the People's Republic of China up to the present. Each chapter begins with an annotated visual source followed by a chapter introduction and analysis of textual sources, allowing students to explore different types of sources and topics. *Sources in Chinese History* contextualizes the issues, trends and challenges of each particular period.

Special attention has been made to incorporate a variety of viewpoints which challenge standard accounts. Non traditional documents such as movie dialogues are also included which aim to encourage students to reconsider historical events and trends in Chinese history. This volume includes a variety of sources such as maps, posters, film scripts, memorials and political cartoons and advertisements that make this book the perfect introductory aid for students of Chinese history, politics and culture as well as Chinese studies after 1600. *Poets of the Chinese Revolution* Gregor Benton, Feng Chongyi, 2019-07-16

How poetry and revolution meshed in Red China. The Chinese Revolution which fought its way to power seventy years ago was a complex and protracted event in which groups and individuals with different hopes and expectations for the Revolution competed although in the end Mao came to rule over the others. Its veterans included many poets four of whom feature in this anthology. All wrote in the classical style but their poetry was no less diverse than their politics. Chen Duxiu led China's early cultural awakening before founding the Communist Party in 1921. Mao led the Party to power in 1949. Zheng Chaolin, Chen Duxiu's disciple and like him a convert to Trotskyism, spent thirty four years in jail first under the Nationalists and then under their Maoist nemeses. The guerrilla leader Chen Yi wrote flamboyant and descriptive poems in mountain bivouacs or the heat of battle. Poetry has played a different role in China and in Chinese Revolution from in the West: it is collective and collaborative. But in life the four poets in this collection were entangled in opposition and even bitter hostility towards one another. Together the four poets illustrate the complicated relationship between Communist revolution and Chinese cultural tradition.

Mao's Road to Power: Revolutionary Writings, 1912-49: v. 1: Pre-Marxist Period, 1912-20 Zedong Mao, Stuart Schram, 2015-06-03

Revolution in its Leninist guise has been a dominant force in the world for most of the 20th century and the Chinese revolution has been with the Russian revolution one of its two most important manifestations. Mao Zedong, the architect of victory in China in 1949, stands out as one of the dominant figures of the century. Guerilla leader, strategist, conqueror, ruler, poet and philosopher, he placed his imprint on China and on the world. Even though today communism is widely seen as bankrupt, Mao Zedong's achievements as an innovative disciple of Lenin and Stalin in the most populous nation on earth guarantees his place in history. Whatever the ultimate fate of communism in China, the fact of Mao's influence on events during more than five decades and its resonance after his death will remain. This edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources including not only the 20 volume edition published in Tokyo years ago but many new materials issued in China since 1978 both openly and for internal circulation. The editors have pursued a threefold goal: firstly to translate every text by Mao which could be obtained so as to make this English version as complete as possible; secondly to annotate the materials in sufficient detail to make them accessible to the non specialist reader; and thirdly to combine accuracy with a level of literary quality which is intended to make the volumes agreeable as well as instructive to read. Volume 1 includes translations of the entire contents of the authoritative Mao Zedong Zaoqi Wengao 1912.6-1920.11 Draft

writings from Mao Zedong's early period June 1912 November 1920 published in Beijing in 1990 plus some 15 additional texts for the same period which have been attributed to Mao Among the items thus made available in English are his first surviving work a middle school essay of 1912 in praise of Shang Yang his very extensive Classroom Notes of late 1913 on the lectures of his most influential teachers Yang Changji and Yuan the Big Beard a dozen letters to his then close friend Xiao Zisheng Siao yu who described a shared odyssey in Mao Tse tung and I were Beggars his marginal annotations of 1918 to the German philosopher Friedrich Paulsen's work on ethics in which Mao proclaimed himself a believer in individualism and an admirer of Nietzsche and many important letters articles and other writings documenting his evolution from liberalism to anarchism and finally to Marxism in 1919 1920 *Autocratic Tradition and Chinese Politics* Zhengyuan Fu, 1993 This book examines the Chinese political tradition over the past two thousand years and argues that the enduring and most important feature of this tradition is autocracy The author interprets the communist takeover of 1949 not as a revolution but as a continuation of the imperial tradition The book shows how Mao Zedong revitalised this autocratic tradition along five lines the use of ideology for political control concentration of power in the hands of a few state power over all aspects of life law as a tool wielded by the ruler who is himself above the law and the subjection of the individual to the state Using a statist approach the book argues that in China political action of the state has been the single most important factor in determining socio economic change **Season of High Adventure** S.
