## **Mapmakers Dream The Meditations Of Fra Mauro Cartographer To The Court Of Venice:**

**A Mapmaker's Dream** James Cowan, 2007-12-18 In sixteenth century Venice in an island monastery a cloistered monk experiences the adventure of a lifetime all within the confines of his cell Part historical fiction part philosophical mystery A Mapmaker's Dream tells the story of Fra Mauro and his struggle to realize his life's work to make a perfect map one that represents the full breadth of Creation News of Mauro's projects attracts explorers pilgrims travelers and merchants all eager to contribute their accounts of faraway people and places As he listens to the tales of the strange and fantastic things they've seen Mauro comes to regard the world as much more than continents and kingdoms that it is also made up of a vast and equally real interior landscape of beliefs aspirations and dreams Mauro's map grows and takes shape becoming both more complete and incomprehensible In the process the boundaries of Mauro's world are pushed to the extreme raising questions about the relationship between representation imagination and the nature of reality itself *The Springboard*

Stephen Denning, 2012-08-21 *The Springboard* How Storytelling Ignites Action in Knowledge Era Organizations is the first book to teach storytelling as a powerful and formal discipline for organizational change and knowledge management The book explains how organizations can use certain types of stories springboard stories to communicate new or envisioned strategies structures identities goals and values to employees partners and even customers Readers will learn techniques by which they can help their organizations become more unified responsive and intelligent Storytelling is a management technique championed by gurus including Peter Senge Tom Peters and Larry Prusak Now Stephen Denning an innovator in the new discipline of organizational storytelling teaches how to use stories to address challenges fundamental to success in today's information economy **Faulkner in the Twenty-First Century** Robert W. Hamblin, Ann J. Abadie, 2009-09-18

Contributions by Deborah N Cohn Leigh Anne Duck Robert W Hamblin Michael Kreyling Barbara Ladd Walter Benn Michaels Patrick O Donnell Theresa M Towner Annette Trefzer and Karl F Zender *Faulkner in the Twenty First Century* presents the thoughts of ten noted Faulkner scholars who spoke at the twenty seventh annual Faulkner and Yoknapatawpha Conference at the University of Mississippi Theresa M Towner attacks the traditional classification of Faulkner's works as major and minor and argues that this causes the neglect of other significant works and characters Michael Kreyling uses photographs of Faulkner to analyze the interrelationships of Faulkner's texts with the politics and culture of Mississippi Barbara Ladd and Deborah Cohn invoke the relevance of Faulkner's works to the other South postcolonial Latin America Also approaching Faulkner from a postcolonial perspective Annette Trefzer looks at his contradictory treatment of Native Americans Within the tragic fates of such characters as Quentin Compson Gail Hightower and Rosa Coldfield Leigh Ann Duck finds an inability to cope with painful memories Patrick O Donnell examines the use of the future tense and Faulkner's growing skepticism of history as a linear progression To postmodern critics who denigrate *The Fire and the Hearth* Karl F Zender offers a rebuttal Walter Benn Michaels contends that in Faulkner's South and indeed the United States as a whole the question of racial

identification tends to overpower all other issues Faulkner's recurring interest in frontier life and values inspires Robert W Hamblin's piece *The World Map, 1300-1492* Evelyn Edson, 2007-07-15 A history of the development of world maps during the later medieval period in the centuries leading up to Columbus's journey In the two centuries before Columbus mapmaking was transformed The World Map 1300 1492 investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery A comprehensive and complex picture of the changing face of medieval geography With the mastery of a formidable palette of historiographic knowledge and well reasoned discussions of the sources The World Map 1300 1492 will certainly remain an important work to consult for both medieval and early modern scholars for many years to come Ian J Aebel Terrae Incognitae *Critical Essays on William Faulkner* Robert W. Hamblin, 2022-08-24 Critical Essays on William Faulkner compiles scholarship by noted Faulkner studies scholar Robert W Hamblin Ranging from 1980 to 2020 the twenty one essays present a variety of approaches to Faulkner's work While acknowledging Faulkner as the quintessential southern writer particularly in his treatment of race the essays examine his work in relation to American and even international contexts The volume includes discussions of Faulkner's techniques and the psychological underpinnings of both the origin and the form of his art explores how his writing is a means of saying no to death examines the intertextual linkages of his fiction with that of other writers like Shakespeare Twain Steinbeck Warren and Salinger treats Faulkner's use of myth and his fondness for the initiation motif and argues that Faulkner's film work in Hollywood is much better and of far greater value than most scholars have acknowledged Taken as a whole Hamblin's essays suggest that Faulkner's overarching themes relate to time and consequent change The history of Faulkner's Yoknapatawpha stretches from the arrival of the white settlers on the Mississippi frontier in the early 1800s to the beginnings of the civil rights movement in the 1940s Caught in this world of continual change that produces a great degree of uncertainty and ambivalence the Faulkner character and reader must weigh the traditions of the past with the demands of the present and the future As Faulkner acknowledges this process of discovery and growth is a difficult and sometimes painful one yet as Hamblin attests to engage in that quest is to realize the very essence of what it means to be human **The Geography of Uncertainty** Alessandro Ricci, 2023-08-15 This book outlines the characteristics and implications of a potential geography of uncertainty In doing so it analyses this concept in reference to both the origins

of uncertainty in Early Modern Age and the current geopolitical situation The book adopts an interdisciplinary approach to uncertainty drawing on global perspectives and literature to define its meanings and characteristics In order to develop a thorough and precise understanding of the geography of uncertainty a broad perspective is adopted which includes other forms of knowledge in which the concept of uncertainty is firmly established As such the book creates temporal links that may occasionally be far off from one another to present a geographical perspective of uncertainty It provides an interpretation of the phenomenon of globalization in a new way relating it to the first European openness to global spaces the Early Modern Age and identifying the transition from the medieval world to the Modern Age as the first manifestation of uncertainty in geography Uncertainty is more prevalent than ever in today s geopolitical economic financial and social reality as well as the ongoing emergencies and crises The book adopts an interdisciplinary approach rooted in the geography of Early Modernity by referring to geopolitical scenarios literature and philosophy to target the historical roots and the prevailing configuration of the geography of uncertainty It will appeal to scholars and students of human and political geography politics philosophy international relations economics and history

*Nocturnes* Paul Lippmann, 2013-11-12

*Nocturnes* literally music for the night is a delightfully impressionistic investigation into everything that is not known and perhaps can never be known about dreams Rather than espousing yet another strategy of dream interpretation Lippmann proffers a naturalistic approach appreciative of the playful complex even zany creativity embodied in dreams He urges us that is to apprehend dreams on their own terms in a manner that enables patients actually to experience the unconscious in its radical difference from waking thought Lippmann delivers on his agenda lightly with a sense of humor and practicality that will engage lay readers as well as analysts and therapists He takes up questions of general interest that challenge us to reorient our thinking about dreams How do children learn about dreams and their telling Why are most dreams forgotten How may we understand dreams about sleeping and waking even dreams about dreaming And he reengages issues of perennial interest to analytic therapists dream disguise dream forgetting the companionship of dreams the neurotic dream expert and the therapist s management of his or her own anxiety when patients report their dreams Oh I had a dream last night the patient remembers Too often observes Lippmann this remark signals the beginning of an unfortunate struggle as the patient is called on to relate something that changes when it is put into words the analyst is put on the spot to come up with an interpretation and both are asked to extract something immediately useful and lately cost effective from something that partakes of magic and mystery How silly this ritual is Lippmann argues and how alien to the nature of the dream itself After reading *Nocturnes* no clinician from the novice to the most senior will hear the words Oh I had a dream last night in quite the same way

**Applied Spatial Statistics for Public Health Data** Lance A. Waller, Carol A. Gotway, 2004-07-29

While mapped data provide a common ground for discussions between the public the media regulatory agencies and public health researchers the analysis of spatially referenced data has experienced

a phenomenal growth over the last two decades thanks in part to the development of geographical information systems GISs This is the first thorough overview to integrate spatial statistics with data management and the display capabilities of GIS It describes methods for assessing the likelihood of observed patterns and quantifying the link between exposures and outcomes in spatially correlated data This introductory text is designed to serve as both an introduction for the novice and a reference for practitioners in the field Requires only minimal background in public health and only some knowledge of statistics through multiple regression Touches upon some advanced topics such as random effects hierarchical models and spatial point processes but does not require prior exposure Includes lavish use of figures illustrations throughout the volume as well as analyses of several data sets in the form of data breaks Exercises based on data analyses reinforce concepts
