Mapping Ideology:

Mapping Ideology Slavoj Žižek, 1994 Not so long ago the term ideology was in considerable disrepute Its use had become associated with a claim to know a truth beyond ideology a radically unfashionable position What then explains the sudden revival of interest in grappling with the questions that ideology poses to social and cultural theory as well as to political practice Mapping Ideology presents a comprehensive sampling of the most important contemporary writing on the subject Slavoj Zizek s introductory essay surveys the development of the concept from Marx to the present Terry Eagleton Peter Dews and Seyla Benhabib assess the decisive contributions of Luk cs and the Frankfurt School A different tradition is revealed in an essay by the French post structuralist Michel P cheux while the study of ideology is exemplified in classic texts by Theodor Adorno Jacques Lacan and Louis Althusser An intersection of Gramscian and Althusserian motifs appears in a now famous debate over the dominant ideology thesis reprinted here Pierre Bourdieu succinctly formulates his departure from this tradition in an interview with Eagleton Further readings of the ideological are explored by Richard Rorty and Michelle Barrett Finally Fredric Jameson supplies an authoritative statement of the nature and position of the ideological in late capitalist society Mapping Ideology is an invaluable guide to what is now the most dynamic field of cultural theory

contribution made by this eminent cultural and literary critic and breaks new ground in architectural criticism offering insights into the interrelationships between politics culture space and architecture Fredric Jameson himself provides an afterword

Žižek on Race Zahi Zalloua,2020-02-20 Slavoj Žižek's prolific comments on anti-Semitism Islamophobia scapegoating popular nationalism the refugee crisis Eurocentrism the War on Terror neocolonialism global justice and rioting comprise a dizzying array of thinking But what can we pull out of his various writings and commentaries on race in the contemporary world Is there anything approaching a Žižekian philosophy of race Zahi Zalloua argues here that there is and that the often polemical style of Žižek's pronouncements shouldn't undermine the importance and urgency of his work in this area Zalloua not only examines Žižek's philosophy of race but addresses the misconceptions that have arisen and some of the perceived shortcomings in his work to date Žižek on Race also puts Žižek in dialogue with critical race and anti-colonial studies dwelling on the sparks struck up by this dialogue and the differences gaps and absences it points up Engaging Žižek's singular contribution to the analysis of race and racism Žižek on Race both patiently interrogates and critically extends his direct comments on the topic developing more fully the potential of his thought In a response to the book Žižek boldly reaffirms his theoretical stance clarifying further his often difficult to work out positions on some of his more controversial pronouncements

Language and Neoliberalism Marnie Holborow,2015-02-20 Language and Neoliberalism examines the ways in which neoliberalism or the ideology of market rule finds expression in language In this groundbreaking original study Holborow shows at once the misleading character of ideological meaning and the underlying social reality from which that meaning emerges In universities it is now the norm to use terms like entrepreneurial and business partnerships How have these terms become a core component of education and gained such force Markets have become metaphorically a power in their own right They

now tell governments how to act and warn them against too much public spending Post crash the capitalist market continues to be crisis prone and in that context the neoliberal ideology remains contested Free of jargon and assuming no specialist knowledge this book will strike a chord internationally by showing how neoliberal ideology has literally gone global in language Drawing on Volo inov and Bakhtin Williams and Gramsci and introducing concepts from Marxist political economy Language and Neoliberalism is essential reading for all interested in the intersection of linguistics applied linguistics and politics

Aharon Appelfeld's Fiction Emily Miller Budick, 2005-01-17 How can a fictional text adequately or meaningfully represent the events of the Holocaust Drawing on philosopher Stanley Cavell's ideas about acknowledgment as a respectful attentiveness to the world Emily Miller Budick develops a penetrating philosophical analysis of major works by internationally prominent Israeli writer Aharon Appelfeld Through sensitive discussions of the novels *Badenheim 1939* *The Iron Tracks* *The Age of Wonders* and *Tzili* and the autobiographical work *The Story of My Life* Budick reveals the compelling art with which Appelfeld renders the sights sensations and experiences of European Jewish life preceding during and after the Second World War She argues that it is through acknowledging the incompleteness of our knowledge and understanding of the catastrophe that Appelfeld's fiction produces not only its stunning aesthetic power but its affirmation and faith in both the human and the divine This beautifully written book provides a moving introduction to the work of an important and powerful writer and an enlightening meditation on how fictional texts deepen our understanding of historical events Jewish Literature and Culture Alvin H Rosenfeld editor

Hasana Sharp, 2011-07-30 There have been many Spinozas over the centuries atheist romantic pantheist great thinker of the multitude advocate of the liberated individual and rigorous rationalist The common thread connecting all of these clashing perspectives is Spinoza's naturalism the idea that humanity is part of nature not above it In this sophisticated new interpretation of Spinoza's iconoclastic philosophy Hasana Sharp draws on his uncompromising naturalism to rethink human agency ethics and political practice Sharp uses Spinoza to outline a practical wisdom of renaturalization showing how ideas actions and institutions are never merely products of human intention or design but outcomes of the complex relationships among natural forces beyond our control This lack of a metaphysical or moral division between humanity and the rest of nature Sharp contends can provide the basis for an ethical and political practice free from the tendency to view ourselves as either gods or beasts Sharp's groundbreaking argument critically engages with important contemporary thinkers including deep ecologists feminists and race and critical theorists making Spinoza and the Politics of Renaturalization vital for a wide range of scholars **Modernism and Subjectivity** Adam Meehan, 2020-06-03 In Modernism and Subjectivity How

Modernist Fiction Invented the Postmodern Subject Adam Meehan argues that theories of subjectivity coming out of psychoanalytic poststructuralist and adjacent late twentieth century intellectual traditions had already been articulated in modernist fiction before 1945 Offering a bold new genealogy for literary modernism Meehan finds versions of a postmodern subject embodied in works by authors who intently undermine attempts to stabilize conceptions of identity and who draw attention to the role of language in shaping conceptions of the self Focusing on the philosophical registers of literary texts Meehan traces the development of modernist attitudes toward subjectivity particularly in relation to issues of ideology spatiality and violence His analysis explores a selection of works published between 1904 and 1941 beginning with Joseph Conrad's prescient portrait of the subject interpolated by ideology and culminating with Samuel Beckett's categorical disavowal of the subjective I Additional close readings of novels by F Scott Fitzgerald Aldous Huxley James Joyce Nathanael West and Virginia Woolf establish that modernist texts conceptualize subjectivity as an ideological and linguistic construction that reverberates across understandings of consciousness race place and identity By reconsidering the movement's function and scope Modernism and Subjectivity charts how profoundly modernist literature shaped the intellectual climate of the

twentieth century **Feminist Consequences** Elisabeth Bronfen, Misha Kavka (red), 2001 Exploring the status of feminism in this postfeminist age this sophisticated meditation on feminist thinking over the past three decades moves away from the all too common dependence on French theorists and male thinkers and instead builds on a wide ranging body of feminist theory written by women These writings address the question Where are we going as well as Where have we come from As evidenced in the essays compiled here the multiplicity of directions available to this new feminism ranges from poststructuralist academic theory through cultural activism to re readings of law literature and representation Contributors include Mieke Bal Lauren Berlant Rosi Braidotti Elisabeth Bronfen Judith Butler Rey Chow Drucilla Cornell Ann Cvetkovich Jane Gallop Beatrice Hanssen Claire Kahane Ranjana Khanna Biddy Martin Juliet Mitchell Anita Haya Patterson and Valerie Smith *Feminist Consequences* representing the forefront of international feminist thought marks a new and long desired stage of feminist criticism where women are themselves making theory rather than reacting to male production *Do 'Zimbabweans' Exist?* Sabelo J. Ndlovu-Gatsheni, 2009 This book examines the triumphs and tribulations of the Zimbabwean national project providing a radical and critical analysis of the fossilisation of Zimbabwean nationalism against the wider context of African nationalism in general The book departs radically from the common praise texts in seriously engaging with the darker aspects of nationalism including its failure to create the nation as people and to install democracy and a culture of human rights The author examines how the various people inhabiting the lands between the Limpopo and Zambezi Rivers entered history and how violence became a central aspect of the national project of organising Zimbabweans into a collectivity in pursuit of a political end **Dialectics and Contemporary Politics** John Grant, 2011-06-09 *Dialectics and Contemporary Politics* develops a full theory of dialectics in order to reset the terms of dialectical critique and affirm its ability to produce radical insights about contemporary society Dialectical thought has been the subject of sustained criticism since the 1960s when competing approaches such as structuralism genealogy deconstruction and post Marxism took political theorizing in new directions
