Canada is a country of massive size of diverse geographical features and an equally diverse population all features that are magnificently reflected in its architecture In this book Rhodri Windsor Liscombe and Michelangelo Sabatino offer a richly informative history of Canadian architecture that celebrates and explores the country s many contributions to the spread of architectural modernity in the Americas A distinct Canadian design attitude coalesced during the twentieth century one informed by a liberal hybrid and pragmatic mindset intent less upon the dogma of architectural language and more on thinking about the formation of inclusive spaces and places Taking a fresh perspective on design production they map the unfolding of architectural modernity across the country from the completion of the transcontinental railway in the late 1880s through to the present Along the way they discuss architecture within the broader contexts of political industrial and sociocultural evolution the urban suburban expansion and new building technologies Examining the works of architects and firms such as ARCOP Eric Arthur Ernest Cormier Brigitte Shim and Howard Sutcliffe this book brings Canadian architecture chronologically and thematically to life **The Avant-Garde and the Margin** Sanja Bahun-Radunovic,V.G. Julie

Rajan,2009-03-26 The collection of essays The Avant garde and the Margin New Territories of the Modernist Avant garde refigures the critical and historical picture of the modernist avant garde by introducing a variety of less commonly discussed geo artistic sites and dynamics The contributors explore the multifaceted relations established between the avant garde centers France Germany England and others and their counterparts in the cultural periphery Greece India Japan Poland Quebec Romania and the former Yugoslavia as well as the unique artistic and literary dialogues which these encounters engendered The primary concern of the anthology is the set of relations established between the center and the margin the redefinition of which was pivotal for the formulation of the modernist avant garde aesthetic project itself While enriching the kaleidoscopic picture of modernism the essays in this collection also offer new methodological approaches to this polychrome

cultural image In this way the collection avoids the pitfalls of both the traditional diffusionist Eurocentric model of the world and the more recent over relativization of the positions of the margin and the center In their stead the anthology proposes a hermeneutics of encounter that is simultaneously spatial and historical aware of its limits but convinced of its own necessity
