March Hare Network:

The March Hare Network Jack L. Chalker, 1996 GO ASK ALICE Time after time life after life Cory Maddox was being incarnated into worlds he found both familiar and strangely different And it was only in his latest incarnation that for the first time Cory brought along knowledge skills and memories of his previous existence memories of cold betrayal memories that told him that nothing he saw nothing he felt could be trusted Nor could he trust his companions others who like himself kept moving from life to life intent on gathering enough power to escape the endless cycle But it was only with the help of those companions that Cory could develop the technological means to peer beyond the veil of reality to the system that controlled all existence where perhaps he could glimpse the shadowy figures whom he was sure were manipulating reality if what he was experiencing actually was reality Time was running out His memories gave him an advantage over the others but he would have to act quickly and surely if he were to discover the truth before truth itself could no longer be trusted

and exploit divisions among elites Different configurations of social ties connecting potential conquerors with elites were central to both the patterns of imperial conquest and the strategies conquerors employed MacDonald compares episodes of British colonial expansion in India South Africa and Nigeria during the nineteenth century and also examines the contemporary applicability of the theory through an examination of the United States occupation of Iraq The scramble for empire fundamentally shaped and continues to shape the international system we inhabit today Featuring a powerful theory of the role of social networks in shaping the international system *Networks of Domination* bridges past and present to highlight the lessons of conquest

Adorno in America David Jenemann, 2009 For those inclined to dismiss Adorno's take on America as the uncomprehending condescension of a mandarin elitist David Jenemann's splendid new book will come as a rude awakening Exploiting a wealth of new sources he persuasively shows the depth of Adorno's engagement with the culture industry and the complexity of his reaction to it Martin Jay Sidney Hellman Ehrman Professor of History University of California Berkeley The German philosopher and cultural critic Theodor W Adorno was one of the towering intellectual figures of the twentieth century and between 1938 and 1953 he lived in exile in the United States In the first in depth account of this period of Adorno's life David Jenemann examines Adorno's confrontation with the burgeoning American culture industry and casts new light on Adorno's writings about the mass media Contrary to the widely held belief even among his defenders that Adorno was disconnected from America and disdained its culture Jenemann reveals that Adorno was an active and engaged participant in cultural and intellectual life during these years From the time he first arrived in New York in 1938 to work for the Princeton Radio Research Project exploring the impact of radio on American society and the maturing marketing strategies of the national radio networks Adorno was dedicated to understanding the technological and social influence of popular art in the United States Adorno carried these interests with him to Hollywood where he and Max Horkheimer attempted to make a film for their *Studies in Prejudice* Project and where he befriended Thomas Mann and helped him craft his famous novel *Doctor Faustus* Shuttling between insightful readings of Adorno's theories and a rich body

of archival materials including unpublished writings and FBI files Jenemann paints a portrait of Adorno's years in New York and Los Angeles and tells the cultural history of an America coming to grips with its rapidly evolving mass culture Adorno in America eloquently and persuasively argues for a more complicated more intimate relationship between Adorno and American society than has ever been previously acknowledged What emerges is not only an image of an intellectual in exile but ultimately a rediscovery of Adorno as a potent defender of a vital and intelligent democracy David Jenemann is assistant professor of English at the University of Vermont
