Dream Builders, Dream Killers Berteau Joisil, 2010 All immigrants to America have a story with the American Dream a story sometimes intimately intertwined with personal dreams My story might be a surprising if not maybe an unexpected one diverging from the usual account of pitiful existence in Haiti's slums or that of struggle for adaptation to America's way of life by one of Haiti's boat people who landed on South Florida's coast It is a story that starts from the lower plains of the Artibonite Valley in Haiti with a dream from my great grandfather Joisil Estim and continues in the United States ultimately in Powell Ohio It is the story of a Haitian immigrant born in the small coastal town of Saint Marc Haiti It evolves with my experiences growing up in my native country where my formative years were influenced by a connection to a diverse sociocultural environment It progresses with my interaction with other societal enclaves in foreign lands like Germany and ultimately in the United States It is an account of dreams fulfilled or unfulfilled due not only to factors such as the convergence of different motivational agents dreambuilders the winds blowing on corporate America whether in Haiti or the United States but also to different conditions such as country of origin globalization social class and Afro ethnicity in America dreamkillers It is the story of coping with life changes of integration into the American mainstream of successes and disappointments of an immigrant from Haiti But it is more than the story of an immigrant it also reflects in a way the struggle of all immigrants coping with the pursuit of the American Dream and the quest for adaptation and continuous learning It relates to all those who have wrestled with their dreams those who have learned to make the best out of life's circumstances and keep a positive outlook in the era we live in Dreambuilders dreamkillers are in all walks of life

Western society medieval Christendom and twentieth century secular America This comparison reveals profound similarities such as the life review and the transforming after effects of the vision as well as striking contrasts such as the absence of hell or punishment scenes from modern accounts Mediating between the debunkers and the near death researchers Zaleski considers current efforts to explain near death experience scientifically She concludes by emphasizing the importance of the otherworld vision for understanding imaginative and religious experience in general
