Myths, Dreams, and Mysteries Mircea Eliade,1967 Myths, Dreams, and Mysteries Mircea Eliade,1968 *Mythes, Rêves Et Mystères. Myths, Dreams and Mysteries. The Encounter Between Contemporary Faiths and Archaic Realities ...* Translated by Philip Mairet Mircea Eliade,Philippe Auguste MAIRET,1960 *Divine Madness* Harry Eiss,2011-08-08 Lila is Sanskrit for play the play of the gods It is the self generating genesis of Bliss created by Bliss for the purpose of Bliss It is the uninhibited impulsive sport of Brahman the free spirit of creation that results in the spontaneous unfolding of the cosmos to be found in the eternity of each moment It is beyond the confining locks and chains of reason beyond the steel barred windows looking out from the cages of explanation beyond the droning tick tick tick of the huge mechanical clocks of time Come let us enter the realm of the madman and the finely wrought threads of Clotho as they are measured out by Lachesis and cut by Atropos to create the great tapestry of life including the intricate intertwining designs of dementia with the trickster the shaman the scapegoat the shadow the artist and the savior Come let us join in the divine madness of the gods

The National Mind Deniz T. Kılınçoğlu,2024-07-10 The National Mind argues that understanding the power of nationalism requires probing into its cognitive and emotional influence on our everyday perceptions feelings beliefs and behavior Focusing particularly on the impact of canonical national narratives on thinking and feeling norms in society it develops an interdisciplinary cognitive approach to the question of how nationalism shapes our minds and eventually our world It derives insights from longstanding philosophical and scholarly debates on the social nature of knowledge and feeling as well as recent cognitive research on emotions and the perception of reality Grounding its theoretical investigation in empirical observations about a prominent non Western case namely contemporary Turkey The National Mind demonstrates how nationalist narratives and conceptions dominate our social and political common sense at both societal and global levels It offers a comprehensive and original interpretation of how the national mind operates in everyday experiences This groundbreaking book will appeal to students and scholars of psychology philosophy politics history sociology and nationalism studies Globalisation of Nationalism Liah Greenfeld,2020-08-01 Organised as an experiment testing the hypothesis that behind the hottest political issues of the quarter century after the Cold War lies globalisation of national consciousness this collection of essays unites authors from the four corners of the world They focus on democratisation and its failure in Russia transformations of identity in Eastern and Western Europe Africa North and South America and South East Asia the rise of militant and political Islam and the eruption of China onto the world stage The volume makes the argument that globalisation we are witnessing is for the most part the globalisation of competitive and antagonistic nationalism which spreads to areas where it was not known earlier and into the sphere of religion ostensibly indifferent to it Collectively these essays prove that nationalism remains the organising principle of politics inside nations as well as at transnational and international levels

Language and Communication at Work François Cooren,Eero Vaara,Ann Langley,Haridimos Tsoukas,2014-03 This book

examines language and communication as an inherent part of on going organizational processes It explores language and communication as constitutive of work analyses how they actually work and examines their role as part of strategic and institutional work in and around organizational phenomena *Fallen Animals* Zohar Hadromi-Allouche,2017-10-05 The premise of *Fallen Animals* is that some how and in some way The Fall of Adam and Eve as related in the Bible has affected all living beings from the largest to the smallest from the oldest to the youngest regardless of gender and geography The movement from the blissful arena of the Garden of Eden to the uncertain reality of exile altered in an overt or nuanced fashion the attitudes perceptions and consciousness of animals and humanity alike Interpretations of these reformulations as well as the original story of the Paradise Garden have been told and retold for millennia in a variety of cultural contexts languages societies and religious environments Throughout all those retellings animals have been a constant presence positively and negatively actively and passively from the creation of birds fish and mammals to the agency of the serpent in the Fall narrative The serpent in the Garden of Eden is but one example of the ambivalence which has characterized the human animal relationship over the centuries both across and within cultures societies and traditions The book examines the interpretations functions and interactions of the Fall physical moral artistic and otherwise as represented through animals or through human animal interactions *When Man Becomes God* Donald E. Gowan,1975-01-01 Pittsburgh Theological Monograph Series General Editor Dikran Y Hadidian **Hermeneutics, Politics, and the History of Religions** Christian Wedemeyer,Wendy Doniger,2010-03-08 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach s death and the centennial of Mircea Eliade s birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach s death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people s minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men s writings and their lives and in Eliade s case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men s contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies **The Bible among the Myths** John N. Oswalt,2009-08-30 Sixty years ago most biblical scholars maintained that Israel s religion was unique that it stood in marked contrast to the faiths of its ancient Near Eastern neighbors Nowadays it is widely argued that Israel s religion mirrors that of other West Semitic societies What accounts for this radical change and what are its implications for our understanding of the Old Testament Dr John N Oswalt

says the root of this new attitude lies in Western society's hostility to the idea of revelation which presupposes a reality that transcends the world of the senses asserting the existence of a realm humans cannot control While not advocating a the Bible says it and I believe it and that settles it point of view Oswalt asserts convincingly that while other ancient literatures all see reality in essentially the same terms the Bible differs radically on all the main points The Bible Among the Myths supplies a necessary corrective to those who reject the Old Testament's testimony about a transcendent God who breaks into time and space and reveals himself in and through human activity *Goddess Mystery Cults and the Miracle of Minyan Prehistoric Greece* Dionysious Psilopoulos, 2023-01-03 As this book demonstrates the cradle of the Mystery Cults of the Goddess and of Western civilization is the Aegean region an area extending from the Balkans to Crete and from the Ionian Sea to Asia Minor The Eleusinian Mysteries do not originate from Old Europe or Egypt but from the worship of the Pelasgian goddess Daeira Mother Earth who preceded Demeter and whose cult was indigenous to Eleusis As shown here in the Mysteries of the Goddess the initiates descend into the depths of their psyche perceive the midnight sun transcend duality and achieve cosmic consciousness symbolized by the unity and harmony of the Great Goddess The Pelasgians Minyans and Minoans the Aegean region's prehistoric tribes and ancestors of the Mycenaeans and modern Greeks share the same cultural heritage continuity and autochthony with the region's Proto Greek pre Deukalion Flood inhabitants The book also argues that religious and scientific traces of pre Flood knowledge can be discerned in the Mysteries and the technical achievements of prehistoric Minyan and Minoan Greeks Even from the third millennium the Minyans and Minoans with their advanced nautical geographic and astronomical knowledge sailed not only the Mediterranean but using the Atlantic currents had reached the copper mines of northern Europe and America **Discipleship, Secularity, and the Modern Self** Judith A.

Merkle, 2020-07-23 Judith A Merkle examines the situation of Christian spirituality today in a secular age through the images of dance silence and music Drawing on the work of Charles Taylor as well as core aspects of the tradition of Christian theology on discipleship Merkle asks how these new conditions affect the practice of Christianity as modern discipleship The author calls God the music maker She argues that response to the reality of God can be captured through the image of dance Merkle reminds us that people in secular society connect to God in diverse ways not in the least through the call of creation and the call of conscience She explores discipleship as a lens through which we can understand how a community of faith service prayer worship and sacramentality can be viewed and integrated in daily life She emphasizes how the interconnection between prayer Eucharist and a believing community is inseparable from the dance of discipleship as it can be lived in secular society The image of dancing to silent music is a powerful symbol of Christian religious experience in modern times **Meaning and Myth in the Study of Lives** Stuart L. Charmé, 2015-09-30 This book explores major theoretical issues in the study of an individual life through its focus on Jean Paul Sartre Sartre's quest for an existential psychoanalysis led him to develop what he called true novels in the landmark studies of Flaubert and others In clarifying

Sartre's philosophical ideas in relation to the analysis of the self Stuart L. Charmé examines the attraction/repulsion of Freudian concepts and explores parallels to Erikson's ego psychology. Certain mythic qualities in religious biography and autobiography are seen as central to Sartre who presents lives including his own as normative models. The book concludes by making a provocative link between the modern preoccupation with self-analysis in biography and autobiography and a fundamental religious need that was once fulfilled by primitive myth.

Becoming Half Hidden Daniel Merkur, 2014-03-18
First Published in 1993. This study seeks to analyze shamanism and initiation from the perspective of shamans rather than from the laity's point of view. One of the aims of this research has been to get behind the shamans' language in order to understand their experiences.

The Great Transformation Karen Armstrong, 2007-04-10 NATIONAL BESTSELLER An extraordinary investigation of a critical moment in the evolution of religious thought from the New York Times bestselling author of *A History of God* and *The Spiral Staircase*. A splendid book. Lucid, highly readable. Relevant to a world still embroiled in military conflict and sectarian hatreds. The New York Times. In the ninth century BCE, events in four regions of the civilized world led to the rise of religious traditions that have endured to the present day: development of Confucianism and Daoism in China; Hinduism and Buddhism in India; monotheism in Israel; and philosophical rationalism in Greece. Armstrong, one of our most prominent religious scholars, examines how these traditions began in response to the violence of their time. Studying figures as diverse as the Buddha and Socrates, Confucius and Jeremiah, Armstrong reveals how these still-enduring philosophies can help address our contemporary problems.

The Mythology of Modern Law Peter Fitzpatrick, 2002-09-11
The *Mythology of Modern Law* is a radical reappraisal of the role of myth in modern society. Peter Fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society.

Faith and Fiction of Muriel Spark Ruth Whittaker, 1984-06-18 *Northrop Frye*
Robert D. Denham, 2004. The notebooks' contents not only expand on ideas laid out in Frye's published works but also touch on subjects most readers would not associate with Frye, such as his wide reading both in Eastern religious texts and in esoteric traditions ranging from astrology to the Kabbalah.

BOOK JACKET **Maps of Meaning** Jordan B. Peterson, 2002-09-11
Why have people from different cultures and eras formulated myths and stories with similar structures? What does this similarity tell us about the mind, morality, and structure of the world itself? From the author of *12 Rules for Life: An Antidote to Chaos* comes a provocative hypothesis that explores the connection between what modern neuropsychology tells us about the brain and what rituals, myths, and religious stories have long narrated. A cutting-edge work that brings together neuropsychology, cognitive science, and Freudian and Jungian approaches to mythology and narrative, *Maps of Meaning* presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind.
