Carrasco, 2012-05-15 Despite recent developments in epigraphy ethnopoetics and the literary investigation of colonial and modern materials few studies have compared glyphic texts and historic Maya literatures *Parallel Worlds* examines Maya writing and literary traditions from the Classic period until today revealing remarkable continuities across time In this volume contributions from leading scholars in Maya literary studies examine Maya discourse from Classic period hieroglyphic inscriptions to contemporary spoken narratives focusing on parallelism to unite the literature historically Contributors take an ethnopoetic approach examining literary and verbal arts from a historical perspective acknowledging that poetic form is as important as narrative content in deciphering what these writings reveal about ancient and contemporary worldviews Encompassing a variety of literary motifs including humor folklore incantation mythology and more specific forms of parallelism such as couplets chiasms kennings and hyperbatons *Parallel Worlds* is a rich journey through Maya culture and pre Columbian literature that will be of interest to students and scholars of anthropology ethnography Latin American history epigraphy comparative literature language studies indigenous studies and mythology **Northrop Frye** Robert D. Denham, 2004 The notebooks contents not only expand on ideas laid out in Frye s published works but also touch on subjects most readers would not associate with Frye such as his wide reading both in Eastern religious texts and in esoteric traditions ranging from astrology to the Kabbalah **BOOK JACKET** *Spiritual Spectacles* Sally M. Promey, 1993-03-22 Promey s book is a penetrating analysis of Shaker art The book is a gem a true advance in Shaker studies art history religious history and cultural history Highly recommended Choice a very intelligent and articulate treatment of a stunning set of message images *Art Bulletin* This book is a pleasure to look at and to read *Religious Studies Review* A fascinating investigation into another world The Shaker spirit drawings offer clues into a remarkable moment of American life as well as an opportunity to rethink just how the visual arts religious revitalizations and social memory relate to one another A model study clear absorbing and significant Neil Harris author of *The Artist in American Society* Sally Promey s inquiry critically engages current issues in the study of visual culture what do images do how do they work what needs do they fulfill just what is their power Her compelling case study joins fundamental concerns of art historians with those of students of religion and history By means of an exacting examination of Shaker drawings as the site of both expectation and encounter Promey successfully situates these *Spiritual Spectacles* at the meeting point of the inner and the outer eye Linda Seidel author of *Jan van Eyck s Arnolfini Portrait Stories of an Icon* Promey has brought to her work an excellent sensitivity to the religious issues involved keen sight and powers of observation and a very creative interpretive framework Stephen J

Stein author of *The Shaker Experience in America* Joss Whedon and Religion Anthony R. Mills, John W. Morehead, J. Ryan Parker, 2013-09-20 This is a collection of new essays on the religious themes in and the implications of the works of Joss Whedon creator of such shows as *Buffy the Vampire Slayer* *Angel* and *Firefly* and more recently writer and director of the box office hit *Marvel's The Avengers* The book addresses such topics as ethics racism feminism politics witchcraft spiritual transformation identity community heroism apocalypse and other theologically significant themes of Whedon's creative enterprises The disciplinary approaches vary as well history theology philosophy of religion phenomenology cultural studies and religious studies are all employed The various essay authors differ in that some are clearly believers in God some are clearly not and others leave that matter aside *The New Sciences of Religion* W. Grassie, 2010-11-22 Performing a critical analysis of new scientific research on religious and spiritual phenomena Grassie takes a two staged phenomenological approach working from the outside in and the bottom up without privileging at the outset any religious traditions or philosophical assumptions **Mystic Tales from the Zohar** Aryeh Wineman, 1998-04-19 Contains translations of eight narratives from Zohar the central text of Kabbalah on themes of sin and repentance death exile redemption and resurrection and includes notes and commentary Masks of the Spirit Peter T. Markman, Roberta H. Markman, 1989-01-01 Drawing on secondary works in archaeology art history folklore ethnohistory ethnography and literature the authors maintain that the mask is the central metaphor for the Mesoamerican concept of spiritual reality Covers the long history of the use of the ritual mask by the peoples who created and developed the mythological tradition of Mesoamerica Chapters 1 the metaphor of the mask in Pre Columbian Mesoamerica the mask as the God in ritual and as metaphor II metaphoric reflections of the cosmic order and III the metaphor of the mask after the conquest syncretism the Pre Columbian survivals the syncretic compromise and today's masks Over 100 color and black white photos **The Myth of the Lost Paradise in the Novels of Jacques Poulin** Paul Socken, 1993 Socken analyzes the shape and direction of Poulin's creation narratives as they evolve in the novels and demonstrates their presence from the earliest quasi political *Un cheval pour mon royaume* to the highly introspective *Le Vieux Chagrin* The novels move from an outer directed concept of the lost paradise as a state to be attained beyond the self to a sense of the lost paradise as the kingdom within achievable first on the individual level as self knowledge and only afterwards on the social level Poulin introduces the theme of the soul and his personal concept of it as the soul for him is proof of the inner life that embodies the qualities of tranquility and tenderness associated with the lost paradise Lost paradise literature is universal and timeless Poulin's portrayal is placed in historical context so that his contribution to the genre can be fully appreciated Referring to studies by such critics as Mircea Eliade Northrop Frye Jerome S Bruner and Jack J **Mythography** William G. Doty, 2000-03-21 Presenting major myth theorists from antiquity to the present this work offers a cross disciplinary approach to the study of myth Rewritten and restructured it reflects the increased interest in myth among both scholars and general readers since the publication of the first edition **Leadership and Wisdom** Wendelin

Küpers, Matt Statler, 2020-03-02 Leadership and Wisdom Narrating the Future Responsibly gives business students and practitioners the opportunity to re read tales poems myths and fables that have been interpreted by leading management scholars in order to translate the world s folk wisdom into insightful and actionable lessons for a more responsible leadership practice Most if not all cultures generate narratives that teach people how to make sense of the world and how to respond to challenges with wisdom These sources provide a medium for character as well as a guide for decision making in ambiguous and uncertain circumstances Management and organization scholars increasingly focus on what narrative wisdom traditions can teach us about leadership and organizational practices and this book is designed to bring it to students and practitioners Statler and Küpers have assembled a world class team of contributors who reflect on narratives near and dear to them and draw out the lessons for leaders With consistency throughout and end of chapter questions this book enables all readers including undergraduate and postgraduate students of leadership management and organization studies as well as interested researchers and practitioners to reflect on the contents and implications of folk wisdom

Secession and Self-Determination Stephen Macedo, Allen Buchanan, 2003-12 The many questions that surround movements for secession and self determination are both practically urgent and theoretically perplexing The United States settled its secession crisis in the 1860s But the trauma and unfinished business of those events are still with us Around the world secession and self determination are the key issues that cause strife and instability This volume provides an unusually comprehensive consideration of the many challenges of law and political philosophy that accompany them and offers theoretical insights that provide guidance for policy Among the questions considered are should the international community recognize a right to secede and if so what conditions must be satisfied before the right can be asserted Should secession and its conditions be recognized within domestic constitutions Secession is the most extreme form of political separation and there are modes of self determination short of it including indigenous peoples self government and minority language rights To what degree can these intrastate autonomy arrangements help ameliorate the injustices faced by indigenous groups

Masks and Masking Gary Edson, 2015-07-11 For at least 20 000 years masking has been a mark of cultural evolution and an indication of magical religious sophistication in society This book provides a comprehensive understanding of the mask as a powerful cultural phenomenon a means by which human groupings attempted to communicate their dignity and sense of purpose as well as establish a continuum between the natural and supernatural worlds It addresses the distinctive environments within which masks flourished and analyzes the mask as a manifestation of art ethnology and anthropology

How We Became Human Pierpaolo Antonello, Paul Gifford, 2015-10-01 From his groundbreaking Violence and the Sacred and Things Hidden since the Foundation of the World Ren Girard s mimetic theory is presented as elucidating the origins of culture He posits that archaic religion or the sacred particularly in its dynamics of sacrifice and ritual is a neglected and major key to unlocking the enigma of how we became human French philosopher of science Michel Serres states that Girard s theory provides a Darwinian

theory of culture because it proposes a dynamic shows an evolution and gives a universal explanation This major claim has however remained underscrutinized by scholars working on Girard s theory and it is mostly overlooked within the natural and social sciences Joining disciplinary worlds this book aims to explore this ambitious claim invoking viewpoints as diverse as evolutionary culture theory cultural anthropology archaeology cognitive psychology ethology and philosophy The contributors provide major evidence in favor of Girard s hypothesis Equally Girard s theory is presented as having the potential to become for the human and social sciences something akin to the integrating framework that present day biological science owes to Darwin something compatible with it and complementary to it in accounting for the still remarkably little understood phenomenon of human emergence Advent and Psychic Birth Mariann Burke,2014-12-01 The Christian season of Advent covering the span of about four weeks prior to Christmas is rich with religious and psychological significance In the darkest shortest days of the year people turn their thoughts to rebirth and the creation of new light It is a time for psychic birth guiding us toward wider consciousness and a heightened experience of life This yearning in human beings goes back to the primal roots of civilization The prayers and liturgies of the Advent season echo the myths of winter solstice festivals and the ancient desire of people to return to the nurturing chaos of unformed matter Advent prayers parallel the efforts of alchemists who strove to turn base metal into higher and more noble elements Advent expresses a fundamental longing for transformation
