Nabokov The Mystery Of Literary Structures Hb:

Nabokov Leona Toker, 2016-11-01 Vladimir Nabokov described the literature course he taught at Cornell as a kind of detective investigation of the mystery of literary structures Leona Toker here pursues a similar investigation of the enigmatic structures of Nabokov's own fiction According to Toker most previous critics stressed either Nabokov's concern with form or the humanistic side of his works but rarely if ever the two together In sensitive and revealing readings of ten novels Toker demonstrates that the need to reconcile the human element with aesthetic or metaphysical pursuits is a constant theme of Nabokov's and that the tension between technique and content is itself a key to his fiction Written with verve and precision Toker's book begins with *Pnin* and follows the circular pattern that is one of her subject's own favored devices **Arts & Humanities Citation Index**, 1997 *Choice*, 1988 Forthcoming Books Rose Arny, 2003-04 *Beyond the Book* David S. Rutledge, 2014-01-10 This critical text examines the ways in which Vladimir Nabokov one of the twentieth century's great writers structured his works to encapsulate his metaphysical beliefs It draws examples from Nabokov's novels stories and nonfiction revealing a startling consistency in his beliefs over the course of his career even as the structure of his novels increased in complexity At the heart of his work is a profound respect for what's missing for unsolvable riddles for questions even at the expense of answers Nabokov's techniques from wordplay to plotlines reveal an enduring reverence for permanent mystery Anatomy of a Short Story Yuri Leving, 2012-06-07 Since its first publication in 1948 one of Vladimir Nabokov's shortest short stories *Signs and Symbols* has generated perhaps more interpretations and critical appraisal than any other that he wrote It has been called one of the greatest short stories ever written and a triumph of economy and force minute realism and shimmering mystery Brian Boyd Vladimir Nabokov *The American Years* *Anatomy of a Short Story* contains the full text of *Signs and Symbols* line numbered and referenced throughout correspondence about the story most of it never before published between Nabokov and the editor of *The New Yorker* where the story was first published 33 essays of literary criticism bringing together classic essays and new interpretations a round table discussion in which a screenwriter a theater scholar a mathematician a psychiatrist and a literary scholar bring their perspectives to bear on *Signs and Symbols* *Anatomy of a Short Story* illuminates the ways in which we interpret fiction and the short story in particular *Vladimir Nabokov* David Packman, 1982 **Transitional Nabokov** Will Norman, Duncan White, 2009 This collection of original essays is concerned with one of the most important writers of the twentieth century Vladimir Nabokov The book features contributions from both well established and new scholars and represents the latest developments in research The essays all address the possibility of reading Nabokov's works as operating between categories of various kinds whether linguistic formal historical or national In doing so they explore exciting new paradigms for approaching Nabokov's

oeuvre The volume brings together a diverse range of critical voices from around the world to respond to some of the most urgent questions raised about Nabokov's work Topics covered include the relationship between his artistic and scientific work his influences on contemporary fiction and the development of his aesthetics over his career Drawing variously on archive research alternative readings of key texts and fresh theoretical approaches this book injects new impetus into Nabokov studies as it continues to evolve as a discipline
