dynamic relationship between historical analysis critical theory and the construction of both customary and treaty norms in international investment law **The Limits of Regionalism** Robert G. Finbow, 2006 Assessing the effectiveness of the North American Agreement on Labour Cooperation this interview based study examines the operation of the core institutions the Secretariat and National Administrative Offices over the past seven years **The Underground Heart**, 2002 The award winning author returns to his roots in the Southwest driving the highways of New Mexico and Texas and writing about the changing landscape and a thriving and diverse border culture **Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 1997** United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies, 1996 **Free Trade** L. Ian MacDonald, 2000 Few public policy issues have stirred political passions on both sides of the Canada US border as free trade did in the late 1980s Negotiated between Canada and the United States in 1987 the Free Trade Agreement became the dominant issue in the November 1988 Canadian federal election perhaps the most dramatic and divisive campaign in the second half of the twentieth century Ten years after implementation of the agreement the McGill Institute for the Study of Canada organized a major conference to renew the discussion of free trade and consider its economic impact It also marked the fifth anniversary of the North American Free Trade Agreement by expanding the discussion to include the impact of NAFTA on Mexico as well as the NAFTA side agreement on the environment Dynamics of International Relations Walter C. Clemens, 2004 Student friendly and professor endorsed Dynamics of International Relations is an innovative introductory level core text It compares realist and idealist theories and the paradigm of interdependence against case studies of recurrent problems why wage war how to make peace how to transcend conflict when and where to mediate how to increase GDP but also quality of life and how to organize for peace and promote human rights Against a backdrop of the threat of terrorism Clemens clearly demonstrates both the danger and opportunities inherent in a growing global interdependence **Forgotten Partnership Redux**, **Steel: Determinations and Views of Commissioners, Inv. TA-201-73 (Vol. I-III)**, **Weekly Compilation of Presidential Documents**, 1995 The Auto Pact Maureen Irish, 2004-01-01 Canada and the United States signed the Automotive Products Trade Agreement Auto Pact in 1965 thus resolving a competitive crisis in Canada's auto industry and extending that industry's vitality for another 35 years until a decision of the World Trade Organization WTO in February 2000 determined that the Pact violated international trading rules Following an unsuccessful appeal by Canada to the WTO's Appellate Body the pact formally came to an end in February 2001 For policymakers and scholars concerned with international trade the story of the Pact presents a fascinating case in its own right The great value of this remarkable book however is its elucidation of the main issue underlying the Pact and its forced ending the relationship between international trade rules on the one hand and investment measures intended to encourage local economic activity on the other In this connection the Canadian auto industry and centered in Windsor

Ontario directly across the river from Detroit the heart of the industry in the U S and offers an intensely concentrated sample of the triple nexus of investment labour and trade that lies at the core of economic development worldwide Sixteen expert authors both practitioners and academics here open perspectives on this nexus that are of profound significance for the future of international trade These encompass such matters as the following and the vulnerabilities of a local community dependent on trade and open borders and labour union tensions engendered by trade rule levelling that takes little or no account of national or local economic realities and implications for developing countries of the WTO finding that a production to sales ratio is a prohibited export subsidy and the impact of Mexico s role under NAFTA on the Canadian auto industry national and local regulation of government subsidies intended to attract investment and ongoing multinational efforts to create a multilateral regime to protect and regulate foreign direct investment and and the persistent failure of the WTO to reach a consensus on labour standards despite the clear provisions of major international law instruments All these issues and more are brought into sharp focus by the history of the Auto Pact and the implications of its demise For this reason this collection of insightful essays will be of incomparable value to professionals in every area of international trade The Auto Pact Investment Labour and the WTO was produced with the support of the Canadian American Research Centre for Law and Policy at the Faculty of Law University of Windsor

The North American Idea Robert A. Pastor, 2011-07-21 In its first seven years the North American Free Trade Agreement NAFTA tripled trade and quintupled foreign investment among the U S Mexico and Canada increasing its share of the world economy In 2001 however North America peaked Since then trade has slowed among the three manufacturing has shrunk and illegal migration and drug related violence have soared At the same time Europe caught up and China leaped ahead In *The North American Idea* eminent scholar and policymaker Robert A Pastor explains that NAFTA s mandate was too limited to address the new North American agenda Instead of offering bold initiatives like a customs union to expand trade leaders of the three nations thought small Interest groups stalemated the small ideas while inhibiting the bolder proposals and the governments accomplished almost nothing To overcome this resistance and reinvigorate the continent the leaders need to start with an idea based on a principle of interdependence Pastor shows how this idea once woven into the national consciousness of the three countries could mobilize public support for continental solutions to problems like infrastructure and immigration that have confounded each nation working on its own Providing essential historical context and challenging readers to view the continent in a new way *The North American Idea* combines an expansive vision with a detailed blueprint for a more integrated dynamic and equitable North America
