Nag Hammadi And The Gospel Tradition Synoptic Tradition In The Nag Hammadi Library:

Nag Hammadi and the Gospel Tradition Christopher Mark Tuckett, 1986 **Nag Hamadi and The Gospel Tradition** C. M. Tuckett, 1986 **Gospels and Gospel Traditions in the Second Century** Jens Schröter, Tobias Nicklas, Joseph Verheyden, 2018-12-03 The second century CE has often been described as a kind of dark period with regard to our knowledge of how the earliest Christian writings the gospels and Paul's letters were transmitted and gradually came to be accepted as authoritative and then later on as canonical At the same time a number of other Christian texts of various genres saw the light Some of these seem to be familiar with the gospels or perhaps rather with gospel traditions identical or similar to those that found their way into the NT gospels The volume focuses on representative texts and authors of the time in order to see how they have struggled to find a way to work with the NT gospels and or the traditions behind these while at the same time giving a place also to other extra canonical traditions It studies in a comparative way the reception of identifiably canonical and of extra canonical traditions in the second century It aims at discovering patterns or strategies of reception within the at first sight often rather chaotic way some of these ancient authors have cited or used these traditions And it will look for explanations of why it took such a while before authors got used to cite gospel texts more or less accurately

Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement **Jesus Tried and True** H. H. Drake Williams III, 2013-01-11 Are the gospels found within the New Testament superior to others Has the church unfairly chosen Matthew Mark Luke and John while leaving out many others Are there truly lost Christianities that would enrich our understanding of Jesus Would modern day seekers as well as followers of Jesus be better served by including gospels outside of the New Testament in their understanding of Jesus Jesus Tried and True answers these questions by examining the date source and reception of the canonical gospels of Matthew Mark Luke and John and then comparing this data with the other gospels It assesses this information by looking within these gospels and

also evaluating early church history examining the writings of early church writers such as Papias Ignatius of Antioch Justin Martyr Irenaeus and Eusebius It then compares these findings with the date source and reception of the non canonical gospels that have received the most attention lately such as the Gospel of Thomas Gospel of Mary Gospel of Judas Gospel of Philip and Gospel of Peter There is also a brief survey of thirteen of the most important non canonical gospels The survey provides an opinion on the dependence of these upon the gospels within the New Testament Jesus Tried and True affirms the superiority of the New Testament gospels It concludes by addressing whether non canonical gospels are lost Christianities and also whether the designation apocryphal is appropriate for other gospels **Valentinian Ethics and Paraenetic**

Discourse Philip L. Tite,2009 Offering a fresh assessment of the presence and function of paraenesis within Valentinianism this book places Valentinian moral exhortation within the context of early Christian moral discourse Like other early Christians Valentinians were not only interested in ethics but used moral exhortation to discursively shape social identity Building on the increasing recognition of ethical and communal concerns reflected in the Nag Hammadi sources this book advances the discussion by elucidating the social rhetoric within especially the Gospel of Truth and the Interpretation of Knowledge The social function of paraenesis is to persuade an audience through social re presentation The authors of these texts discursively position their readers and themselves within engaging moments of narrativity It is hoped that this study will encourage greater integration of research between those working on the Nag Hammadi material and those studying early Christian paraenetic discourse **Authenticating the Activities of Jesus** Craig A. Evans,Bruce Chilton,2024-01-08 This volume reviews the criteria assumptions and methods involved in critical Jesus research Its purpose is to clarify the procedures necessary to distinguish tradition that stems from Jesus from tradition and interpretation that stem from later tradents and evangelists This publication has also been published in paperback please click here for details

[Authenticating the Activities of Jesus](#) Bruce David Chilton,Craig Alan Evans,1999 This collection of studies offers Jesus researchers a gold mine of fresh research and critical appraisal of the assumptions and methods employed in the study of the historical Jesus This publication has also been published in paperback please click here for details **A Century of**

Theological and Religious Studies in Britain Ernest Nicholson,2004-01-15 The essays in this volume give an account of how the agenda for theology and religious studies was set and reset throughout the twentieth century by rapid and at times cataclysmic changes wars followed by social and academic upheavals in the 1960s by new movements of thought by a bounty of archaeological discoveries and by unprecedented archival research Further new trends of study and fresh approaches existentialist Marxian postmodern have in more recent years generated new quests and horizons for reflection and research The centenary of the British Academy in 2002 has provided a most welcome opportunity for reconsidering the contribution of British scholarship to theological and religious studies in the last hundred years *Images of Rebirth* Hugo
