## **Nagarjuna's Twelve Gate Treatise:**

*Nāgārjuna's Twelve Gate Treatise* Hsueh-li Cheng, 2012-12-06 MADHYAMIKA The hallmark of Mādhyamika philosophy is Emptiness sunyata This is not a view of reality In fact it is emphatically denied that sunyata is a view of reality If anybody falls into such an error as to construe emptiness as reality or as a view even the right view of reality he is only grasping the snake at the wrong end Mk 24 1 I Nāgārjuna in Mk 24 18 has referred to at least four ways by which the same truth is conveyed Whatever is dependent origination we call it emptiness That is also dependent conceptualization that is to be sure the Middle Way The two terms pratitya samutpiida and upādiya prajñapti which I have translated here as dependent origination and dependent conceptualization need to be explained The interdependence of everything and under everything we may include following the Mādhyamika all items ontological concepts entities theories views theses and even relative truths i e the essential lack of independence of the origin of upādi of everything proves or shows that everything is essentially devoid of its assumed essence or its independent own nature or its self existence of svabhāva Besides our cognition of anything lacks independence in the same way Our conception of prajñapti of something essentially depends upon something else and so on for everything ad infinitum **Nagarjuna's Twelve Gates Treatise** Sylvain

Tessier, 1990-03-15 **The Logic of Unity** Hōsaku Matsuo, 1987-01-01 This clear and elegant translation reveals how a modern Japanese thinker dared to show the basic flaw of Western epistemology In unmasking this limitation Matsuo presents an Eastern view of a unified experience and provides an epistemological basis for comparative philosophy Matsuo notes that while early Greek thought began by focusing on the right counsel Know thyself since then Western thought has been

influenced by empiricistic analysis fired by the rise of scientific philosophy The author thus turns to Eastern epistemology in particular Buddhist thought for clues to the unified experience The seminal idea of emptiness *nyat* plays a distinct role in this discovery The concept of emptiness encompasses the whole dimension of perception where there is no room for separation into mind and body and or any other form of dichotomy Once it is known that the total dimension of perception the logic of unity functions in each and every person then and only then can the field of comparative thought and philosophy be cleared of all preconceptions and move into a more fruitful exchange of ideas Until such a time Matsuo claims we are hopelessly engaged in merely refining the epistemological process without ever being able to understand the very basis of intelligence
