Destenay,1974 *China* Nagel Publishers,1974 **Encyclopedia of Library and Information Science** Allen Kent,Harold Lancour,Jay E. Daily,1977-05-01 The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field China Bound Linda A. Whitaker,Rinn-Sup Shinn (Foreign affairs analyst),1972 **The Great Wall of China** Arthur Waldron,1990-07-27 This is the first full scholarly study of the Great Wall of China to appear in any language and it challenges many deeply held ideas about Chinese history Drawing both on primary sources and on the latest archaeology the book first demonstrates that the standard account of the Great Wall is untrue and misleading and then presents a convincing new account It begins by tracing the various walls and systems of frontier defences that existed in early Chinese history and shows how the greatest of these achieved a mythical symbolic stature which long survived the Wall itself A striking concluding chapter traces how the true history of the Wall was lost in the early twentieth century as it was gradually transformed into a Chinese national symbol explained through historical myth The book is an important contribution to the history of China s defensive policy and her ideological attitudes and will be of interest both to students of Chinese history and of international relations in the pre modern world Buddhism and Iconoclasm in East Asia Fabio Rambelli,Eric Reinders,2012-09-06 This is a cross cultural study of the multifaceted relations between Buddhism its materiality and instances of religious violence and destruction in

East Asia which remains a vast and still largely unexplored field of inquiry. Material objects are extremely important not just for Buddhist practice but also for the conceptualization of Buddhist doctrines yet Buddhism developed ambivalent attitudes towards such need for objects and an awareness that even the most sacred objects could be destroyed. After outlining Buddhist attitudes towards materiality and its vulnerability the authors propose a different and more inclusive definition of iconoclasm a notion that is normally not employed in discussions of East Asian religions. Case studies of religious destruction in East Asia are presented together with a new theoretical framework drawn from semiotics and cultural studies to address more general issues related to cultural value sacredness and destruction in an attempt to understand instances in which the status and the meaning of the sacred in any given culture is questioned contested and ultimately denied and how religious institutions react to those challenges.

The Grand Documentation Eduard Kögel, 2015-11-13 Ernst Boerschmann was the most influential foreign architectural researcher in China in the first half of the twentieth century. This book concerns his three year research expedition through the Chinese Empire 1906-1909. He was the first Westerner to systematically document China's religious architecture returning from his travels with thousands of photographs sketches and architectural surveys. His six major publications leading up to 1931 described here alongside the reactions they caused were milestones on the path to formal study of Chinese architectural history long before Chinese academics themselves began to take interest in the subject in the 1930s.

Asian Economic and Political Issues Frank H. Columbus, 1998. It is predicted by some observers that the 21st century will be remembered as the Asian Century. Many of the countries in the region seem to be able to take the economic and trade baton when one of the others experiences problems. The region in general continues to grow economically politically and militarily. The articles presented in this volume examine the current political and economic situations in nations across Asia particularly focusing on economic developments.
