Nail Down the Stars John Morressy, 1979 **To The Stars** George Takei, 2015-03-10 Best known as Mr Sulu helmsman of the Starship Enterprise and captain of the Starship Excelsior George Takei is beloved by millions as part of the command team that has taken audiences to new vistas of adventure in Star Trek the unprecedented television and feature film phenomenon From the program's birth in the changing world of the 1960s and death at the hands of the network to its rebirth in the hearts and minds of loyal fans the Star Trek story has blazed its own path into our recent cultural history leading to a series of blockbuster feature films and three new versions of Star Trek for television The Star Trek story is one of boundless hope and crushing disappointment wrenching rivalries and incredible achievements It is also the story of how after nearly thirty years the cast of characters from a unique but poorly rated television show have come to be known to millions of Americans and people around the world as family For George Takei the Star Trek adventure is intertwined with his personal odyssey through adversity in which four year old George and his family were forced by the United States government into internment camps during World War II Star Trek means much more to George Takei than an extraordinary career that has spanned thirty years For an American whose ideals faced such a severe test Star Trek represents a shining embodiment of the American Dream the promise of an optimistic future in which people from all over the world contribute to a common destiny

The Turnouts - Tribute to a distant star Upendra, 2016-09-26 A Child having sighted a distant bright star through the doorway of a coach of the train he is travelling in recapitulates priceless memories of the bond he shared with this Star The story woven around emotional highpoints in the life of the Child is centered on precious moments with this Star with its own share of satire and inflexibility The emotional transitions the Child experiences during a train journey switches tracks almost at the same pace as the train if not faster And this journey unfolds itself on a larger than life canvas The Turnouts The train piercing through dense fog and clipping at breathtaking speed with a rhythmic rattle at turnouts seemed to be in a greater hurry to end its journey On opening the huge metallic door of the coach that I was in a gust of chilled air gushed into the coach engulfing me It was a bright starlit night A distant star pinned to a conspicuous corner of the vast bright canvas of the night sky caught my attention The star with a smooth sparkle and simmering warmth seemed unusually bright The star's brightness piercing through the dense fog and its warmth overpowering the chillness around was trying to reach out to me with a message The Star was probably trying to convey something to me and it did resulting in a volcano of emotions with the speeding train shifting tracks on each turnout oblivious of the turmoil within *Nature & Science on the Pacific Coast*, 1915 Science Fiction and Fantasy Literature, Vol 1 R.
