In *Naked*, editors Ayana Byrd and Akiba Solomon present a compilation of personal stories about African American women's perceptions of their body, hair, skin color, and sexuality from diverging perspectives. Though these narratives differ widely in content and perspective, the reader is able to hear the voices and lived experiences of Black women and learn about the ethnic, racial, and gender identity processes for this group. Presenting the diversity of Black women's experiences is a particularly important contribution of this book given this group's continuous portrayal as homogenous in popular media and academic circles alike. Thus, the editors not only give a range of voices to a marginalized group, they also provide a resource for scholars seeking to understand contemporary experiences of Black women.

Sonia Sanchez introduces the text and sets the tone for the book by stating "...when you talk about beauty, you're talking about what it means to be human. When you find the humanity inside yourself, that's when you know that you are beautiful" (p. xv). The editors posit that it is the humanity of Black women that is challenged by White supremacist patriarchal culture. They argue that this book is not about "ism's" (e.g., racism, sexism, capitalism). However, the experiences articulated illuminate the collective impact and internalization of these social phenomena, although they may be experienced in myriad ways.

A central theme is feeling different and undesirable in some fundamental way that makes the process of self-

affirmation a continuous endeavor. The shared experience of internalizing dominant (Eurocentric) patriarchal notions of beauty led to lowered self-esteem, lack of self-knowledge, and even, self-denigration. Writers describe the process of discovering one's physical self, which is clearly connected to intergenerational cultural beliefs and mores, as well as the stereotypes of Black women. The continued objectifying experiences described demonstrate the persistence of the historic sexualization of Black women. Women and girls alike repeatedly describe a fear of walking by groups of men because of the verbal barrage of sexually objectifying comments and gestures typically given.

Recently, feminists, womanists, and hip hop feminists have given attention to the objectification of women, particularly Black women in contemporary hip hop. In *Naked*, personal narratives are presented from contrasting perspectives to provide a more holistic yet conflictual understanding of these issues. Some women describe the negative impact of contemporary media on their self-image, and another describes and boldly asserts her choice to wear "ho gear." Still another perspective is that of Melyssa Ford, "the highest paid video girl to date" (p. 219) who describes her vulnerability on video shoots, objectification by men, and the process of reclaiming power over her own body, which she describes as her commodity. These contrasting perspectives demonstrate the complexity of issues (e.g., the range of perceptions about woman's objectification) and pose critical questions for scholars who seek to understand contemporary Black women's experiences.

Sexual identity and psychosocial development are also addressed in *Naked*, which is particularly important given the soaring rates of HIV infection among African American women. Researchers have given attention to Black wom-

Body Stories Jill Andrews, May Friedman, 2020-11-01 Body stories capture a nuanced interconnected interactive and complex telling of our understanding perception and experience of and through our bodies Plenty has been published on body image but image suggests a static fixed body unmitigated through our social interactions and varying times and spaces This book is not a how to guide for fat confidence It's not a compendium of fat suffering It's simply a collection of narratives about what it's like to survive in a weight hating world It resists the ways that marginalized bodies are being written and researched and put into other people's ideas about our existence The stories in this book are celebratory and are painful They look at intersections of race and queerness they destabilize womanhood by presenting a range of possible female embodiments They explore issues of disability and madness The full range of possibilities that are collected here give a picture of what it means to live in a society with strong and powerful messages about size about normalcy about what a moral and healthy life and body look like This book is a snapshot of its place and time but these stories remind us that we're here to stay The body stories will change but we will keep owning our own narratives While story especially written by women is often seen as outside the academic canon these stories these creative offerings are theory are research and are activism They are nothing less than the blueprint for liberation Writing about fat and about bodies outside of medicalized narratives without ignoring the impact of race sexuality class ability gender fashion appearance and beyond is radical and rigorous It is impossible to think about the future without wishing for liberation Liberation can come in many forms It can mean an awareness the ability to confront The stories in this book display the ways that liberation isn't a finish line or a thing we can complete rather it is a million small actions
