## **Naked Lunch 1st Edition:**

Naked Lunch @ 50 Oliver C. G. Harris, Ian MacFadyen, 2009 Celebrating and analyzing a landmark novel that is aberrant obscene and blasphemous Naked Lunch was banned ridiculed and castigated on publication in 1959 and yet fifty years down the line it has lost nothing of its power to astonish and inspire A lacerating satire an exorcism of demons a grotesque cabinet of horrors and a landmark experiment in linguistic derangement it is a work of ecstatic excoriating laughter and great transcendent beauty The first book ever to take on William Burroughs masterpiece this critical collection brings together an international array of writers scholars musicians scientists and artists who cast new eyes on the writing and reception of Burroughs unique work Tracing its origins from Texas to Tangier from Mexico City to New York and Paris crossing time zones and cultures Naked Lunch 50 breaks new ground in understanding this most influential but elusive of texts Naked Lunch 50 includes studies of the text s manuscript and textual history of its origins in and creative debts to a range of specific locations of its reception in different societies over time and in relation to broader cultural artistic and personal histories Contributors discuss the novel s existence as a physical object in regard to both design and collectability the history of its critical reception its cultural importance in relation to censorship and visionary art its relationship to literary genres from science fiction to the horror film and its significance as a work prophetic of current trends in electronic culture and biology A series of introductory sections or Dossiers written by Ian MacFadyen provide glimpses of further horizons of research and reading while a set of endpapers by the artist Philip Taaffe offers a visual correlative to Burroughs extraordinary text

growing fields of textual studies archival research and genetic criticism asking crucial questions thereby about the nature of archives and their relationship to a writer's work These questions about the archive concern not only the literary medium In the 1960s and 1970s Burroughs collaborated with filmmakers sound technicians and musicians who helped re contextualized his writings in other media Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author's work It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws sexual practice censorship and what we today call a society of control More broadly his work continues to challenge our common assumptions about language authorship textual stability and the archive in its broadest definition

**Anti-Humanism in the Counterculture** Guy Stevenson, 2020-10-21 This book offers a radical new reading of the 1950s and 60s American literary counterculture Associated nostalgically with freedom of expression romanticism humanist ideals and progressive politics the period was steeped too in opposite ideas ideas that doubted human perfectibility spurned the majority for a spiritually elect few and had their roots in earlier politically reactionary avant gardes Through case studies of icons in the counterculture the controversial sexual revolutionary Henry Miller Beat Generation writers Jack Kerouac Allen Ginsberg and William S Burroughs and self proclaimed philosopher of hip Norman Mailer Guy Stevenson explores a set of paradoxes at its centre between romantic optimism and modernist pessimism between brutal rhetoric and emancipatory desires and between social egalitarianism and spiritual elitism Such paradoxes Stevenson argues help explain the cultural and political worlds these writers shaped in their time and beyond

*Collage in Twentieth-Century Art, Literature, and Culture* Rona Cran, 2016-05-23 Emphasizing the diversity of twentieth century collage practices Rona Cran's book explores the role that it played in the work of Joseph Cornell William Burroughs Frank O Hara and Bob Dylan For all four collage was an important creative catalyst employed cathartically aggressively and experimentally Collage's catalytic effect Cran argues enabled each to overcome a potentially destabilizing crisis in representation Cornell convinced that he was an artist and yet hampered by his inability to draw or paint used collage to gain access to the art world and to show what he was capable of given the right medium Burroughs formal problems with linear composition were turned to his advantage by collage which enabled him to move beyond narrative and chronological requirement O Hara used collage to navigate an effective path between plastic art and literature and to choose the facets of each which best suited his compositional style Bob Dylan's self conscious application of
