Lee, **Encyclopedia of Italian Literary Studies: A-J** Gaetana Marrone, 2007 Publisher description The Aesthetic Life of Cyril Scott Sarah Collins, 2013 **The Poetry of Place** Louisa MacKenzie, 2011-04-23 The sixteenth century in France was marked by religious warfare and shifting political and physical landscapes Between 1549 and 1584 however the Pl iade poets including Pierre de Ronsard Joachim Du Bellay R my Belleau and Antoine de Ba f produced some of the most abiding and irenic depictions of rural French landscapes ever written In The Poetry of Place Louisa Mackenzie reveals and analyzes the cultural history of French paysage through her study of lyric poetry and its connections with landscape painting cartography and land use history In the face of destructive environmental change lyric poets in Renaissance France often wrote about idealized physical spaces reclaiming the altered landscape to counteract the violence and loss of the period and creating in the process what Mackenzie following David Harvey terms spaces of hope This unique alliance of French Renaissance studies with cultural geography and eco criticism demonstrates that sixteenth century poetry created a powerful sense of place which continues to inform national and regional sentiment today **Shakespeare's Universe of Discourse** Keir Elam, 1984-06-21 This book makes ample use of approaches to language within linguistics semiotics the philosophy of language and sociology in order to do justice to the subtlety of Shakespeare s verbal artistry Keir Elam adopts a fresh approach to the language of Shakespeare s comedies considering it not simply as style but as the principal dramatic and comic substance of the plays Traditional analysis of the language as diction expression or verbal structure is not adequate to describe the range and importance of linguistic functions in these plays This book shows that in Shakespearean comedy language or rather discourse language in use is always a dynamic active protagonist of the drama The author explores the extraordinary gamut of verbal activities or language games that contribute to the rich rhetorical make up of the comedies The historical framework complements the application of critical theory which will assure a readership among students and teachers of Shakespeare as well as those interested in linguistics and semiotics Figures of the Text Michael Vincent, 1992-01-01 The works of Jean de La Fontaine have invited an extraordinary variety of readings in the three centuries since their composition By engaging selected fables and tales with contemporary notions of intertextuality reader reception theory and grammatology Figures of the Text raises questions about what reading La Fontaine meant in the 17th century and what it means today The study integrates a theory of reading and a theory of textual production by drawing attention to those aspects of the text that figure writing and reading for instance scenes of reading other modes of writing emblems hieroglyphics inscriptions and epitaphs proper names and citation proverbs maxims allusions the relation of represented orality to textuality of textuality to corporeality and of textuality to the

Reading Green in Early Modern England Leah Knight, 2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing Reading Green in Early Modern England mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world
