Buxton, 2020-02-06

Best known for his writings on economic history and communications Harold Innis also produced a body of biographical work that paid particular attention to cultural memory and how it is enriched by the study of neglected historical figures In this compelling volume William Buxton addresses Innis s engagement with the legacy of the fur trader and adventurer Peter Pond Harold Innis on Peter Pond comprises eight texts by Innis including his 1930 biography of Pond as well as his writings on the explorer s myriad activities The book also features a collection of eight letters exchanged between Innis and Florence Cannon a descendent of Pond with a strong interest in her ancestor s life and times and an unpublished 1932 article on Pond s 1773-75 activities as a fur trader on the upper Mississippi written by Innis s former student R Harvey Fleming Situating Innis s writings on Pond in relation to his broader body of biographical work Buxton interprets what these texts tell us about Innis s intellectual practice historiography and the writing of biography The book explores how Innis s perspectives shifted with changing intellectual and political circumstances and shows that his advocacy of Pond as an unrecognized father of confederation challenged conventional views of Canadian nation building A critical edition of previously overlooked biographical texts Harold Innis on Peter Pond traces what these writings disclose about the biographer s character and values even as they discuss their subject *The Miramichi Fire* Alan MacEachern, 2020-07-23 On 7 October 1825 a massive forest fire swept through northeastern New Brunswick devastating entire communities When the smoke cleared it was estimated that the fire had burned across six thousand square miles one fifth of the colony The Miramichi Fire was the largest wildfire ever to occur within the British Empire one of the largest in North American history and the largest along the eastern seaboard Yet despite the international attention and relief efforts it generated and the ruin it left behind the fire all but disappeared from public memory by the twentieth century A masterwork in historical imagination The Miramichi Fire vividly reconstructs nineteenth century Canada s greatest natural disaster meditating on how it was lost to history First and foremost an environmental history the book examines the fire in the context of the changing relationships between humans

and nature in colonial British North America and New England while also exploring social memory and the question of how history becomes established warped and forgotten Alan MacEachern explains how the imprecise and conflicting early reports of the fire s range along with the quick rebound of the forests and economy of New Brunswick led commentators to believe by the early 1900s that the fire s destruction had been greatly exaggerated As an exercise in digital history this book takes advantage of the proliferation of online tools and sources in the twenty first century to posit an entirely new reading of the past Resurrecting one of Canada s most famous and yet unexamined natural disasters The Miramichi Fire traverses a wide range of historical and scientific literatures to bring a more complete story into the light *Public Poetics* Bart Vautour,Erin Wunker,Travis V.
