Naming Nature:

Naming Nature: The Clash Between Instinct and Science Carol Kaesuk Yoon, 2010-08-02 Examines the history of taxonomy describing the quest of scientists to name and classify living things from Carl Linnaeus to early twenty first century scientists who rely more on microscopic evidence than their senses which has encouraged an indifference to nature that is responsible for the extinction of many species

Nature Knowledge Glauco Sanga, Gherardo Ortalli, 2004-11 Numerous scholars in particular anthropologists historians economists linguists and biologists have over the last few years studied forms of knowledge and use of nature and of the ways nature can be protected and conserved Some of the most prominent scholars have come together in this volume to reflect on what has been achieved so far to compare the work carried out in the past to discuss the problems that have emerged from different research projects and to map out the way forward

Great Lakes Nature Mary Blocksma, 2004 One day I was gazing out my window at a stretch of trees when I was suddenly struck with the realization that I couldn't name any of them like most Americans I had somehow become an adult who could not claim even an elementary knowledge of my natural neighborhood Thus begins Mary Blocksma's ambitious quest to identify the flora and fauna of her Great Lakes home With no big program no particular organization Blocksma sets out to identify her environment just a name at a time a few times a week for a year Covering everything from blue moons and bald eagles to arbor vitae and lake effect snow this book transports the armchair explorer out of the living room and into the forests and wetlands of the Great Lakes In this charming guide to the everyday but often overlooked ecological treasures that await the would be naturalist you'll find not just the names of plants and animals but tips on buying bird feeders identifying spiders and telling a blue jay from a belted kingfisher Packed with helpful hints novel trivia and a useful guide to guidebooks *Great Lakes Nature* is sure to delight and educate **BOOK JACKET**

A Poetics of Jesus Jeffrey F. Keuss, 2018-10-24 This title was first published in 2002 *A Poetics of Jesus* explores the act of writing within and between the boundaries of 19th century biblical criticism and fiction Reflecting on the work of Christian poetics after Augustine to Baur Feuerbach Friedrich Strauss and Victorian novelists of the eighteenth and nineteenth century this book breaks new ground in juxtaposing the evoked image of Christ arising from Victorian biblical criticism against the image of Christ within fiction letting both these images and the words that figured them interact This book offers a highly accessible introduction to 19th century literature and theology through comparisons made to contemporary post modern theorists Demonstrating how literature can inform theology without itself becoming theology this book constitutes an important contribution to the literature theology debate and a much needed contribution to contemporary Christology through its introduction to the literature and the writers central to the beginnings of the historical quest for Jesus

Sex Differences Lee Ellis, Scott Hershberger, Evelyn Field, Scott Wersinger, Sergio Pellis, David Geary, Craig Palmer, Katherine Hoyenga, Amir Hetsroni, Kazmer Karadi, 2013-05-13 This volume is the first to aim at summarizing all of the scientific literature published so far regarding male female differences and

similarities not only in behavior but also in basic biology physiology health perceptions emotions and attitudes Results from over 18 000 studies have been condensed into more than 1 900 tables with each table pertaining to a specific possible sex difference Even research pertaining to how men and women are perceived stereotyped as being different is covered Throughout this book s eleven years in preparation no exclusions were made in terms of subject areas cultures time periods or even species The book is accompanied by downloadable resources containing all 18 000 references cited in the book **Sex Differences** is a monumental resource for any researcher student or professional who requires an assessment of the weight of evidence that currently exists regarding any sex difference of interest It is also suitable as a text in graduate courses pertaining to gender or human sexuality

The Story of Nature Jeremy Mynott,2024-09-10 The story of humanity s evolving relationship with the natural world from pre history to the present day Nature has long been the source of human curiosity and wonderment and the inspiration for some of our deepest creative impulses But we are now witnessing its rapid impoverishment even destruction in much of our world In this beautifully illustrated book Jeremy Mynott traces the story of nature past present and future From the dramatic depictions of animals by the prehistoric cave painters through the romantic discovery of landscape in the eighteenth century to the climate emergency of the present day Mynott looks at the different ways in which humankind has understood the world around it Charting how our ideas about nature emerged and changed over time he reveals how the impulse to control nature has deep historical roots As we reach an environmental crisis point this vital study shows how human imagination and wonder can play a restorative role and reveal what nature ultimately means to us

The Bounds of Myth Gustavo Esparza,Nassim Bravo,2021-03-22 The articles in **The Bounds of Myth** edited by Gustavo Esparza and Nassim Bravo shed light on the internal shapes of the mythological discourse showing the way in which myth borders religion science literature theology i e other forms of rationality The contributing authors of the volume claim that myth is a valid form of thought and that the former evolves within other forms of discourse even though its composition is independent and even precedes the latter The articles collected here demonstrate the importance of myth as a form of thought that is in constant development a feature that shows in turn that in spite of its remote and archaic origin myth remains a valuable and relevant tool to interpret our own culture Contributors are Nassim Bravo Claudio Calabrese Teresa Enr quez Gustavo Esparza Ethel Junco Enrique Mart nez Cecilia Sabido and Jon Stewart

Secrets of Life, Secrets of Death Evelyn Fox Keller,2014-02-25 The essays included here represent Fox Keller s attempts to integrate the insights of feminist theory with those of her contemporaries in the history and philosophy of science
