James T. Siegel

Naming The Witch Cultural Memory In The Present:

Naming the Witch James T. Siegel, 2006 Naming the Witch explores the recent series of witchcraft accusations and killings in East Java which spread as the Suharto regime slipped into crisis and then fell After many years of ethnographic work focusing on the origins and nature of violence in Indonesia Siegel came to the conclusion that previous anthropological explanations of witchcraft and magic mostly based on sociological conceptions but also including the work of E E Evans Pritchard and Claude Lévi Strauss were simply inadequate to the task of providing a full understanding of the phenomena associated with sorcery and particularly with the ideas of power connected with it Previous explanations have tended to see witchcraft in simple opposition to modernism and modernity enchantment vs disenchantment The author sees witchcraft as an effect of culture when the latter is incapable of dealing with accident death and the fear of the disintegration of social and political relations He shows how and why modernization and witchcraft can often be companions as people strive to name what has hitherto been unnameable

Witchcraft in Russia and Ukraine, 1000-1900 Valerie A. Kivelson, Christine D. Worobec, 2020-11-15 For any serious scholar of Russian and Ukrainian witchcraft and magic this volume is a must read Scholars of folklore and popular culture also will find much of value Folklorica This sourcebook provides the first systematic overview of witchcraft laws and trials in Russia and Ukraine from medieval times to the late nineteenth century Witchcraft in Russia and Ukraine 1000 1900 weaves scholarly commentary with never before published primary source materials translated from Polish Russian and Ukrainian These sources include the earliest references to witchcraft and sorcery secular and religious laws regarding witchcraft and possession full trial transcripts and a wealth of magical spells The documents present a rich panorama of daily life and reveal the extraordinary power of magical words Editors Valerie A Kivelson and Christine D Worobec present new analyses of the workings and evolution of legal systems the interplay and tensions between church and state and the prosaic concerns of the women and men involved in witchcraft proceedings The extended documentary commentaries also explore the shifting boundaries and fraught political relations between Russia and Ukraine

Religion and Cultural Memory Jan Assmann, Rodney Livingstone, 2006 In ten brilliant essays Jan Assmann explores the connections between religion culture and memory Building on Maurice Halbwachs's idea that memory like language is a social phenomenon as well as an individual one he argues that memory has a cultural dimension too He develops a persuasive view of the life of the past in such surface phenomena as codes religious rites and festivals and canonical texts on the one hand and in the Freudian psychodrama of repressing and resurrecting the past on the other Whereas the current fad for oral history inevitably focuses on the actual memories of the last century or so Assmann presents a commanding view of culture extending over five thousand years He focuses on cultural memory from the Egyptians Babylonians and the Osage Indians down to recent controversies about memorializing the Holocaust in Germany and the role of memory in the current disputes between Israelis and Palestinians in the Middle East and between Protestants and Catholics in Northern Ireland

Improvisational Islam Nur Amali Ibrahim, 2018-10-15 In this landmark account Nur Amali Ibrahim paints a nuanced detailed portrait of students seeking to reconcile some of the major social forces that inflect everyday life across the Muslim world Islam liberalism radicalism and secularism as they strive to both find and define their place in a fast changing democratizing nation Ibrahim demonstrates the critical importance of scholarly attention in both anthropology and religious studies to this vibrant country the world's largest Muslim nation Daromir Rudnyckj Associate Professor University of Victoria and author of the award winning *Spiritual Economies* *Improvisational Islam* is about novel and unexpected ways of being Muslim where religious dispositions are achieved through techniques that have little or no precedent in classical Islamic texts or concepts Nur Amali Ibrahim foregrounds two distinct autodidactic university student organizations each trying to envision alternative ways of being Muslim independent from established religious and political authorities One group draws from methods originating from the business world like accounting auditing and self help to promote a puritanical understanding of the religion and spearhead Indonesia's spiritual rebirth A second group reads Islamic scriptures alongside the western human sciences Both groups he argues show a great degree of improvisation and creativity in their interpretations of Islam These experimental forms of religious improvisations and practices have developed in a specific Indonesian political context that has evolved after the deposal of President Suharto's authoritarian New Order regime in 1998 At the same time *Improvisational Islam* suggests that the Indonesian case study brings into sharper relief processes that are happening in ordinary Muslim life everywhere To be a practitioner of their religion Muslims draw on and are inspired by not only their holy scriptures but also the non traditional ideas and practices that circulate in their society which importantly include those originating in the West In the contemporary political discourse where Muslims are often portrayed as uncompromising and adversarial to the West and where bans and walls are deemed necessary to keep them out this story about flexible and creative Muslims is an important one to tell

Desperate Magic Valerie Kivelson, 2013-10-30 In the courtrooms of seventeenth century Russia the great majority of those accused of witchcraft were male in sharp contrast to the profile of accused witches across Catholic and Protestant Europe in the same period While European courts targeted and executed overwhelmingly female suspects often on charges of compacting with the devil the tsars courts vigorously pursued men and some women accused of practicing more down to earth magic using poetic spells and home grown potions Instead of Satanism or heresy the primary concern in witchcraft testimony in Russia involved efforts to use magic to subvert mitigate or avenge the harsh conditions of patriarchy serfdom and social hierarchy Broadly comparative and richly illustrated with color plates *Desperate Magic* places the trials of witches in the context of early modern Russian law religion and society Piecing together evidence from trial records to illuminate some of the central puzzles of Muscovite history Kivelson explores the interplay among the testimony of accusers the leading questions of the interrogators and the confessions of the accused Assembled they create a picture of a shared moral vision of the world that crossed social divides Because of the routine use

of torture in extracting and shaping confessions Kivelson addresses methodological and ideological questions about the Muscovite courts equation of pain and truth questions with continuing resonance in the world today Within a moral economy that paired unquestioned hierarchical inequities with expectations of reciprocity magic and suspicions of magic emerged where those expectations were most egregiously violated Witchcraft in Russia surfaces as one of the ways that oppression was contested by ordinary people scrambling to survive in a fiercely inequitable world Masters and slaves husbands and wives and officers and soldiers alike believed there should be limits to exploitation and saw magic deployed at the junctures where hierarchical order veered into violent excess Trance Mediums and New Media Anja Dreschke, Martin

Zillinger, 2014-12-01 Ongoing debates about the return of religion have paid little attention to the orgiastic and enthusiastic qualities of religiosity despite a significant increase in the use of techniques of trance and possession around the globe Likewise research on religion and media has neglected the fact that historically the rise of mediumship and spirit possession was closely linked to the development of new media of communication This innovative volume brings together a wide range of ethnographic studies on local spiritual and media practices Recognizing that processes of globalization are shaped by mass mediation the volume raises questions such as How are media like photography cinema video the telephone or television integrated in seances and healing rituals How do spirit mediums connect with these media Why are certain technical media shunned in these contexts Beckett, Derrida, and the Event of Literature Asja Szafraniec, 2007 The late Jacques Derrida's

notion of literature is explored in this new study Starting with Derrida's self-professed inability to comment on the work of Samuel Beckett whom Derrida nevertheless considered one of the most interesting and exemplary writers of our time Asja Szafraniec argues that the shared feature of literary works as Derrida understands them is a double juridical economical gesture and that one aspect of this notion the juridical is more hospitable to Beckett's oeuvre than the other She then discusses other contemporary philosophical approaches to Beckett including those of Gilles Deleuze Stanley Cavell and Alain Badiou The book offers an innovative analysis of Derrida's approach to literature as well as an overview of current philosophical approaches to contemporary literature and a number of innovative readings of Beckett's work *Popular Religion in Southeast Asia* Robert L. Winzeler, 2015-12-17 In this overview of popular religion in Southeast Asia Robert L.

Winzeler offers an interpretative look at the nature of today's indigenous religious traditions as well as Hinduism Buddhism Islam and Christianity and conversion He focuses not on religion as it exists in books doctrine theology and among elites and dominant institutions but rather in the lives beliefs and practices of ordinary people *Popular Religion in Southeast Asia* employs a broad view of religion as involving not just the usual Western notions of faith but also supernatural belief in general magic sorcery and practical concerns such as healing personal protection and success in business Case studies and concrete examples flesh out the discussion demonstrating how popular religion relates to historical and contemporary social cultural political and economic developments in the region **Naming the Witch** James T.
