Histories of the Present Norman E. Whitten, Dorothea Scott Whitten, 2024-04-22 The wellspring of critical analysis in this book emerges from Ecuador's major Indigenous Uprising of 1990 and its ongoing aftermath in which indigenous and Afro-Ecuadorian action transformed the nation state and established new dimensions of human relationships. The authors weave anthropological theory with longitudinal Ecuadorian ethnography to produce a unique contribution to Latin American studies.

Living Life in Full Bloom Elizabeth Murray, 2014-03-25 Living life in full bloom means living with hope and purpose with imagination and vision in a way that honors the Earth, the spirit, and one another. Elizabeth Murray encourages and nurtures you to explore four personality attributes: Gardener, Artist, Lover, and Spirit Weaver, or pathways that create a framework for practicing mindfulness, unleashing potential, and reviving communities. As Gardeners, you will learn to observe and grow; as Artists, you will discover creativity and new possibilities; as Lovers, you will lead with the heart and commit to things they're passionate about; and as Spirit Weavers, you will create rituals and express gratitude. Accented with Murray's exquisite nouveau vintage photography, 30 guided activities for each pathway help you take small but powerful action steps to define the purposes of busy lives and remember who you really are. Murray also includes profiles of bloomers inspiring individuals who exemplify this life and are in partnership with their local communities and international organizations focused on people and causes. A step-by-step exercise on life mapping helps to identify passions, skills, and community needs and offers specific actions to serve the greater good.

Defilement, Moral Purity, and Transgressive Power Robert Joseph Priest, 1993

In the Society of Nature Philippe Descola, 1994 The Achuar Indians live in the remote forest reaches of the Upper Amazon and have developed sophisticated strategies of resource management. Philippe Descola, who has gathered material over several years of fieldwork, documents their rich knowledge of the environment. He explains how this technical knowledge of the increasingly threatened Amazonian ecosystems is interwoven with cosmological ideas that endow nature with the characteristics of society. Combining a symbolist approach with an ecological analysis, the book contributes a new theory of the social construction of nature.
