When in the early 1870s historian Hubert Howe Bancroft sent interviewers out to gather oral histories from the pre statehood gentry of California he didn't count on one thing the women When the men weren't available the interviewers collected the stories of the women of the household sometimes almost as an afterthought These interviews were eventually archived at the University of California though many were all but forgotten Testimonios presents thirteen women's firsthand accounts from the days when California was part of Spain and Mexico Having lived through the gold rush and seen their country change so drastically these women understood the need to tell the full story of the people and the places that were their California *The California Native Landscape* Greg Rubin,Lucy Warren,2013-03-05 Water shortages and water rationing are commonplace throughout California rendering expanses of lawn and thirsty nonnative plants unsustainable The California Native Landscape addresses both concerns by showing homeowners how to succeed with natives and showing them how lush colorful and thriving their landscape can be The authors stress the importance of smart garden design and combining the right plants to promote the natural symbiosis that occurs within plant communities Native plants also play an important role in creating fire resistant landscapes and this new book has cutting edge information on this crucial topic refuting the myth that natives are more fire prone than nonnatives With its unique combination of proven techniques environmental wisdom and inspiring design advice this is an essential resource for all California gardeners who want to create a beautiful ecologically appropriate and resource conserving home landscape **The Works of Hubert Howe Bancroft: The native races** Hubert Howe Bancroft,1883 *UNIVERSITY OF CALIFORNIA PUBLICATIONS IN AMERICAN ARCHEOLOGY AND ETHNOLOGY* ,1908 **The Works of Hubert Howe Bancroft.
