Tibbetts,2015-09-15 What was it like to work behind the scenes away from the spotlight s glare in Hollywood s so called Golden Age The interviews in this book provide eye witness accounts from the likes of Steven Spielberg and Terry Gilliam to explore the creative decisions that have shaped some of Classical Hollywood s most loved films **Napoleon's Hemorrhoids** Phil Mason,2009-10-01 Hilarious fascinating and a roller coaster of dizzying historical what ifs *Napoleon s Hemorrhoids* is a potpourri for serious historians and casual history buffs In one of Phil Mason s many revelations you ll learn that Communist jets were two minutes away from opening fire on American planes during the Cuban missile crisis when they had to turn back as they were running out of fuel You ll discover that before the Battle of Waterloo Napoleon s painful hemorrhoids prevented him from mounting his horse to survey the battlefield You ll learn that an irate blacksmith threw his hammer at a fox and missed hitting a rock and revealing the largest vein of silver ever discovered thus changing the finances of Canada forever Interestingly Charlton Heston was cast as Moses in *The Ten Commandments* because his broken nose made him look like Michelangelo s famous sculpture of Moses Finally no one knows Einstein s last words They were in German a language his nurse did not speak A treasure trove filled with fascinating anecdotes about the tiny ripples that created big waves in history *Napoleon s Hemorrhoids* is much more than just a trivial fact book it is an astonishing historical fate book revealing how our most famous incidents best loved works of art and most accepted historical outcomes are simply twists of fate The Living Age ,1928 The 20th Century A-GI Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that

provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Art and the Historical Film Gillian McIver, 2022-11-17. *Art and the Historical Film* provides an important examination of fine art's impact on filmmaking, grappling with the question of authenticity. From Eugene Delacroix's interpretation of the 1830 French revolution to Uli Edel's version of the Baader Meinhof Gang, artistic representations of historical subjects are appealing and pervasive. Movies often adapt imagery from art history, including paintings of historical events. Films and art shape the past for us and continue to affect our interpretation of history. While historical films are often argued over for their adherence to the facts, their real problem is realism: how can the past be convincingly depicted? Realism in the historical film genre is often nourished and given credibility by its use of painterly references. This book examines how art historical images affect historical films by going beyond period detail and surface design to look at how profound ideas about history are communicated through pictures.

Art and the Historical Film: Between Realism and the Sublime is based on case studies that explore the links between art and cinema, including American independent Western *Meek's Cutoff* (Kelly Reichardt, 2010), British heritage film *Belle* (Amma Asante, 2013), and Dutch national epic *Admiral Roel Rein* (2014). The chapters create immersive worlds that communicate distinct ideas about the past through cinematography, production design, and direction, as the films adapt, reference, and transpose paintings by artists such as Rubens, Albert Bierstadt, and Jacques-Louis David.

American Film in the Digital Age Robert C. Sickels, 2010-12-08. This eclectic yet comprehensive analytical overview of the cataclysmic changes in the American film industry since 1990 shows how they have collectively resulted in a new era: The Digital Age. The American film industry has entered a new era. *American Film in the Digital Age* traces the industrial changes since 1990 that have brought us to this point, namely the rise of media conglomerates, the proliferation of pornography through peripheral avenues of mainstream media, the role of star actors and directors in distributing and publicizing their own pet projects, the development of digital technology, and the death of truly independent films. Author Robert Sickels draws straight lines from the movies to music, DVDs, video games, fast food, digital on demand, and more to demonstrate how all forms of media are merging into one. He explores the irony that the success of independent films essentially killed independent cinema, showing how it has become almost impossible to get a film released without the imprimatur of one of the big six media companies: Fox, Viacom, TimeWarner, Disney, General Electric, or CBS. In the end, using recent popular films as examples, he explains not only how we got where we are but where we're likely headed as well.

The Historical Film Marcia Landy, 2001-01-01. This aims to show how media critics and historians have written about history as portrayed in cinema and television by historical films and documentaries, focusing on what it means to read films historically and the colonial experience as shown in post-colonial film.

Thinking Revolution Through Film Hanno Berger,2022-09-20 This book aims to redefine the relationship between film and revolution Starting with Hannah Arendt s thoughts on the American and French Revolution it argues that from a theoretical perspective revolutions can be understood as describing a relationship between time and movement and that ultimately the spectators and not the actors in a revolution decide its outcome Focusing on the concepts of time movement and spectators this study develops an understanding of film not as a medium of agitation but as a way of thinking that relates to the idea of historicity that opened up with the American and French Revolution a way of thinking that can expand our very notion of revolution The book explores this expansion through an analysis of three audiovisual stagings of revolution Abel Gance s epic on the French Revolution Napol on Warren Beatty s essay on the Russian Revolution Reds and the miniseries John Adams about the American Revolution The author thereby offers a fresh take on the questions of revolution and historicity from the perspective of film studies **George Arliss** Robert M.
