Excerpt from Napoleon's Last Campaign in Germany 1813 In the campaign of 1813 described in the present volume it is only at times that the flame of his genius burns with its old vigour Time after time he seems to lose sight of the real objective and to hanker after secondary objectives and the occupation of mere geographical points the attainment of which would inevitably have followed on success in the true objective the decisive defeat of the enemy's main army About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Campaign in Germany, 1813-The Beginning of the End of the Napoleonic Era F. Loraine Petre, 2011-03 The War of the Sixth Coalition There are of course many histories available on the Napoleonic era but the first distinction offered by this one must be the widely acknowledged regard with which its author F Loraine Petre is still held Petre wrote several histories of the period and all are recognised as scholarship of the highest order and his contribution to the subject has rarely been surpassed in the years since their original publication Napoleon s German campaign was decisive for the aspirations of the Emperor France and the imperial allies that were resolved to bring him to ruin All his hubris had brought about his greatest defeat as a consequence of the debacle that was the invasion of Russia and the retreat from Moscow Most significantly the avenging Russian army in concert with its finest ally the bitter winter had deprived Napoleon by the usages of war disease and lethal cold of virtually all the resources he had employed in his venture a massive Grand Armee that could not be readily replaced for employment in future enterprises Now with only a gallant army of 200 000 men he had to fight against the odds in a contest which would prove too much for even his legendary personal military talents and further demonstrate the weaknesses of his lieutenants when in independent command A series of battles would be fought in Germany at Saale Lutzen Bautzen Dresden Dennewitz and finally at Leipzig and Hanau where defeat would propel the French into a retreat which would set them on the road back to the Paris and abdication of the Emperor These are the battles of the beginning of the end of the First Empire of the French recounted by one of its finest historians Essential for every student of the period Available in soft cover and hard cover

direction for he had only recently seen it at a time 1 Map IV when the Elbe was in very high flood He believed it to be almost impregnable At 7 A M on the 3rd October Prince Charles of Mecklenburg passed the Prussian bridges with three battalions of Yorck s
