Security: Counter-Terrorism Lessons from Maritime Piracy and Narcotics Interdiction** E.R. Lucas,S. Rivera-Paez,T.  
Crosbie,2020-08-04 It can be easy to forget the critical role that maritime transport plays in the global economy but  
international maritime transportation is still responsible for around 90% of global trade Protecting the maritime  
infrastructure essential for this trade from terrorism is a major concern for the international community This book originates  
from the NATO Advanced Research Workshop ARW Counter Terrorism Lessons from Maritime Piracy and Narcotics  
Interdiction held in Copenhagen Denmark in May 2019 Participants in the three day workshop included policymakers senior  
military officers and academics from NATO member states international organizations and two partner nations Colombia and  
Israel Their extensive discussions focused on methods for protecting critical maritime infrastructure such as ports supplies  
and personnel from seaborne terrorist attacks Presentations and roundtables also addressed the human and social factors  
that contribute to the defense against terrorism in the maritime domain The book is divided into three sections organized  
crime and narcotrafficking maritime piracy and terrorism and aims to bridge the gaps between these three substantive areas  
of maritime security research These have remained largely separate areas of research in the past with the result that  
valuable maritime security lessons from counter piracy and counter narcotics operations have not been fully incorporated  
into counter terrorism best practice The book facilitates the transmission of lessons learned from counter piracy and counter  
narcotic operations to formulate recommendations for best practice and technological innovations to manage maritime  
terrorism and will be of interest to all those working in the field      Federal Drug Abuse and Drug Dependence Prevention,
