Exciting the Body Sonsoles Hernández Barbosa, 2025-01-23 This book uncovers how during the origins of modernity in the nineteenth century the senses were mobilised to sell more both through the popularisation of objects aimed at the senses such as panoramas optical boxes automatons music boxes and

pianolas and also through marketing mechanisms for example advertising and window dressing All these novel objects and spaces had one thing in common the aim of attracting the public by stimulating the senses By examining practices that mobilised the senses in the emerging fields of advertising marketing and the leisure industry and through an approach that involves elements from the history of the senses visual studies sound studies and aesthetics this book explores what this new sensory driven mass culture was all about The basis of English translation of this book originally in Spanish *Vidas excitadas Sensorialidad y capitalismo en la cultura moderna* 2022 was facilitated by artificial intelligence The author with the support of Lucille Banham has subsequently revised the text further in an endeavour to refine the work stylistically

Tedio y narración Inma Aljaro, 2024-01-25 Este libro defiende el uso del tedio como artificio literario y esboza una estética del aburrimiento a partir de las divagaciones de Leopold Bloom de la banalidad de la señora Dalloway o de la incertidumbre de Molly como de la espera en El desierto de los tataros mientras avanzamos viscosamente en La cínica definitiva o nos enredamos en el discurso de los personajes de Thomas Bernhard entre otros Para corroborar como ya aseguraba Barthes que el placer del texto no tiene por qué ser siempre triunfante o heroico sino que hay mucho que descubrir más allá del posible bostezo

Narrative as Virtual Reality 2 Marie-Laure Ryan, 2015-12-01 Rethinking textuality mimesis and the cognitive processing of texts in light of new modes of artistic world construction Winner of the Aldo and Jeanne Scaglione Prize for Comparative Literary Studies from the Modern Language Association of America Is there a significant difference between engagement with a game and engagement with a movie or novel Can interactivity contribute to immersion or is there a trade off between the immersive world aspect of texts and their interactive game dimension As Marie Laure Ryan demonstrates in Narrative as Virtual Reality 2 the questions raised by the new interactive technologies have their precursors and echoes in pre electronic literary and artistic traditions Approaching the idea of virtual reality as a metaphor for total art Ryan applies the concepts of immersion and interactivity to develop a phenomenology of narrative experience that encompasses reading

watching and playing The book weighs traditional literary narratives against the new textual genres made possible by the electronic revolution of the past thirty years including hypertext electronic poetry interactive drama digital installation art computer games and multi user online worlds like Second Life and World of Warcraft In this completely revised edition Ryan reflects on the developments that have taken place over the past fifteen years in terms of both theory and practice and focuses on the increase of narrativity in video games and its corresponding loss in experimental digital literature Following the cognitive approaches that have rehabilitated immersion as the product of fundamental processes of world construction and mental simulation she details the many forms that interactivity has taken or hopes to take in digital texts from determining the presentation of signs to affecting the level of story

Calvo-González, 2020-03-02 Considerar que las identificaciones fáctico jurídicas se encuentran prefiguradas por el propio marco de información fáctual que las reglas del proceso instruyen simplifica la complejidad del problema de los hechos mas no lo resuelve Para su comprensión no basta con comprimirlos mediante subsunción simple o doble ponderación en figuras jurídicas Es necesario recurrir además a la teoría de la norma y la teoría de la prueba Pero para delimitar el perimetro de incertidumbre normativa así como para conocer qué y cómo probar un hecho antes se debe elaborar una reconstrucción en historia capaz de mostrar los hechos en acción y no sólo la acción de estos Temas como el control narrativo de la coherencia de la cuestión fáctica el artificio y las condiciones narrativas en que los hechos se construyen procesalmente estándares de discursividad narrativa en las retóricas partidarias y retóricas de la imparcialidad desenvueltas por los protagonistas procesales el compromiso del proceso con la verdad de los hechos son parte del contenido que esta edición hace visible bajo el título de Proceso y Narración Teoría y práctica del narrativismo jurídico
