Narrating Unemployment:

Narrating Unemployment Douglas Ezzy, 2017-07-05 Drawing on the emerging field of narrative theory in sociology and psychology this book analyzes how people respond to unemployment and job loss and explores the consequences for self esteem and identity It argues that an individual s response to job loss is a product of the shape of the story they tell about their experience and that this in turn is a product of both individual creativity and the structuring effects of their social location

Race, Identity and Work Ethel L. Mickey, Adia Harvey Wingfield, 2018-10-29 This volume examines the connections between race and work focusing how racial minorities deal with identity in the workplace how workers of color encounter exclusion marginalization and sidelining and strategies minority workers use to combat and change patterns of workplace inequality

American Idle Annette Nierobisz, Dana Sawchuk, Dana Sawchuck, Annette Marie Nierobisz, 2025-05-13 In *American Idle* sociologists Annette Nierobisz and Dana Sawchuk report their findings from interviews with sixty two mostly white collar workers who experienced late career job loss in the wake of the Great Recession Without the benefits of planned retirement or time horizons favorable to recouping their losses these employees experience an array of outcomes from hard falls to soft landings Notably the authors find that when reflecting on the effects of job loss fruitless job searches and the overall experience of unemployment participants regularly called on the frameworks instilled by neoliberalism Invoking neoliberal rhetoric these older Americans deferred to businesses need to prioritize bottom lines accepted the shift toward precarious employment or highlighted the importance of taking initiative and maintaining a positive mindset in the face of structural obstacles Even so participants also recognized the incompatibility between neoliberalism s one size fits all solutions and their own situations this disconnect led them to consider their experiences through competing frameworks and to voice resistance to aspects of neoliberal capitalism Employing a life course sociology perspective to explore older workers precarity in an age of rising economic insecurity Nierobisz and Sawchuk shed light on a new wrinkle in American aging

Untold Stories in Organizations Michal Izak, Linda Hitchin, David Anderson, 2014-11-13 The field of organizational storytelling research is productive vibrant and diverse Over three decades we have come to understand how organizations are not only full of stories but also how stories are actively making sustaining and changing organizations This edited collection contributes to this body of work by paying specific attention to stories that are neglected edited out unintentionally omitted or deliberately left silent Despite the fact that such stories are not voiced they have a role to play in organizational analysis The chapters in this volume variously explore how certain realities become excluded or

silenced The stories that remain below the audible range in organizations offer researchers an access to study political practices which marginalise certain organisational realities whilst promoting others This volume offers a further contribution by paying heed to silence and the processes of silencing These silences influence the choice of issues on organisational agendas the choice of audience s to which these discourses are addressed and the ways of addressing them In exploring these relatively understudied terrains *Untold Stories in Organizations* comprises an important contribution to the organizational storytelling space opening paths for new trajectories in storytelling research *Organizational Behaviour and Work* Fiona M. Wilson, 2013-12 This edition provides a critical approach to the study of work and organizational behaviour questioning what organizational behaviour is and how it has been researched and discussed *Job Loss, Identity, and Mental Health* Dawn R. Norris, 2016-06-13 Our jobs are often a big part of our identities and when we are fired we can feel confused hurt and powerless at sea in terms of who we are Drawing on extensive real life interviews *Job Loss Identity and Mental Health* shines a light on the experiences of unemployed middle class professional men and women showing how job loss can affect both identity and mental health Sociologist Dawn R Norris uses in depth interviews to offer insight into the experience of losing a job what it means for daily life how the unemployed feel about it and the process they go through as they try to deal with job loss and their new identities as unemployed people Norris highlights several specific challenges to identity that can occur For instance the way other people interact with the unemployed either helps them feel sure about who they are or leads them to question their identities Another identity threat happens when the unemployed no longer feel they are the same person they used to be Norris also examines the importance of the subjective meaning people give to statuses along with the strong influence of society s expectations For example men in Norris s study often used the stereotype of the male breadwinner to define who they were *Job Loss Identity and Mental Health* describes various strategies to cope with identity loss including shifting away from a work related identity and instead emphasizing a nonwork identity such as a parent or conversely sustaining a work related identity even though he or she is actually unemployed Finally Norris explores the social factors often out of the control of unemployed people that make these strategies possible or impossible A compelling portrait of a little studied aspect of the Great Recession *Job Loss Identity and Mental Health* is filled with insight into the identity crises that unemployment can trigger as well as strategies to help the unemployed maintain their mental strength *Greek Employment Relations in Crisis* Horen Voskeritsian, Panos Kapotas, Christina Niforou, 2019-03-14 Greece s economy and society have undergone important structural changes in recent years as a result of the financial crisis and consequent austerity policies that have been implemented The Greek labour market and employment relations system have been subject to immense pressures leading to fundamental changes both in the structure of institutions and in the behaviour of the main employment relations actors The present volume constitutes a first attempt to appreciate the consequences of a decade of austerity politics on the Greek labour market Offering a multidisciplinary perspective and building on original

research by leading Greek scholars in the fields of labour economics employment relations and the sociology of work it will discuss the impact of the crisis and the resulting policies on the Greek labour market and employment relations This volume will be of interest to policy makers researchers and students interested in the past present and future of Greek employment relations and the impact of austerity on Greece **Narrating Poverty and Precarity in Britain** Barbara Korte,Frédéric Regard,2014-10-15 Poverty and precarity have gained a new societal and political presence in the twenty first century s advanced economies This is reflected in cultural production which this book discusses for a wide range of media and genres from the novel to reality television With a focus on Britain its chapters divide their attention between current representations of poverty and important earlier narratives that have retained significant relevance today The book s contributions discuss the representation of social suffering with attention to agencies of enunciation ethical implications of voice and listening limits of narratability the pitfalls of sensationalism voyeurism and sentimentalism potentials and restrictions inherent in specific representational techniques modes and genres cultural markets for poverty and precarity Overall the book suggests that analysis of poverty narratives requires an intersection of theoretical reflection and a close reading of texts
