Narrative Intellection In The Decameron:

Narrative Intellection in the Decameron Stavros Deligiorgis, 1975 *A Rhetoric of the Decameron* Marilyn Migiel, 2003-01-01 Addressing herself equally to those who argue for proto feminist Boccaccio a quasi liberal champion of women's autonomy and to those who argue for a positivistically secure historical Boccaccio who could not possibly anticipate the concerns of the twenty first century Migiel challenges readers to pay attention to Boccaccio's language to his pronouns his passives his patterns of repetition and his figurative language She argues that human experience particularly in the sexual realm is articulated differently by the Decameron's male and female narrators and refutes the notion that the Decameron offers an undifferentiated celebration of Eros Ultimately Migiel contends the stories of the Decameron suggest that as women become more empowered the limitations on them including the threat of violence become more insistent

Medieval Foundations of the Western Intellectual Tradition, 400-1400 Marcia L. Colish, 1997-01-01 This magisterial book is an analysis of the course of Western intellectual history between A.D. 400 and 1400 The book is arranged in two parts the first surveys the comparative modes of thought and varying success of Byzantine Latin Christian and Muslim cultures and the second takes the reader from the eleventh century revival of learning to the high Middle Ages and beyond the period in which the vibrancy of Western intellectual culture enabled it to stamp its imprint well beyond the frontiers of Christendom Marcia Colish argues that the foundations of the Western intellectual tradition were laid in the Middle Ages and not as is commonly held in the Judeo-Christian or classical periods She contends that Western medieval thinkers produced a set of tolerances tastes concerns and sensibilities that made the Middle Ages unlike other chapters of the Western intellectual experience She provides astute descriptions of the vernacular and oral culture of each country of Europe explores the nature of medieval culture and its transmission profiles seminal thinkers Augustine Anselm Gregory the Great Aquinas Ockham studies heresy from Manichaeism to Huss and Wycliffe and investigates the influence of Arab and Jewish writing on scholasticism and the resurrection of Greek studies Colish concludes with an assessment of the modes of medieval thought that ended with the period and those that remained as bases for later ages of European intellectual history **The Journal of Medieval and Renaissance Studies**, 1995 *Italica*, 1975 *Religious and Intellectual Diversity in the Islamicate World and Beyond Volume II*, 2024-04-08 Religious and Intellectual Diversity in the Islamicate World and Beyond is a collection of essays in honor of Sarah Stroumsa an eminent scholar who through the years has embodied and advanced the possibility of collaboration across borders The volume is presented to her by scholars working on the study of the intellectual

Reading Chaucer in Time Kara Gaston, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Reading for form can mean reading for formation Understanding processes through which a text was created can help us in characterizing its form But what is involved in bringing a diachronic process to bear upon a synchronic work When does literary formation begin and end When does form happen These questions emerge with urgency in the interactions between English poet Geoffrey Chaucer and Italian trecento authors Dante Alighieri Giovanni Boccaccio and Francis Petrarch In fourteenth century Italy new ways were emerging of configuring the relation between author and reader Previously medieval reading was often oriented around the significance of the text to the individual reader In Italy however reading was beginning to be understood as a way of getting back to a work s initial formation This book tracks how concepts of reading developed within Italian texts including Dante s Vita nova Boccaccio s Filostrato and Teseida and Petrarch s Seniles impress themselves upon Chaucer s Troilus and Criseyde and Canterbury Tales It argues that Chaucer s poetry reveals the implications of reading for formation above all that it both depends upon and effaces the historical perspective and temporal experience of the individual reader Problems raised within Chaucer s poetry thus inform this book s broader methodological argument that there is no one moment at which the formation of Chaucer s poetry ends rather its form emerges in and through process of reading within time
