travels Townsend honed his observational skills as a naturalist he became famous for collecting and cataloguing numerous new animals particularly exotic birds native to North America Beginning his trek in the city of St Louis and bidding farewell to the last of the human comforts of urban life Townsend immediately sets to telling of life going west He sets a descriptive tone telling the reader about the Native American tribes their customs and dress and the many creatures large and small he would spot along his route This narrative is valuable for offering a glimpse of the Western frontier as it was long ago individuals who would otherwise be forgotten and lost to time are described and given life by Townsend The priests merchants trappers and Native Americans he encounters are brought to life and together they imbue this travelogue with a unique historical richness
