Narrative Skepticism Moral Agency And Representations Of Consciousness In Fiction:

Narrative Skepticism Linda Schermer Raphael, 2001 Using narrative philosophical and psychoanalytic theory Linda S Raphael investigates the development of skepticism in narrative She argues that as authors explore more deeply the inner life of characters their narratives become more skeptical about pinning down what it means to lead a good life This argument is buttressed through a close examination of Jane Austen's *Persuasion* George Eliot's *Middlemarch* Henry James's *The Wings of the Dove* Virginia Woolf's *Mrs Dalloway* and Kazuo Ishiguro's *The Remains of the Day* **Literary Modernism, Queer**

Temporality Kate Haffey, 2019-04-24 This book explores the intersection between the recent work on queer temporality and the experiments of literary modernism Kate Haffey argues that queer theory's recent work on time owes a debt to modernist authors who developed new ways of representing temporality in their texts By reading a series of early twentieth century literary texts from modernists like Woolf Eliot Faulkner and Stein alongside contemporary authors this book examines the way in which modernist writers challenged narrative conventions of time in ways that both illuminate and foreshadow current scholarship on queer temporality In her analyses of contemporary novelists and critics Michael Cunningham Jeanette Winterson Angela Carter and Eve Sedgwick Haffey also shows that these modernist temporalities have been reconfigured by contemporary authors to develop new approaches to futurity **Living to Tell about it** James Phelan, 2005 Phelan's compelling readings cover important theoretical ground by introducing a valuable distinction between disclosure functions and narrator functions *Kazuo Ishiguro* Wai-chew Sim, 2009-10-16 Kazuo Ishiguro's writing has rapidly gained global recognition since his first publication in 1981 This guidebook offers a biographical survey of Ishiguro's literary career an introduction to his novels plays and short stories as well as an accessible overview of the contexts and many interpretations of his work Part of the Routledge Guides to Literature series this volume cross references thoroughly between sections and presents useful suggestions for further reading **Ethics in Culture** Astrid Erll, Herbert Grabes, Ansgar Nünning, 2008-08-27 Alongside the recent cultural turn in the humanities there has been a noticeable return to ethical considerations With regard to literature as well as other media this has rekindled awareness of a tension antagonism or even disparity between ethics and aesthetics This volume of articles takes a more systematic and cross disciplinary approach to the widely mooted ethical turn in literature and other media than has been pursued so far It brings together a wide range of critical perspectives from literary studies media and cultural memory studies and philosophy tracing the complex and sometimes conflicting relationship between ethics and aesthetics in theoretical contexts and individual case studies as diverse as colonial architecture nineteenth century literary histories and postmodern writing and art **Pain and Emotion in Modern History** Robert Gregory Boddice, 2014-07-01 Drawing on the expertise of historical literary and philosophical scholarship practicing physicians and the medical humanities this is a true interdisciplinary collaboration styled as a history It explores pain at the intersection of the living suffering body and the discursive cultural webs that entangle it in its specific

moment **Women's Vision in Western Literature** Laurence M. Porter, 2005-02-28 From ancient Greece through the present day women writers have confronted the male urge to make war by imagining communities in which intuitive bonding among individuals questions and replaces masculinist values of aggression and competition Women's Vision in Western Literature traces the gender gap in literature from 600 B C to the present day through an examination of seven extraordinary women writers from Sappho to Christa Wolf Combining close readings with a comprehensive overview of the careers of these women Porter shows how the threat the experience and the aftermath of war incites them to imagine tolerant empathic communities This careful consideration of these seven great writers brings to light an underappreciated aspect of Western women's writing Starting with Sappho Porter illustrates this ancient poet's ability to rewrite the Homeric war rhetoric to reflect a non possessive love experience Marie de France arranges traditional animal fables to imply an open ended situation ethics according to the author and Madame de Staël in a Europe torn by Napoleonic conquests advocates cross cultural unions among countries In the works of Mary Shelley we see the warnings of the dangers of vainglorious soulless technology and Virginia Woolf depicts intuitive bonding beyond gender stereotypes amid the ruins of war and crumbling empire He shows how Marguerite Yourcenar dreams of a new era of world peace after Hitler's defeat and how Christa Wolf tries to cope with her country's Nazi past even as she reaffirms European identity threatened by annihilations in nuclear conflict

Midrash & Medicine William Cutter, 2011-03-25 Midrash provides a revolutionary guide through the most difficult passages of our life stories This groundbreaking volume examines the spiritual shortfalls of our current healing environment and explores how midrash can help you see beyond the physical aspects of healing to tune in to your spiritual source Pushing the boundaries of Jewish knowledge physicians rabbis social workers psychologists and philosophers investigate the role of midrashic thinking in addressing seemingly intractable social and personal issues Topics discussed include How metaphors and parables can aid healing How Jewish tradition can inform and enrich health hospice and nursing home care New ways of reading Jewish texts in the discussion of medical ethics The role of community in addressing aging loss and suffering Art and Artifact in Austen Anna Battigelli, 2020-03-11 Jane Austen distinguished herself with genius in literature but she was immersed in all of the arts Austen loved dancing played the piano proficiently meticulously transcribed piano scores attended concerts and art exhibits read broadly wrote poems sat for portraits by her sister Cassandra and performed in theatricals For her art functioned as a social bond solidifying her engagement with community and offering order And yet Austen's hold on readers' imaginations owes a debt to the omnipresent threat of disorder that often stems ironically from her characters' socially disruptive artistic sensibilities and skill Drawing from a wealth of recent historicist and materialist Austen scholarship this timely work explores Austen's ironic use of art and artifact to probe selfhood alienation isolation and community in ways that defy simple labels and acknowledge the complexity of Austen's thought **Christianity and**
