Narrative Violence And The Law The Essays Of Robert Cover:

Narrative, Violence, and the Law Robert M. Cover,1992 Essential writings of the leading scholar of law and violence

Preface to Narrative, Violence, and the Law Aviam Soifer,2010 It was wonderful to learn with Robert Cover Yet Bob Cover did not stand out as a teacher in the classic scene He was hardly a dazzling orator he did not adopt the entertainer s role for his audience nor did his classroom zing with the tension of the so called Socratic method done well His classes and even his style on the lecture platform mirrored his probing open minded everyday conversations In those conversations Bob Cover turned everyone family children law students friends workers and other scholars into his fellow students The Canon of American Legal Thought David Kennedy,William W. Fisher III,2018-06-05 This anthology presents for the first time full texts of the twenty most important works of American legal thought since 1890 Drawing on a course the editors teach at Harvard Law School the book traces the rise and evolution of a distinctly American form of legal reasoning These are the articles that have made these authors from Oliver Wendell Holmes Jr to Ronald Coase from Ronald Dworkin to Catherine MacKinnon among the most recognized names in American legal history These authors proposed answers to the classic question What does it mean to think like a lawyer an American lawyer Their answers differed but taken together they form a powerful brief for the existence of a distinct and powerful style of reasoning and of rulership The legal mind is as often critical as constructive however and these texts form a canon of critical thinking a toolbox for resisting and unravelling the arguments of the best legal minds Each article is preceded by a short introduction highlighting the article s main ideas and situating it in the context of its author s broader intellectual projects the scholarly debates of his or her time and the reception the article received Law students and their teachers will benefit from seeing these classic writings in full in the context of their original development For lawyers the collection will take them back to their best days in law school All readers will be struck by the richness the subtlety and the sophistication with which so many of what have become the clichés of everyday legal argument were originally formulated *The Legacy of Hans Jonas* Hava Tirosh-Samuelson,Christian Wiese,2008-06-25 An international interdisciplinary and interreligious retrospective examination of Hans Jonas 1903 1993 that engages his ideas in light of Existentialism utopian thought process philosophy and theology Zionism and environmentalism **Doing Justice to History** Barrie Sander,2021-03-09 As communities struggle to make sense of mass atrocities expectations have increasingly been placed on international criminal courts to render authoritative historical accounts of episodes of mass violence Taking these expectations as its point of departure this book seeks to understand international criminal courts through the prism of their historical function The book critically examines how such courts confront the past by constructing historical narratives concerning both the culpability of the accused on trial and the broader mass atrocity contexts in which they are alleged to have participated The book argues that international criminal courts are host to struggles for historical justice discursive contests between different actors vying for judicial acknowledgement of

their interpretations of the past By examining these struggles within different institutional settings the book uncovers the legitimating qualities of international criminal judgments In particular it illuminates what tends to be foregrounded and included within as well as marginalised and excluded from the narratives of international criminal courts in practice What emerges from this account is a sense of the significance of thinking about the emancipatory limits and possibilities of international criminal courts in terms of the historical narratives that are constructed and contested within and beyond the courtroom

Lethal Force, the Right to Life and the ECHR Stephen Skinner, 2019-08-22 In its case law on the use of lethal and potentially lethal force the European Court of Human Rights declares a fundamental connection between the right to life in Article 2 of the European Convention on Human Rights and democratic society This book discusses how that connection can be understood by using narrative theory to explore Article 2 law's specificities and its deeper historical social and political significance Focusing on the domestic policing and law enforcement context the book draws on an extensive analysis of case law from 1995 to 2017 It shows how the connection with democratic society in Article 2's substantive and procedural dimensions underlines the right to life's problematic duality as an expression of a basic value demanding a high level of protection and a contextually limited provision allowing states leeway in the use of force Emphasising the need to identify clear standards in the interpretation and application of the right to life the book argues that Article 2 law's narrative dimensions bring to light its core purposes and values These are to extract meaning from pain and death ground democratic society's foundational distinction between acceptable force and unacceptable violence and indicate democratic society's essential attributes as a restrained responsible and reflective system

A Cultural History of Law in Antiquity Julen Etxabe, 2021-03-11 How should we talk about the law in a period so remote from our own and covering such a huge span of time and space From the Code of Hammurabi ca 1750 BCE to Justinian's Corpus Iuris Civilis 529-534 CE *A Cultural History of Law in Antiquity* draws upon legal texts and non-textual forms such as vase painting sculpture and architecture to uncover the diverse and rich legal traditions of societies ranging from the Ancient Near Eastern cities of Assyria and Babylon in Mesopotamia to the Ancient Israelites and from Ancient Greece to Rome of the

Kelly, 1996 A rare glimpse at the real life workings of five legal organizations and how they are daily redefining the contemporary law of lawyering

punishment of children William Lyons and Julie Drew analyze the connections between state sanctions against our schools the diversion of funding to charter schools imposition of unfunded mandates and enforcement of dubious forms of teacher accountability and the schools own infliction of punitive measures on their students a vicious cycle that creates fear and encourages the development of passive and dependent citizens Public schools in the United States are no longer viewed as a public good On the contrary they are increasingly modeled after prisons and students similarly have come to mirror the suspicions and fears attributed to prisoners Punishing Schools is one of the most insightful thoughtful and liberating books I have read on what it means to understand critically engage and transform the present status and state of schools from objects of fear and disdain to institutions that value young people teachers and administrators as part of a broader vision of social justice freedom and equality William Lyons and Julie Drew have done their homework and provide all the necessary elements for understanding and defending schools as public spheres that are foundational to a democracy This book should be required reading for every student teacher parent and concerned citizen in the United States In the end this book is not just about saving schools it is also about saving democracy and offering young people a future that matters Henry Giroux McMaster University This is an important book a distinctive contribution The authors move back and forth convincingly between the micropolitics of school discipline and the politics writ large of the liberal left and the utopian right The result is an expansive idealistic and well grounded book in the spirit of the very best of social control literature Stuart Scheingold Professor Emeritus Political Science University of Washington William Lyons is Director of Center for Conflict Management and Associate Professor of Political Science University of Akron Julie Drew is Associate Professor of English University of Akron

div **Coherent Judaism** Shai Cherry,2021-06-29 Coherent Judaism begins by excavating the theologies within the Torah and tracing their careers through the Jewish Enlightenment of the eighteenth century Any compelling contemporary Judaism must cohere as much as possible with traditional Judaism and everything else we believe to be true about our world The challenge is that over the past two centuries our understandings of both the Torah and nature have radically changed Nevertheless much Jewish wisdom can be translated into a contemporary idiom that both coheres with all that we believe and enriches our lives as individuals and within our communities Coherent Judaism explains why pre modern Judaism opted to privilege consensus around Jewish behavior halakhah over belief The stresses of modernity have conspired to reveal the incoherence of that traditional approach In our post Darwinian and post Holocaust world theology must be able to withstand the challenges of science and history Traditional Jewish theologies have the resources to meet those challenges Coherent Judaism concludes by presenting a philosophy of halakhah that is faithful to the covenantal aspiration to live long on the land that the Lord our God has given us **Murder Stories** Paul Kaplan,2012-01-16 Murder Stories engages with the current theoretical debate in death penalty research on the role of cultural commitments to American ideologies in the retention of capital punishment The central aim of the study is to illuminate the elusive yet powerful role of ideology in legal discourses Through analyzing the content and processes of death penalty narratives this research illuminates the covert life of the American Creed a nexus of ideologies liberty egalitarianism individualism populism and laissez faire said to be unique to the United States in the law Murder Stories draws on the entire record of California death sentence resulting trials from three large and diverse California counties for the years 1996 2004 as well as interviews with 26 capital caseworkers attorneys judges and investigators from the same counties Employing the theoretical framework proposed by Ewick and Silbey 1995 to study hegemonic and subversive narratives and also the ethnographic approach advocated by Amsterdam and Hertz 1992 to study the producers and processes of constructing legal narratives this book traces the ideological content carried within the stories told by everyday practitioners of capital punishment by investigating the content process and ideological implications of these narratives The central theoretical finding is that the narratives constructed by both prosecutors and defenders tend to instantiate rather than subvert the ideological tenets of the American Creed **Comparative Dispute Resolution** Maria F. Moscati,Michael Palmer,Marian Roberts,2020-12-25 Comparative Dispute Resolution offers an original wide ranging and invaluable corpus of chapters on dispute resolution Enriched by a broad comparative vision and a focus on the processes used to handle disputes this study adds significantly to the discourse around comparative legal studies Chapters present new understandings of theoretical comparative and transnational dimensions of the manner in which societies and their legal systems respond to difficulties in social relations ***Imagining the Other and Constructing Israelite Identity in the Early Second Temple Period*** Ehud Ben Zvi,Diana Vikander Edelman,2015-01-29 This volume sheds light on how particular constructions of the Other contributed to an ongoing process of defining what Israel or an Israelite was or was supposed to

be in literature taken to be authoritative in the late Persian and Early Hellenistic periods It asks who is an insider and who an outsider Are boundaries permeable Are there different ideas expressed within individual books What about constructions of the partial Other from inside e g women people whose body did not fit social constructions of normalness It includes chapters dealing with theoretical issues and case studies and addresses similar issues from the perspective of groups in the late Second Temple period so as to shed light on processes of continuity and discontinuity on these matters Preliminary forms of five of the contributions were presented in Thessaloniki in 2011 in the research programme Production and Reception of Authoritative Books in the Persian and Hellenistic Period at the Annual Meeting of European Association of Biblical Studies EABS
