Narrative Worlds Gary Ferguson, David LaGuardia, 2005 **Storytelling in Sixteenth-Century France** Emily E. Thompson, 2022-01-14 Storytelling in Sixteenth Century France is an innovative interdisciplinary examination of parallels between the early modern era and the world in which we live today Readers are invited to look to the past to see how then as now people turned to storytelling to integrate and adapt to rapid social change to reinforce or restructure community to sell new ideas and to refashion the past This collection explores different modalities of storytelling in sixteenth century France and emphasizes shared techniques and themes rather than attempting to define narrow kinds of narrative categories Through studies of storytelling in tapestries stone and music as well as distinct genres of historical professional and literary writing addressing both erudite and more common readers the contributors to this collection evoke a society in transition wherein traditional techniques and materials were manipulated to express new realities Published by the University of Delaware Press Distributed worldwide by Rutgers University Press **A Companion to Marguerite de Navarre** Gary Ferguson, Mary B. McKinley, 2013-03-28 Most widely read today as the author of the Heptameron Marguerite de Navarre 1492-1549 was known in her lifetime as a deeply religious mystical poet Sister of the King of France and wife of the King of Navarre her deeds and writings expressed and sought to promote a living faith in Christ based on the gospels and a vision for the renewal and reform of the Church in line with the teachings of French Evangelicals such as Lefevre d'Étaples Guillaume Briçonnet and Gérard Roussel In this volume eleven eminent scholars offer new appreciations of Marguerite's extraordinary life and rich and diverse literary oeuvre including in addition to her short story collection dialogues mirror poems plays songs and an allegorical prison narrative Contributors include along with the editors Philip Ford Isabelle Garnier Jean Marie Le Gall Reinier Leushuis Jan Miernowski Olivier Millet Isabelle Pantin Jonathan A Reid and Cynthia Skenazi **Marguerite de Navarre** Emily Butterworth, 2022 A new exploration of the complexities and resolutions at play in the writings of Marguerite de Navarre offering insights into how her work reflected the turbulence uncertainties and assurances of her historical period Marguerite de Navarre was a Renaissance princess diplomat and mystical poet She is arguably best known for The Heptameron an answer to Boccaccio's Decameron a brilliant and open ended collection of short stories told by a group of men and women stranded in a monastery The stories explore love desire male and female honour individual salvation and the iniquity of Franciscan monks while the discussions between the storytellers enact and embody the tensions ideologies and prejudices underlying the stories Marguerite herself was deeply involved in the debates and conflicts of her time Her work reflects the turbulence uncertainties and assurances of her historical period as the Renaissance reimagined the past and the Reformation re-made the church and represents her original and sometimes provocative position on these questions This book presents The Heptameron and its investigations into gender relations the nature of love and the nature of religious faith in the context of the intellectual religious and political questions of the sixteenth century setting it alongside Marguerite's

other writings her poetry plays and diplomatic letters In chapters on communities religion politics gender relationships desire and literary technique it explores the complexities and resolutions of Marguerite s writing and her world It aims to offer a guide to the critical tradition on Marguerite s work along with new readings of her texts revealing both the historical specificity of her writing and its continuing relevance *Virgilian Identities in the French Renaissance* Phillip John Usher, Isabelle Fernbach, 2012 Virgil s works principally the Bucolics the Georgics and above all the Aeneid were frequently read translated and rewritten by authors of the French Renaissance The contributors to this volume show how readers and writers entered into a dialogue with the texts using them to grapple with such difficult questions as authorial political and communitarian identities It is demonstrated how Virgil s works are more than Ancient models to be imitated They reveal themselves instead to be part of a vibrant moment of exchange central to the definition of literature at the time Back cover

Reeser, Lewis Carl Seifert, 2008 Despite its debt to French thought for theoretical constructs masculinity studies have been dominated by work on English language texts and contexts *Entre Hommes* lays the foundation for French and Francophone masculinity studies in both a cultural and theoretical sense This ground breaking volume considers what is meant by French or Francophone masculinities per se and how these identities have or have not changed over time with essays spanning periods from the Middle Ages to the present An introduction situates the study of masculinity within the work of recent French thinkers and essays examine both key writers and recurring cultural images *Sexuality in the Middle Ages and Early Modern Times* Albrecht Classen, 2008-12-10 Sexuality is one of the most influential factors in human life The responses to and reflections upon the manifestations of sexuality provide fascinating insights into fundamental aspects of medieval and early modern culture This interdisciplinary volume with articles written by social historians literary historians musicologists art historians and historians of religion and mental ity demonstrates how fruitful collaborative efforts can be in the exploration of essential

features of human society Practically every aspect of culture both in the Middle Ages and the early modern age was influenced and determined by sexuality which hardly ever surfaces simply characterized by prurient interests The treatment of sexuality in literature chronicles music art legal documents and in scientific texts illuminates central concerns anxieties tensions needs fears and problems in human society throughout times

Memory and Community in Sixteenth-Century France David P. LaGuardia, Cathy Yandell, 2016-03-03 Memory and Community in Sixteenth Century France engages the question of remembering from a number of different perspectives It examines the formation of communities within diverse cultural religious and geographical contexts especially in relation to the material conditions for producing texts and discourses that were the foundations for collective practices of memory The Wars of Religion in France gave rise to numerous narrative and graphic representations of bodies remembered as icons and signifiers of the religious troubles The multiple sites of these clashes were filled with sound language and diverse kinds of signs mediated by print writing and discourses that recalled past battles and opposed different factions The volume demonstrates that memory and community interacted constantly in sixteenth century France producing conceptual frames that defined the conflicting groups to which individuals belonged and from which they derived their identities The ongoing conflicts of the Wars hence made it necessary for people both to remember certain events and to forget others As such memory was one of the key ideas in a period defined by its continuous reformulations of the present as a forum in which contradictory accounts of the recent past competed with one another for hegemony One of the aims of Memory and Community in Sixteenth Century France is to remedy the lack of scholarship on this important memorial function which was one of the intellectual foundations of the late French Renaissance and its fractured communities

Queer (Re)Readings in the French Renaissance Gary Ferguson, 2016-12-05 Focusing on multiple aspects of Renaissance culture and in particular its preoccupation with the reading and rewriting of classical sources this book examines representations of homosexuality in sixteenth century France Analysing a wide range of texts and topics it presents an assessment of queer theory that is grounded in historical examples including French translations of Boccaccio's Decameron the poetry of Ronsard works in praise of and satirising Henri III and his mignons Montaigne's Essais Brantme's Dames galantes the figures of the androgyne and the hermaphrodite and religious discourses and practices of penance and confession Close comparison with the ancient models on which they drew the elegy and epic the works of Plato Ovid Lucian and others reveals Renaissance writers redeploying an established set of cultural understandings and assumptions at once congruent and at odds with their own society's socio sexual norms Throughout this study emphasis is placed on the coexistence of different models of homosexuality during the Renaissance homosexual desire was simultaneously universal and individual neither of these views excluding the other Insisting equally on points of convergence and difference between Renaissance and modern understandings of homosexuality this book works towards a historicisation of the concept of queerness
