Narrative As Theme Studies In French Fiction:

Narrative as Theme Gerald Prince, 1992-01-01 In literature the very act of narration often constitutes a theme everyone is familiar with narration that interrupts the story that provides an ironic gloss on the action that exposes the narrator that serves to deceive In *Narrative as Theme* Gerald Prince offers the first book length study of the theme of narrative and of the relationship between narrative and truth in fiction In the first part theoretical in nature Prince considers the notion of theme as well as the theme of narrative itself surveys the research that has come out of that notion and isolates starting points for the investigation of narrative as theme Of particular interest to narratologists will be his discussion of the disnarrated all those passages of a text that consider what did not or does not happen but could have He shows how the disnarrated is an important guide to reading the theme of narrative The second part focuses on seven French novels Mme de Lafayette's *La Princesse de Clèves* Voltaire's *Candide* Flaubert's *Madame Bovary* Sartre's *La Nausée* Maupassant's *Bel Ami* Claude Simon's *La Route des Flandres* and Patrick Modiano's *Rue des Boutiques Obscures* Written in first and third person absorbed or not in the act of narration variously concerned with history ethics and psychology these classical modern and postmodern works exemplify basic positions with regard to the truth or value of narrative His *Dictionary of Narratology* published by the University of Nebraska Press in 1987 confirmed Gerald Prince as one of the world's leading narratologists

The Cambridge Companion to the French Novel Timothy Unwin, 1997-10-28 This volume offers a unique and valuable insight into the novel in French over the past two centuries In a series of essays acknowledged experts discuss a variety of topics including nineteenth century realism women and fiction popular fiction experiment and innovation war and the Holocaust the Francophone novel and postmodern fiction They offer a challenging reassessment of major figures while deliberately reading traditional views of literary history against the grain Theoretical discussion is combined with close reading of texts and exploration of context comparison with other genres and other literatures and reference to novels from earlier periods This companionable introduction includes a chronology and guide to further reading From it emerges a strong sense of the vitality and energy of the modern French novel and of the debates surrounding it

Narratology and Classics Irene J. F. de Jong, 2014 *Narratology and the Classics* is the first introduction to narratology that deals with classical narrative in epic historiography biography the ancient novel but also the many narratives inserted in drama or lyric

The Poetics of Genre in the Contemporary Novel Tim Lanzendörfer, 2015-11-19 *The Poetics of Genre in the Contemporary Novel* investigates the role of genre in the contemporary novel taking its departure from the observation that numerous contemporary novelists make use of popular genre influences in what are still widely considered to be literary novels it sketches the uses the work and the value of genre It suggests the value of a critical look at texts genre use for an analysis of the contemporary moment From this it develops a broader perspective suggesting the value of genre criticism and taking into view traditional genres such as the bildungsroman and the metafictional novel as well as the kinds of amalgamated forms which have recently come

to prominence In essays discussing a wide range of authors from Steven Hall to Bret Easton Ellis to Colson Whitehead the contributors to the volume develop their own readings of genre s work and valence in the contemporary novel

Disnarration and the Unmentioned in Fact and Fiction Marina Lambrou,2016-01-14 In this book Marina Lambrou explores the dimension of narrative storytelling described as the disnarrated events that do not happen but which are referred to across three genres of texts personal narratives news stories and fiction literary and film The book begins by asking why such disnarrated narratives are nevertheless considered tellable It moves on to examine the pervasiveness of this phenomenon in news reports about near misses and the shared personal narratives about dangerous experiences where truth is expected to be central their telling It further discusses how disnarration is generated in counterfactual what if scenarios in fiction where characters follow alternative forked paths with fascinating unexpected consequences This engaging work offers original insights to anyone interested in storytelling and will appeal in particular to scholars of language and literature stylistics narratology media film and journalism Dante's Masterplot and Alternative Narratives in the Commedia Nicolò Crisafi,2022 Alongside traditional notions of Dante s trademark plurality of linguistic registers and styles this book argues that his narrative pluralism can and should play a key role in contemporary and future readings of the Commedia

Routledge Encyclopedia of Narrative Theory David Herman,Manfred Jahn,Marie-Laure Ryan,2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource The Return of Thematic Criticism Werner Sollors,1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history

Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists

Framing French Culture Natalie Edwards, Ben McCann, 2015 Throughout this book the concept of framing is used to look at art photography scientific drawings and cinema as visually constituted spatially bounded productions The way these genres relate to that which exists beyond the frame by means of plastic chemically transposed pencil sketched or moving images allows us to decipher the particular language of the visual and at the same time circumscribe the dialectic between presence and absence that is proper to all visual media Yet these kinds of re framing owe their existence to the ruptures and upheavals that marked the demise of certain discursive systems in the past announcing the emergence of others that were in turn overturned
