Narrative Picture Scrolls Hideo Okudaira, 1973 Composition Arthur Wesley Dow, 2023-12-22 First published in 1899 Arthur Wesley Dow's Composition has probably influenced more Americans than any other text to think of visual form and composition in relation to artistic modernity While Dow is known as the mentor of Georgia O Keeffe and Max Weber his legacy as a proponent of modern art has suffered undeserved neglect by recent artists and art historians In Composition Dow develops a system for teaching students to create freely constructed images on the basis of harmonic relations between lines colors and dark and light patterns Greatly influenced by Japanese art he expounds a theory of flat formal equilibrium as an essential component of telling pictorial creation Generations of teachers and their public school pupils learned from Dow's orientalism and adopted basic postimpressionist principles without even knowing the term The reappearance of Dow's practical well illustrated guide enhanced by Joseph Masheck's discussion of its historical ramifications is an important event for all concerned with the visual arts and the intellectual antecedents of American modernism First published in 1899 Arthur Wesley Dow's Composition has probably influenced more Americans than any other text to think of visual form and composition in relation to artistic modernity While Dow is known as the mentor of Georgia O Keeffe and *Explaining Pictures* Ikumi Kaminishi, 2006-01-01 Beginning with the claim that the popularization of Buddhism in the medieval period was a phenomenon of visual culture Explaining Pictures reexamines the history and historiography of medieval Japanese Buddhism With theoretical sophistication and a full appreciation of the power of imagery to convey and control religious meaning it investigates a range of aspects of *etoki* including the particularly active role of itinerant nuns whose performances were especially edifying to female audiences as well as the visual hagiography of the reputed founder of Japanese Buddhism the pictorial projections of Buddhist paradise and hell and the explanation through visual imagery of sacred mountains Explaining Pictures is the first book length study in English devoted to the phenomenon of Buddhist art as religious propaganda and pictorial storytelling as a form of popular culture in medieval Japan A truly interdisciplinary study it suggests fruitful avenues of discussion between art historians and historians of Japanese Buddhism Scholars and students with an interest in Japanese Buddhism art and social and cultural history will find its examination of significant issues fresh and stimulating It will also find an appreciative audience among those concerned with the relationship between art and religion the mechanics of proselytization and Asian visual culture **Art and Palace Politics in Early Modern Japan, 1580s-1680s** Elizabeth Lillehoj, 2011-09-09 Magnificent art and architecture created for the emperor with the financial support of powerful warlords at the beginning of Japan's early modern era 1580s 1680s testify to the continued cultural and ideological significance of the imperial family Works created in this context are discussed in this groundbreaking study with over 100 illustrations in color Tang Transformation Texts Victor H. Mair, 2020-10-26 This is the most comprehensive study of *pien wen* transformation texts i.e. tales of metamorphosis in any language since the manuscripts were discovered at

the beginning of the 20th century in a remote cave complex in northwest China. They are the earliest written vernacular narratives in China and are thus extremely important in the history of Chinese language and literature. Numerous scholarly controversies have surrounded the study of the texts in the last three quarters of a century; this volume seeks to resolve some of them: the extent, origins and formal characteristics of the texts; the meaning of *pien wen*; the identity of the authors who composed these popular narratives and the scribes who copied them; the relationship of the texts to oral performance and the reasons for the apparently sudden demise of the genre around the beginning of the Sung dynasty. This is a multi-disciplinary study that integrates findings from religious, literary, linguistic, sociological and historical materials, carried out with intellectual rigor. It includes an extensive bibliography of relevant sources in many languages.

The Last Tosa Sandy Kita, 1999-01-01. Iwasa Katsumochi Matabei 1578-1650 is one of the most controversial figures in Japanese art history. For more than half a century, historians have argued over Matabei's role in Japanese art: Was he, as he asserted, the Last Tosa, the school of painters who specialized in Yamato-e, a kind of classical courtly painting, or as others characterized him, the Founder of Ukiyo-e, the style of painting associated with the urban commoner class? In this highly original and convincing study, Matabei emerges as both an artist, in whose work can be seen elements of both Yamato-e and Ukiyo-e. Extending its analysis beyond the individual artist, *The Last Tosa* examines the trends and artistic developments of a transitional period and makes heretofore unexamined connections between the world of the aristocrat and the merchant, as well as the two artistic schools that reflected their tastes.

Narrative Picture Scrolls, 1973. Known as *emaki* and sometimes *ekotoba*, these works contain pictures rendered on a handscroll which opens horizontally. In many cases they also contain written explanatory comments, *kotobagaki*, and are designed to be viewed in sequence when unrolled from right to left. The handscroll made its appearance very early in East Asian pictorial art, and Japan's *emaki* are derived from Chinese models. The many *e ingakyo* illustrated sutras of cause and effect produced in Japan in the 8th century reproduced the text of a Buddhist sutra on the laws of causation, the *Kako genzai ingakyo*, with appropriate illustrations and appear to be copies of Chinese originals.

Critical Terms for the Study of Buddhism Donald S. Lopez Jr., 2009-11-15. Over the past century, Buddhism has come to be seen as a world religion exceeding Christianity in longevity and, according to many, philosophical wisdom. Buddhism has also increasingly been described as strongly ethical, devoted to nonviolence and dedicated to bringing an end to human suffering. And because it places such a strong emphasis on rational analysis, Buddhism is considered more compatible with science than the other great religions. As such, Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion. This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions. Each of the fifteen essays here shows students how a fundamental term, from art to word, illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity. Apart from Buddha, the list of terms in this collection deliberately includes none that are intrinsic to the religion. Instead, the contributors

explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of Critical Terms for Religious Studies this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions **The Three Treasures**
