Narrative Strategy Of Wielands Don Sylvio Von Rosalva:

The Narrative Strategy of Wieland's Don Sylvio Von Rosalva W. Daniel Wilson, 1981 In the first full length study of Wieland's first novel 1764 the plot and narrative technique are examined interdependently Rather than satirising the hero as the narrator pretends the plot instead justifies his belief that the world around him is a fairy tale Several structures references and inset narratives underline this self conscious artificiality Two fictive readers one critical the other uncritical are portrayed in their relation to the narrator's claims of verisimilitude An ideal reader hovers between these two attitudes concretely manifesting the rococo principle of play *The Narrative Strategy of Wieland's Don Sylvio Von Rosalva* William

Daniel Wilson, 1978 *Narrative Concepts in the Study of Eighteenth-Century Literature* Liisa Steinby, Aino Mäkilä, 2025-10-01 This collection of essays studies the encounter between allegedly ahistorical concepts of narrative and eighteenth century literature from across Europe At issue is the question of whether the theoretical concepts underpinning narratology are despite their appearance of ahistorical generality actually derived from the historical study of a particular period and type of literature The essays take on aspects of eighteenth century texts such as plot genre character perspective temporality and more coming at them from both a narratological and a historical perspective **The Trauma of Defeat**

James Martin Skidmore, 2005 This is the first book length study to consider Ricarda Huch's historical political thought and assess Huch's place within the lively historiographical discourses of the 1920s One of the most famous writers of her day Huch 1864-1947 was known for her poetry fiction and histories of German Romanticism and the Thirty Years War Like many of her generation Huch was shaken by Germany's defeat in the First World War and this shock motivated her to use her historiography to address Germany's post war situation Convinced that the German nation possessed an identity best expressed by the ideals of Romanticism Huch attributed Germany's decline to the westernization of German political culture absolutism and centralization had replaced the theoretical perfection of the decentralized early Holy Roman Empire of the German Nation Her Weimar histories of medieval and nineteenth century Germany urged a defeated and traumatized nation to return to a path that had been abandoned during the Wilhelmine Empire Topics explored include Huch's use of Nietzschean monumentalism a comparison with popular historians of the period e.g. E. Kantorowicz the echoes of her political thought in her poetry and fiction and her complex relationship to German nationalism **The Novel: An Alternative**

History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive

Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms Booklist **German**

Noble Lies, Slant Truths, Necessary Angels Ellis Shookman, 2020-05-01. Using the nine novels of Christoph Martin Wieland (1733-1813) as case studies, Shookman explores the notion of fictionality both as a distinctive feature of the stories themselves and as a distinguishing characteristic of the fanciful notions, moral laws, political utopias, religious beliefs, and artistic concepts that they describe. The novels show readers why they should take fictions seriously yet not literally or how to suspend disbelief without suspending judgment. Shookman uses the concepts of imagination, ideals, and illusion to investigate how Wieland's novels define fiction, know its referents, and accept its truths. He places Wieland's use of fictionality in the evolution of the German novel while also using his work to comment on academic and real-world implications of fictionality.
