Narrative Unbound Revisioning William Blake's The Four Zoas:

Narrative Unbound Donald D. Ault, 1987 *Narrative Unbound* is the first full scale interpretation of the verbal text of Blake's most complex long poetic prophecy *The Four Zoas*. Never engraved or published in the poet artist's lifetime, the poem remains in a single manuscript, apparently unfinished and heavily revised, and yet is widely celebrated as one of Blake's most powerful narrative works. Ault challenges the view that the poem is intrinsically incomplete and flawed, arguing instead that the famous difficulties of the text are aspects of Blake's transformative narrative strategies. By respecting the integrity of Blake's work, taking every written mark on the page as potentially functional, Ault shows how the intricate interweaving of narrative patterns and interruptions are instrumental to conscious reading. The poetic intent is nothing less than a complete renovation of the reading experience, the potential of which is the realization of what Blake has called *Four fold vision*. Ault's approach serves as a guide both to reading *The Four Zoas* and to participating in a radical poetic method. *Narrative Unbound*, 1987

William Blake's Religious Vision Jennifer Jesse, 2013-02-14 In this innovative study, Jesse challenges the prevailing view of Blake as an antinomian and describes him as a theological moderate who defended an evangelical faith akin to the Methodism of John Wesley. She arrives at this conclusion by contextualizing Blake's works not only within Methodism but in relation to other religious groups he addressed in his art, including the Established Church, deism, and radical religions. Further, she analyzes his works by sorting out the theological road signs he directed to each audience. This approach reveals Blake engaging each faction through its most prized beliefs, manipulating its own doctrines through visual and verbal guide posts designed to communicate specifically with that group. She argues that once we collate Blake's messages to his intended audiences, sounding radical to the conservatives and conservative to the radicals, we find him advocating a system that would have been recognized by his contemporaries as Wesleyan in orientation. This thesis also relies on an accurate understanding of eighteenth-century Methodism. Jesse underscores the empirical rationalism pervading Wesley's theology, highlighting differences between Methodism as practiced and as publicly caricatured. Undergirding this project is Jesse's call for more rigorous attention to the dramatic character of Blake's works. She notes that scholars still typically use phrases like *Blake says* or *Blake believes*, followed by some claim made by a Blakean character without negotiating the complex narrative dynamics that might enable us to understand the rhetorical purposes of that statement as heard by Blake's respective audiences. Jesse maintains we must expect to find reflections in Blake's works of all the theologies he engaged. The question is what was he doing with them and why. In order to divine what Blake meant to communicate, we must explore how those he targeted would have perceived his arguments. Jesse concludes that by analyzing the dramatic character of Blake's works theologically through this wide-angled audience-oriented approach, we see him orchestrating a grand rapprochement of the extreme theologies of his day into a unified vision that integrates faith and reason.
