Narratives Of British Socialism:

Narratives of British Socialism S. Ingle, 2002-10-23 What can the study of narratives bring to our understanding of political ideas that other forms of analysis cannot In *Narratives of British Socialism* Stephen Ingle shows how imaginative literature can be used to give definition to political thought The origins development and eventual decline of British socialism are analyzed in the writings of Morris Shaw Wells Huxley Koestler Orwell and others Ingle concludes that narratives can give us an experiential understanding of political ideas *British Socialist Fiction, 1884-1914, Volume 1* Deborah

Mutch, 2024-08-07 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance **British Socialist**

Fiction, 1884-1914 Deborah Mutch, 2024-07-31 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance **Narratives of Delusion in the Political Practice of the Labour Left 1931-1945** Roger

Spalding, 2018-04-18 This book sets out a challenging re interpretation of the politics of Labour s left wing It shows how the Left developed a range of simplistic self sustaining narratives rather than supported analyses to guide its actions in the aftermath of the political crisis of 1931 This approach it is argued persisted down to the opening years of the present century its employment in part explaining the decline of the pre Corbyn Left The narratives developed by the Left reflected a belief in the existence of a working class waiting to be led in a radical direction The leading figures of the Left often had limited direct contact with working people but within their narratives the responses of their target audience were predictable and automatic The Left created an idealised working class that behaved as the Left wished In addition the book questions the popular view often enhanced by biographers of many of these Labour Left leaders *William Morris and the Idea of*

Community Anna Vaninskaya, 2010-10-12 The great polymath William Morris and his contemporaries and followers from H Rider Haggard to H G Wells are the focus of this study Anna Vaninskaya draws upon a wide array of primary sources from working class fiction and articles in fringe socialist newspapers to historical treatises autobiographies and diaries in order to explore the many ways Victorians and Edwardians talked about community and modernity Vaninskaya s narrative moves from the realm of romance bestsellers and sniggering reviews to debates in weighty historical tomes and then to the headquarters of revolutionary parties to street corners and shabby lecture halls She demonstrates how in each domain the dream of community clashed with the reality of the modern state and market **Generational Consciousness, Narrative,**

and Politics June Edmunds, Bryan S. Turner, 2002-11-19 With the erosion of strong class theory sociologists have recently started to look at aspects of social stratification other than class One of the most interesting new areas of investigation is the

sociology of generations This book brings together the work of scholars who are making a major contribution to this new sociological interest Through a combination of innovative theoretical and empirical studies this book shows that an analysis of generations is essential to an understanding of major social political and intellectual trends in the postwar period Each author brings to the volume insights from their own area of specialism with rich illustrative material spanning topics as diverse as African American identity and Spanish youth culture Theoretical inspiration also comes from a range of traditions including cultural and historical sociology social interactionism social and cognitive psychology and life course theory However a unifying thread emerges around questions about how generations should be conceptualized the role of trauma generating generational consciousness the relationship between auto biography and generational identity and the nature of inter and intra generational relationships This volume therefore provides a lively contribution to debates about the nature of generations and a stimulating basis for further work in this area *On the Turn* Bárbara Arizti, Silvia

Martínez-Falquina, 2009-05-05 *On the Turn The Ethics of Fiction in Contemporary Narrative in English* is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics The editors introduction investigates the current state of affairs on the return to ethics in critical and literary consideration and it opens up the way for the variety of approaches that follows Participants include internationally recognized scholars like Andrew Gibson Patricia Waugh or Native American fiction writer and poet Gordon Henry winner of the American Book Award in 1995 All in all contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post deconstruction ethics Authors analyze texts both mainstream and marginal colonial and postcolonial they examine the ethics of race gender and sexuality the ethics of self positioning and orientation the ethics of style the ethics of reception the ethics of mode and genre the ethics of extreme situations of evil disease and fascism In its search for a better understanding of the global nationalistic world of today *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider more urgent relevance What should I ought I may I must I do if anything on the basis of reading when I have read a literary work What does reading a literary work authorize or even command me to do Writing an essay about the work would be one response *On the Turn* is a wonderfully diverse learned challenging provocative even sometimes controversial collection of essays on the ethical dimensions of literature This book is testimony to the continued lively interest in the ethical turn in literary studies The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers values and judgments Poetry and non print media are however also discussed J Hillis Miller UCI Distinguished Research Professor of Comparative Literature and English University of California at Irvine *The Ethics of Fiction* is an important and exciting volume that explores with energy and rigour the connections between ethics and literature Relating literature to philosophy neurobiology politics religion deconstruction and psychoanalysis the twenty two contributors richly advance the ethical turn

recently embraced by many critics Works by authors such as Ian McEwan A S Byatt Charles Palliser Hanif Kureishi J M Coetzee David Malouf George Orwell E L Doctorow Flannery O Connor Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality the nature of love Islamophobia and the politics of representation are tackled with imagination and intellectual integrity This book is essential reading for anyone interested in the dialogue between ethics and literature Avril Horner Professor of English Kingston University *These Englands* Arthur Aughey, 2019-01-25 The term conversation is one of today's jargon terms This book explores in depth what conversation means in national terms Its premise is that to be English is to participate in a conversation about the country's history politics culture and society The conversation changes of course but there is also continuity which illustrates a distinct tradition It is a conversation the book argues which requires the plural notion of these Englands rather than the singularity of this England Englishness then is the tone register and idiom of it subject matters its anxieties and certainties differences and commonalities The book explores the English conversation through historical political literary and popular voices and tries to identify the character of contemporary Englishness **Workers and Nationalism** Jakub S. Beneš, 2017 This book tells the story of how nationalism spread among industrial workers in central Europe in the twentieth century addressing the far reaching effects including the democratization of Austrian politics the collapse of internationalist socialist solidarity before World War I and the twentieth century triumph of Social Democracy in much of Europe **Surface Tension** Julie Carr, 2013-04-23 Taking Dante Gabriel Rossetti William Morris and Gerard Manley Hopkins as its primary subjects Surface Tension reveals how these later Victorian poets repeatedly imagine the aesthetic moment charged variegated intensely focused as capable of birthing a new and newly redemptive culture Turning to contemporary experimental poets and theorists of poetry such as Andrew Joron Lisa Robertson Christopher Nealon and Joan Retallack it goes on to reveal how our own poetry's fascination with complex surfaces and imagined social transformation has deep and under recognized ties to Victorian concepts Surface Tension offers new insights into the debt we owe to the most radical of the Victorians while yielding new understandings of how late Victorian poetry even when least explicitly political engages and often re envisions the period's pressing anxieties about social progress decadence and revolution Working Out Gender Margaret Walsh, 2017-03-02 Working out Gender brings together leading scholars and young researchers to examine the various ways in which gender is currently being used in labour history Having been a dynamic and contentious category of historical analysis since the mid 1980s gender continues to incite much debate This volume seeks a more informed view about labour history both by advancing the position of women and making their lives central to learning and by examining men as gendered persons and discussing the social construction of masculinity A broad perspective of labour history is scrutinised on both sides of the Atlantic though the emphasis is given to European experiences Themes examined include work and workplace activities the working classes masculinity and politics and the timespan ranges from the eighteenth century to recent times How to Do Things with Narrative Jan Alber, Greta

Olson,2017-11-20 This volume combines narratological analyses with an investigation of the ideological ramifications of the use of narrative strategies The collected essays do not posit any intrinsic or stable connection between narrative techniques and world views Rather they demonstrate that world views are inevitably expressed through highly specific formal strategies This insight leads the contributors to investigate why and how particular narrative techniques are employed and under what conditions *The Routledge Handbook of the Politics of Brexit* Patrick Diamond,Peter Nedergaard,Ben

Rosamond,2018-05-08 The surprise decision expressed by the British people in the referendum held in June 2016 to leave the European Union was remarkable It also presents a natural experiment where the exposure of a society to an extraordinary event allows scholars to observe in real time in the real world the interaction of variables The Routledge Handbook of the Politics of Brexit takes stock of what we know in the social science community about the Brexit phenomenon so far and looks to make sense of this remarkable process as it unfolds The book asks simple questions across a range of areas and topics so as to frame the debate into a number of navigable subdiscussions providing structure and form to what is an evolving and potentially inchoate topic As such it provides a systematic account of the background for the content of and the possible implications of Brexit The handbook therefore does not examine in detail the minutiae of Brexit as it unfolds on a day to day basis but raises its sights to consider both the broad contextual factors that shape and are shaped by Brexit and the deeper sources and implications of the British exit from the European Union Importantly as interest in Brexit reaches far beyond the shores of the United Kingdom so an international team of contributors examines and reveals the global implications and the external face of Brexit The Routledge Handbook of the Politics of Brexit will be essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research on Brexit British politics European Union politics and comparative politics and international relations History's Queer Stories

Natalie Marena Nobitz,2018-10-04 Critical analysis of the dramatisation of homosexuality in British fiction about the Second World War is noticeable only by its relative absence from the field Whereas feminist literary criticism has broadened the canon of war fiction to include narratives by and about women queer scholars have seldom focused on literary representations of homosexuality during the war Natalie Marena Nobitz closes a glaring gap in the critical attention of four novels dealing with the disruption of gender roles and institutionalised heteronormativity Walter Baxter's Look Down in Mercy 1951 Mary Renault's The Charioteer 1953 Sarah Waters The Night Watch 2006 and Adam Fitzroy's Make Do and Mend 2012 **Socialist Imaginations** Stefan Arvidsson,Jakub Beneš,Anja Kirsch,2018-09-21 This volume offers new

perspectives on the appeal and profound cultural meaning of socialism over the past two centuries It brings together scholarship from various disciplines addressing diverse national contexts including Britain China France Germany Norway Sweden and the USA Taken together the contributions highlight the aesthetic narrative and religious dimensions of socialism as it has developed through three broad phases in the modern era early nineteenth century beginnings mass based political

organizations and the attainment of state power in the twentieth century and beyond Socialism did not attract millions of people primarily because of logical argument and empirical evidence important though those were Rather it told the most compelling story about the past present and future Refocusing attention on socialism s imaginative dimensions this volume aims to revive scholarly interest in one of the modern world s most important political orientations **Governance Stories** Mark Bevir,Rod Rhodes,2006-04-19 An incisive examination of Britain today which breaks from traditional studies and takes a new approach to account for massive changes in the make up of the nation Over the last twenty years Britain has changed from being governed as a unitary state to a country ruled by the interplay of various forces central government the market public private partnerships new local government structures eg the new Mayoral system greater regional autonomy as well as the EU and transnational businesses and organizations In their earlier book *Interpreting British Governance* Bevir and Rhodes examined changes in British government by setting out an interpretative approach to British political science which focussed on an aggregate analysis of British political traditions This new study builds on this work to provide a theoretical defence of situated agency located in the historical context of British political science compare their approach to British political science with others including post structural and institutional analysis present a general account of governance as the context for ethnographic analyses of governance in action deliver studies of the consumers of public services the National Health Service government departments and policy networks This book will be of great interest to advanced students and researchers of political theory public policy British politics and British history *Ruptured Commons* Anna Guttman,Veronica J. Austen,2024-10-10 At a time when we have all lived through profound and unexpected disruptions to our shared spaces routines economies societies and work lives this book considers the nature and implications of rupture the commons and their conjoining Addressing rupture and disruption through the lens of literary and cultural studies this volume traverses genres film fiction theatre poetry and the graphic novel and continents and addresses histories and identities as ecologies The focus is resolutely contemporary with nearly all of the texts being analyzed produced within the last decade Beginning with the history of and debates about Garrett Hardin s famous tragedy of the commons *Ruptured Commons* engages with texts and cultures of disaster wherein artistic expression becomes a form of protest and a path to change This collection both critically examines our arrival at and understanding of this moment and explores diverse and hopeful visions for the future embedded within contemporary culture *The Routledge Companion to William Morris* Florence S. Boos,2020-10-29 William Morris 1834-96 was an English poet decorative artist translator romance writer book designer preservationist socialist theorist and political activist whose admirers have been drawn to the sheer intensity of his artistic endeavors and efforts to live up to radical ideals of social justice This Companion draws together historical and critical responses to the impressive range of Morris s multi faceted life and activities his homes travels family business practices decorative artwork poetry fantasy romances translations political activism eco socialism and book collecting and design Each

chapter provides valuable historical and literary background information reviews relevant opinions on its subject from the late nineteenth century to the present and offers new approaches to important aspects of its topic Morris's eclectic methodology and the perennial relevance of his insights and practice make this an essential handbook for those interested in art history poetry translation literature book design environmentalism political activism and Victorian and utopian studies

Beyond Representation Geraldine Harris, 2013-07-19 *Beyond representation* poses the question as to whether over the last thirty years there have been signs of progress or progressiveness in the representation of marginalised or subaltern identity categories within television drama in Britain and the US In doing so it interrogates some of the key assumptions concerning the relationship between aesthetics and the politics of identity that have influenced and informed television drama criticism during this period This book can function as a textbook because it provides students with a clear and coherent pathway through complex wide reaching and highly influential interdisciplinary terrain Yet its rigorous and incisive re evaluation of some of the key concepts that dominated academic thought in the twentieth century also make it of interest to scholars and specialists Chapters examine ideas around politics and aesthetics emerging from Marxist socialism and postmodernism feminism and postmodern feminism anti racism and postcolonialism queer theory and theories of globalisation so as to evaluates their impact on television criticism and on television as an institution These discussions are consolidated through case studies that offer analyses of a range of television drama texts including *Big Women Ally McBeal Supply and Demand The Bill Second Generation Star Trek Enterprise Queer as Folk Metrosexuality and The Murder of Stephen Lawrence* This book is aimed at students and scholars of Television Drama Media and Communication Cultural Studies Women's Studies and those concerned with questions of politics and aesthetics in other disciplines **Ireland, Revolution, and the English Modernist Imagination** Eve Patten, 2022 Studies the response of English writers during the first half of the twentieth century to the process of revolution in neighbouring Ireland It explores novels letters travelogues and memoirs from writers such as Wyndham Lewis Virginia Woolf D H Lawrence Evelyn Waugh May Sinclair Ethel Mannin George Thomson and T H White
