Cambridge: Cambridge University Press, 1997. [Review]. Stephen Jackson, 1997 *Portrayed on the Heart* Cynthia Hahn, 2001-11-20 Hagiography or writing about and illustrating the lives of saints was one of the most creative areas for artistic inspiration in the literature and arts of the Middle Ages This book explores the sumptuously illustrated saints lives that were made in medieval Europe Cynthia Hahn discusses a broad range of manuscripts and other artifacts many of which are reproduced here and provides an analysis of their pictorial and narrative structure Hahn s book is a virtual compendium of images many rarely published as well as a learned study that deepens our understanding of the role of various types of saints the nature of their audience and the historical moment when individual works were produced After two informative introductory chapters setting the historical and narrative context of pictorial hagiography Hahn considers the Lives of Martyrs and Virgins Bishops Monks and Abbots and Kings and Queens and concludes with an examination of the extraordinary chronicles and illustrations of the lives of saints by the English monk Matthew Paris She considers such questions as Why were illustrated saints lives produced in such great numbers during this period Why were they illustrated at all given the trouble and expense of such illustration And to whom did the saints lives appeal and how did their readers use them As she addresses these and other intriguing questions Hahn traces changes that occurred over time both in the images and the stories and shows how their creators mostly the intellectual elite were finely attuned to audience reception This important aspect of hagiographic production has received scant attention in the past and as she considers this issue in light of contemporary narrative theory Hahn brings us to a fresh appreciation of these intricately illustrated manuscripts and their multiple audiences *Investigations in Medieval Stained Glass*, 2019-06-07 With many excellent books on medieval

Laverock, 2024-11-11 In *Vitreous Vitae* St Margaret of Antioch in Thirteenth Century Stained Glass Ashley J Laverock considers the representation of the virgin martyr St Margaret in thirteenth century stained glass windows in Europe These windows appeared at a moment when Margaret's cult was expanding but before the motif of the saint with the dragon became normative They offer insight into the rich narrative potential of Margaret's life in a monumental medium seen by wide audiences Examining these windows not only reveals shared emphases on Margaret's imitatio Christi corporeal suffering and encounters with the dragon and demon but also shows how distinct site specific hagiographies of Margaret were tailored to each church's context Multi faceted Margarets contributed to the wider cult of the saint

Pictorial Narrative in the Romanesque Cloister Pamela Anne Patton, 2004 Praised as paradisiacal or denounced as impious fantasy the sculpture of Romanesque cloisters played a powerful role in medieval monastic life This book demonstrates how sculpture in the cloister the physical and spiritual heart of the religious foundation could be shrewdly configured to articulate the most influential ideals and experiences of its individual community Taking as its focus the visually rich highly organized narrative programs of three twelfth century Spanish cloisters this book reveals the power of such imagery to reflect and reinforce the social and spiritual preoccupations of its age

Dark Mirror Sara Lipton, 2014-11-04 In *Dark Mirror* Sara Lipton offers a fascinating examination of the emergence of anti Semitic iconography in the Middle Ages The straggly beard the hooked nose the bag of coins and gaudy apparel the religious artists of medieval Christendom had no shortage of virulent symbols for identifying Jews Yet hateful as these depictions were the story they tell is not as simple as it first appears Drawing on a wide range of primary sources Lipton argues that these visual stereotypes were neither an inevitable outgrowth of Christian theology nor a simple reflection of medieval prejudices Instead she maps out the complex relationship between medieval Christians religious ideas social experience and developing artistic practices that drove their depiction of Jews from benign if exoticized figures connoting ancient wisdom to increasingly vicious portrayals inspired by and designed to provoke fear and hostility At the heart of this lushly illustrated and meticulously researched work are questions that have

occupied scholars for ages why did Jews become such powerful and poisonous symbols in medieval art Why were Jews associated with certain objects symbols actions and deficiencies And what were the effects of such portrayals not only in medieval society but throughout Western history What we find is that the image of the Jew in medieval art was not a portrait of actual neighbors or even imagined others but a cloudy glass into which Christendom gazed to find a distorted phantasmagoric rendering of itself

The Artful Mind Mark Turner, 2006-10-26 All normal human beings alive in the last fifty thousand years appear to have possessed in Mark Turner's phrase irrepressibly artful minds Cognitively modern minds produced a staggering list of behavioral singularities science religion mathematics language advanced tool use decorative dress dance culture art that seems to indicate a mysterious and unexplained discontinuity between us and all other living things This brute fact gives rise to some tantalizing questions How did the artful mind emerge What are the basic mental operations that make art possible for us now and how do they operate These are the questions that occupy the distinguished contributors to this volume which emerged from a year long Getty funded research project hosted by the Center for Advanced Study in the Behavioral Sciences at Stanford These scholars bring to bear a range of disciplinary and cross disciplinary perspectives on the relationship between art broadly conceived the mind and the brain Together they hope to provide directions for a new field of research that can play a significant role in answering the great riddle of human singularity

Contextualizing the Archivolted Portals of Northern Spain and Western France within the Theology and Politics of Entry explores the history development and accrued connotations of a distinctive entry configuration comprised of a set of concentrically stepped archivolt surrounding a deliberate tympanum free portal opening. These archivolted portals adorned many of the small rural ecclesiastical structures dotting the countryside of western France and northern Spain in the twelfth century. Seeking to re-contextualize this configuration within monastic meditational practices, this book argues that the ornamented archivolt was likely composed following medieval prescriptions for the rhetorical ornamentation of poetry and employed the techniques of mnemonic recollection and imaginative visualization. Read in this light, it becomes clear that the architectural form underlying these semi-circular configurations served to open the possibilities for meaning by making the sculptural imagery physically and philosophically accessible to both the monastic community and the lay parishioner. Pointing to an Iberian heritage in which both light and space had long been manipulated in the conveyance of theological and political ideologies, Abel suggests that the portal's architectural form grew out of a physical and social matrix characterized by pilgrimage, crusade, and processions, where the elements of motion integral to the Quadrivium sciences of Math, Geometry, Astronomy, and Music were enhanced by a proximity to and cultural interaction with the Islamic courts of Spain. It was, however, within the politics of the Peace of God movement, with its emphasis on relic processions that often encompassed all the parishes of the monastic domain, that the archivolted portal, with its elevated porch-like space, is shown to be the most effective.

[Cyclic Form and the English Mystery](#)

Plays Peter Happé, 2016-08-09 Cyclic Form and the English Mystery Plays is centred upon the five extant English mystery cycles with a view to examining the cyclic form they share. It is based upon consideration of the differences between the texts and upon the underlying assumptions governing this dramatic form. The cycles are extensively compared with practices in the cyclic dramas of France, the German speaking areas, Italy, the Netherlands and Spain in the late middle ages and the early modern period. There is also a unique and innovative bridging with iconographical material from a range of artistic modes giving further insight into the structure and organisation of cyclic form. Cyclic Form and the English Mystery Plays should be of interest to undergraduate students and to more experienced researchers in the early drama and the study of visual images and artefacts. Altarpieces and Their Viewers in the Churches of Rome from Caravaggio to Guido Reni Pamela M.

Jones, 2017-07-05 A social history of reception, this study focuses on sacred art and Catholicism in Rome during the late sixteenth and seventeenth centuries. The five altarpieces examined here were painted by artists who are admired today: Caravaggio, Guercino and Guido Reni, and by the less renowned but once influential Tommaso Laureti and Andrea Commodi. By shifting attention from artistic intentionality to reception, Pamela Jones reintegrates these altarpieces into the urban fabric of early modern Rome, allowing us to see the five paintings anew through the eyes of their original audiences, both women and men, rich and poor, pious and impious. Because Italian churchmen relied after the Council of Trent on public altarpieces more than any other type of contemporary painting in their attempts to reform and inspire Catholic society, it is on altarpieces that Pamela Jones centers her inquiry. Through detailed study of evidence in many genres, including not only painting, prints and art criticism, but also cheap pamphlets, drama, sermons, devotional tracts, rules of religious orders, pilgrimages, rituals, diaries and letters, Jones shows how various beholders made meaning of the altarpieces in their aesthetic, devotional, social and charitable dimensions. This study presents early modern Catholicism and its art in an entirely new light by addressing the responses of members of all social classes, not just elites, to art created for the public. It also provides a more accurate view of the range of religious ideas that circulated in early modern Rome by bringing to bear both officially sanctioned religious art and literature and unauthorized but widely disseminated cheap pamphlets and prints that were published without the mandatory religious permission. On this basis, Jones helps to illuminate further the insurmountable problems churchmen faced when attempting to channel the power of sacred art to elicit orthodox responses. **The Making of the Bibles Moralisées: Volume I: The Manuscripts**, **In the Mirror of the Prodigal Son** Pietro

Delcorno, 2017-09-25 In the Mirror of the Prodigal Son provides a comprehensive history of the function of the parable of the prodigal son in shaping religious identity in medieval and Reformation Europe. By investigating a wealth of primary sources, the book reveals the interaction between commentaries, sermons, religious plays and images as a decisive factor in the increasing popularity of the prodigal son. Pietro Delcorno highlights the ingenious and multifaceted uses of the parable within pastoral activities and shows the pervasive presence of the Bible in medieval communication. The prodigal son narrative

became the ideal story to convey a discourse about sin and penance grace and salvation In this way the parable was established as the paradigmatic biography of any believer
