New Readings Of The American Novel:

American Fiction Richard J. Gray, 1983 This collection of essays offers a series of fresh and authoritative readings of most of the more important prose writers and taken as a whole a major reassessment of the American tradition in prose fiction Each of the contributors has an enthusiastic and informed interest in the writer discussed and attempts both to characterize that writer's achievement and to offer a new perspective on his or her work The book begins with a discussion of James Fenimore Cooper the founding father of the American novel and ends with an account of Norman Mailer whose varied and adventurous writings perhaps best illustrate the conflicting forces at work in contemporary American fiction In between there are essays on Nathaniel Hawthorne Edgar Allan Poe Herman Melville Mark Twain Henry James Theodore Dreiser Willa Cather Scott Fitzgerald William Faulkner Ernest Hemingway and Richard Wright Attention is paid to context the social and historical circumstances with which each writer had to engage but the main emphasis is on the texts themselves their language narrative structure the experience of reading them and not least on the place they occupy in the American literary landscape cover *New Readings Of The American Novel* Peter B. Messent, 1998-02-01 Takes a set of important theoretical approaches including Genette Barthes Bakhtin and Reader Response criticism and applies them in close readings of 8 key American novels from the period 1880 to 1940 This series of novels moves from James's *The Portrait of a Lady* to Hurston's *Their Eyes Were Watching God* Also includes Twain's *Huckleberry Finn* Wharton's *The House of Mirth* Cather's *A Lost Lady* Hemingway's *The Sun Also Rises* Faulkner's *The Sound and the Fury* and Fitzgerald's *The Great Gatsby* These perennially popular novels appear on many American Literature survey courses and the careful application of theory to texts makes this the ideal book for students when first introduced to the concept of narrative theory **New Readings of the American Novel** Peter B. Messent, 1990 Employing theoretical approaches drawn from Genette Barthes Iser Ricouer Bakhtin and others Messent provides an accessible and stimulating bridge between the European theoretical tradition and the American novelistic canon **New Readings of the American Novel** Peter Messent, 1998 Employing theoretical approaches drawn from Genette Barthes Iser Ricouer Bakhtin and others Messent provides an accessible and stimulating bridge between the European theoretical tradition and the American novelistic canon Reading America Elizabeth Boyle, 2009-03-26 This specially commissioned volume of essays offers a refreshing and unusual perspective on classic novels from the American literary canon Accessible to students scholars and the interested reader this engaging collection explores familiar novels through unfamiliar lenses and in so doing sheds light on surprising and previously overlooked aspects of each text *Reading America* presents a new approach to American literature by showcasing a cross section of recent research into previously untapped areas of interest Each chapter attempts to re-read classic American texts using new or unorthodox theoretical frameworks including such diverse topics as an Emersonian reading of Don DeLillo decoding Thomas Pynchon with eco criticism and understanding Paul Auster's New York Trilogy by exploring the graphic novel version of *City of Glass*

Other authors explored in this way include Henry James Truman Capote Ralph Ellison Toni Morrison Joyce Carol Oates and F Scott Fitzgerald This type of approach widens the reader's knowledge of each well known text and encourages new critical evaluations of contemporary American literature The collection moves through six large topic areas from Naturalism and an idea of the Great American Novel at the end of the nineteenth century through politics sexuality language and nature to a contemporary engagement with postmodernism Each essay deals with its own particular subject and author but the full impact of each on the notion of the American novel as a phenomenon can only be understood when read in conjunction with the others Of interest to both undergraduate and postgraduate students Reading America would be a valuable asset to any American Studies or American Literature degree course and a useful companion to American History or Politics courses The volume will also attract strong interest from established academics especially those researching the fields of literature critical theory cultural history and politics
