The Poverty of Postmodernism John O'Neill, 2002-11-01 The Poverty of Postmodernism rejects the current celebration of knowledge and value relativism This is on the grounds that it renders critical reason and commonsense incapable of resisting the superficial ideologies of minoritarianism that leave the hard core of global capitalism unanalyzed In this book John O'Neill examines the postmodern turn in the social sciences From a phenomenological standpoint Husserl Merleau-Ponty Schutz Winch he challenges Lyotard's post-rationalist reading of Wittgenstein and Habermas in order to defend commonsense reason and values that are constitutive of the everyday life world In addition he argues from the standpoint of Vico and Marx on the civil history of embodied mind that the post-rationalist celebration of the arts of superficiality undermines the recognition of the cultural debt each generation owes to past and post generations In a positive way O'Neill develops an account of the historical vocation of reason and of the charitable accountability of science to commonsense that is necessary to sustain the basic institutions of civic democracy

Merleau Ponty's work is arguably now more widely influential than either of his two contemporaries. Merleau Ponty Key Concepts presents an accessible guide to the core ideas which structure Merleau Ponty's thinking as well as to his influences and the value of his ideas to a wide range of disciplines. The first section of the book presents the context of Merleau Ponty's thinking: the major debates of his time, particularly existentialism, phenomenology, the history of philosophy and the philosophy of history and society. The second section outlines his major contributions and conceptual innovations. The final section focuses upon how his work has been taken up in other fields besides philosophy, notably in sociology, cognitive science, health studies, feminism and race theory.
