Perception Of Reality And The Fate Of A Civilization:

Perception of Reality Richard J. Robertson, 2003-11 Many observers of the world scene in recent decades have raised questions about the future of Western Civilization and the United States as the foremost exemplar They see us locked in tangles of inconsistent intentions and self contradictory efforts to remedy growing political and environmental problems This development may be an inevitable consequence of the evolution of first principles which deteriorate in a civilization as their implications are drawn out over time The process is one in which people behaving to maximise individual and social purposes competitively reinterpret their perceptions of reality until the culture stagnates from a deficiency of common purpose

This Time They Perceive Todd Andrew Rohrer, 2010-04-12 A man had an accident He lost his sense of time and emotional capacity This is his fifteenth attempt to communicate since the accident *Perceptions of Reality* Gregory Calise, 2003 Although we are all living in the same world we are simultaneously each living in our own separate universe where each person observes himself as the center of that universe Each person has a unique conditioning and belief structure that create his perspective in which he views reality The world then interfaces with each person to create a reality that conforms to his beliefs A person's conditioning and beliefs affect his attitudes and emotions which then magnetize certain energies that resonate to his state of being In this way each individual is creating a separate reality according to his perceptions of truth What we perceive as reality is only the surface of a much deeper and greater truth Beyond the apparent world lies the essence of life and a vast kingdom of hidden knowledge Our conditioning and beliefs bind us to a certain perspective in which we view our reality Perceptions of Reality show us how we can break free of the bondage of our conditioning that holds us in a life of mediocrity When we become free from this bondage we can change our perspective which in turn changes our perceptions From a higher perspective we can see the larger picture of our lives and the world We will see the circumstances that have created our present reality and the relationships of events and experiences that were previously beyond our horizons of perception From this higher perspective we will perceive the world in a new light It will change before our eyes and interface with us in a new and more positive way We will be able to take control of our lives change our destiny and shape a new future From this higher state of awareness we will discover the portal to access the abstract mind which is the mental function of genius and the doorway to revelation From the perspective of revelation we will open the doors into the absolute realms beyond material time and space and describes the perceptions of God the soul the world and the paths to higher consciousness Perceptions of Reality will show us how to access the abstract mind and open the doorways into revelation creating a new reality full of abundance harmony and joy **The Authority of Material Vs. the Spirit** Douglas D Hunter, 2006-12-22 A new mathematically based structure for language allows for a new context with which one can make verifiable predictions about material life mind and the spiritual intent of creative existence [Gandhi on Pluralism and Communalism](#) P.
