Stephenson,2010 The EPA s mission is to protect human health and the environment by implementing and enforcing environmental laws intended to improve the quality of the nation s air and water and to protect its land EPA s policies and programs affect virtually all segments of the economy society and gov t This report identifies challenges at EPA that hinder its ability to implement its programs effectively including 1 improving agencywide mgmt 2 transforming EPA s processes for assessing and controlling toxic chemicals 3 improving implementation of the Clean Air Act 4 reducing pollution in the nation s waters 5 speeding the pace of cleanup at Superfund and other hazardous waste sites and 6 addressing emerging climate change issues Illus Mother Earth and Uncle Sam Rena I. Steinzor,2009-05-21 In this compelling study Rena Steinzor highlights the ways in which the government over the past twenty years has failed to protect children from harm caused by toxic chemicals She believes these failures under funding excessive and misguided use of cost benefit analysis distortion of science and devolution of regulatory authority have produced a situation in which harm that could be reduced or eliminated instead persists Steinzor states that as a society we are neglecting our children s health to an extent that we would find unthinkable as individual parents primarily due to the erosion of the government s role in protecting public health and the environment At this pace she asserts our children will inherit a planet under grave threat We can arrest these developments if a critical mass of Americans become convinced that these problems are urgent and the solutions are near at hand By focusing on three specific case studies mercury contamination through the human food chain perchlorate rocket fuel in drinking water and the effects of ozone smog on children playing outdoors Steinzor creates an analysis grounded in law economics and science to prove her assertions about the existing dysfunctional system Steinzor then recommends a concise and realistic series of reforms that could reverse these detrimental trends and serve as a blueprint for restoring effective governmental intervention She argues that these recommendations offer enough material to guide government officials and advocacy groups toward prompt implementation for the sake of America s and the world s future generations **Gao-05-462 Perchlorate** United States Government Accountability Office,2018-01-31 GAO 05 462 Perchlorate A System to Track Sampling and Cleanup Results Is Needed *Troubled Water* Seth M. Siegel,2019-10-01 New York Times bestselling author

Seth M Siegel shows how our drinking water got contaminated what it may be doing to us and what we must do to make it safe If you thought America s drinking water problems started and ended in Flint Michigan think again From big cities and suburbs to the rural heartland chemicals linked to cancer heart disease obesity birth defects and lowered IQ routinely spill from our taps Many are to blame the EPA Congress a bipartisan coalition of powerful governors and mayors chemical companies and drinking water utilities even NASA and the Pentagon Meanwhile the bottled water industry has been fanning our fears about tap water but bottled water is often no safer The tragedy is that existing technologies could launch a new age of clean healthy and safe tap water for only a few dollars a week per person Scrupulously researched Troubled Water is full of shocking stories about contaminated water found throughout the country and about the everyday heroes who have successfully forced changes in the quality and safety of our drinking water And it concludes with what America must do to reverse decades of neglect and play it safe inaction by government at all levels in order to keep our most precious resource safe
