de introducción a la Microeconomía y a la Macroeconomía suelen preguntarse cómo se debería enseñar Economía en un curso básico cómo deberían ser utilizados los fundamentos del análisis económico y cómo deberían aplicarse para entender el mundo real. Las obras de Krugman y Wells responden satisfactoriamente a estas cuestiones como ningunos otros manuales en el mercado actual. Los libros destacan por ser unos manuales inteligentes e incisivos y porque relacionan de una manera espléndida la teoría con el mundo real todo ello dentro de un marco de rigor y sencillez. Entre sus virtudes se pueden citar las siguientes. Se utilizan herramientas matemáticas sencillas para presentar los fundamentos de la teoría económica. El temario es exhaustivo e incluye todos los temas micro y macroeconómicos actuales. Los gráficos utilizados son muy esclarecedores y sustituyen eficazmente el rigor matemático de los fundamentos de la teoría económica. La presentación es dinámica haciendo que el estudiante interactúe con el texto e incentive a que interprete los hechos cotidianos en términos económicos. Las obras de Microeconomía y Macroeconomía responden satisfactoriamente tanto a las exigencias de los alumnos como de los docentes. Dado que la metodología de enseñanza en la Unión Europea seguir las directrices de Bolonia, estos manuales serán una herramienta útil para la puesta en práctica de este tipo de enseñanza.

Configurations of a Cultural Scene

Andrew A. Anderson, 2023-01-15 Throughout the 1920s a remarkable number of young writers and artists lived and worked in Madrid creating an atmosphere of effervescence and an upsurge in creativity that has rarely been equalled. These young people acquainting themselves with one another within the span of only a few years came together to form a tightly woven network of both personal and artistic relationships. In *Configurations of a Cultural Scene* Andrew Anderson explores this growing community of artists and writers with a focus on how sites of face to face interaction in Madrid fostered creative work and forged young identities. Organizing locations into places of sociability, learning and residence, Anderson offers five case studies that exemplify the significance of these three points of intersection: Rafael Barradas and his tertulia at the Café de Oriente, an artists' studio located on the Pasaje de la Alhambra, women art students at the Academia de San Fernando who lodged at the Residencia de Señoritas, the artist and writer Gabriel García Márquez and the close relationship between artist Maruja Mallo and poet Rafael Alberti. Departing from conventional approaches that foreground the trajectories of individual careers, Anderson privileges the lived experience of artists and writers in his analysis of a rich cultural scene held together by cooperation, exchange and interpersonal connections.

Guadalupe María Cabedo, 2014-03-07 La literatura española de posguerra ya se ha analizado mucho y afortunadamente bastantes de las previamente olvidadas escritoras de posguerra se han ido recuperando y estudiando Sin embargo todavía queda mucho por desarrollar Hoy día en España es vital recuperar la labor de la memoria colectiva para poder ver y entender mejor el pasado pues no se puede construir un futuro sin haber reconstruido y entendido ese pasado Este libro es un análisis de tres novelas de la posguerra escritas por mujeres Nada de Carmen Laforet Entre visillos de Carmen Martín Gaité y Primera memoria de Ana María Matute Estas escritoras a las que la crítica ha incluido dentro de la denominada Generación de Posguerra conforman una suerte de grupo literario ya que comparten sus obras una serie de características comunes Dichos rasgos vienen dados por una temática centrada en las preocupaciones problemas e inquietudes de las mujeres de su generación Este libro analiza temas comunes de estas tres obras la ausencia de la madre soledad y aislamiento galaxia femenina y por último identidad e independencia No es mi intención mostrar una teoría feminista que defienda la existencia de una escritura o estética femenina basada en el hecho biológico de ser mujer Creo que existe lo denominado literatura de mujeres pero las coordenadas que las definen vienen dadas por el hecho de ser mujer como constructo social y no biológico Algunos acercamientos teóricos sobre los efectos de la ausencia de la madre como los estudios de Carol Gilligan Marianne Hirsch y Nancy Chodorow entre otros nos ayudan a tener una mejor comprensión de lo que estas teorías feministas y psicoanalíticas han aportado a las obras literarias a través de la historia y especialmente a la narrativa femenina de estas autoras de la posguerra investigadas aquí Mi objetivo principal ha sido retratar la rebeldía de las protagonistas femeninas de estas tres novelas contra la madre sustituta que tienen dada la idealización que se tiene de la madre en España en esta época y a causa del inconformismo que sentían estas escritoras y muchísimas más mujeres de la posguerra española ante el gobierno patriarcal y androcéntrico del franquismo
